PRESIDENT’S MESSAGE

Dear Students:

I am pleased to welcome you to Coastline Community College. Thank you for choosing us as your education partner for pursuing your A.A./A.S., transfer degree, associate degree, career/technical certificate, or attainment of basic skills for college readiness. You have made an excellent choice!

Investing in a college education is still the smartest investment you can make. Research consistently shows that college graduates earn more than those with high school diplomas as much as 40% more over the course of their lifetime. Degree earners also find more job opportunities open to them and tend to be happier with their careers. If that sounds like the future you want, you’ve definitely come to the right place.

As a fully accredited college, Coastline provides affordable, accessible, and high quality education at three beautiful campuses in Orange County (Garden Grove, Newport Beach, and Westminster), as well as convenient, online courses and degrees you can take right from your home, wherever you live. As well, we have caring faculty and support staff who are dedicated and focused on your success and will guide and support you through your educational journey.

Since we started in 1976, our focus has been on helping YOU, the student, achieve your academic and career goals. Whether your goal is to earn your Associate degree and transfer to a university or to complete a certificate to improve your career opportunities, Coastline is here to help YOU succeed. You can count on first class student support services and programs, low student faculty ratio, high caliber faculty, and academic excellence.

Coastline is continuing to strengthen and expand academic degree and transfer programs, as well as Career/Technical Education, and Basic Skills programs both on site and online. The STAR program assists students in pursuing an accelerated degree or transfer to a four year university through a structured pathway. Career and technical programs are designed to meet the current, emerging, and future needs of business in terms of employees knowledge and skills.

If your goal is to attain a degree, prepare for transfer, get a new job, or advance in your chosen career, Coastline is your college.

I urge you to take advantage of the comprehensive array of support services that are available to you at Coastline. A great “first stop” would be meeting with one of our caring and dedicated counselors who will help get you on the pathway to your long term career goals.

We want you to make sure you have the best academic experience while at Coastline. We look forward to serving you.

LORETTA P. ADRIAN, Ph.D.
President
Why Students Choose Community College

Military Program Enrollment Fees

Coastline offers online and other distance learning education programs specifically designed to meet the unique needs of military and corporate students and clients. With approval of its Board of Trustees in 2000, Coastline established an ancillary program specifically designed to meet the unique needs of active-duty servicemembers and adheres to Service-specific educational program practices, requirements, contracts, and MOUs.

Our Military Program incorporates a dedicated team of faculty and staff experienced with serving the military community, a set catalog and schedule of 8-week online courses, and assured enrollment for seamless and timely degree completion. Coastline also provides non-Internet-based courses to Sailors at sea through the Navy College Program for Afloat Education (NCPACE).

Military Programs are approved for Tuition Assistance (TA), MyCAA Financial Assistance vouchers (military spouses), and Veterans Affairs education benefits.

Current program rates range up to $200 per credit hour. Please visit our website at military.coastline.edu, or the respective Coastline-sponsored employer website, for program-specific information and prevailing rates.

Funding Options

Coastline accepts Tuition Assistance (TA), MyCAA Financial Assistance vouchers, and the GI Bill. Students may apply for federal financial aid with FAFSA submission; students using Tuition Assistance are not precluded from receiving federal financial aid. Eligible students may apply for Coastline scholarships.

National Test Centers

Servicemembers can accelerate degree completion and save money on books and fees with credit earned through College Level Examination Program (CLEP) and DANTES Subject Standardized Tests (DSST) testing. Coastline is pleased to host several National Test Center (NTC) facilities.

Coastline National Test Centers

- Dyess Air Force Base
- Fallon Naval Air Station
- Gulfport Naval Construction Battalion Center
- Holloman Air Force Base
- Pensacola Naval Air Station
- Point Loma Naval Submarine Base
- Camp Pendleton

Services are available to active-duty Servicemembers at no cost. Dependents, veterans, retired military, and DoD civilians may also utilize these NTCS.

Coastline accepts many CLEP/DSST course equivalencies toward degree completion in addition to the credits students may earn through military training and experience. Most accredited colleges recognize the CLEG and DSST tests.

**Please refer to the chart of CLEG and DSST credits.

Note: In accordance with SB338, enrollment in physical education courses has been restricted or excluded.

Academic Requirements for Special Part-Time Program Students—Eligible students have the opportunity to enroll in a maximum of 6 units each semester (3 units max for summer) and earn college credit while still attending high school. Students are expected to meet the same requirements as regular college students and coursework taken appears on the student’s college transcript. Students interested in attending Coastline Community College under the Special Part-Time Program must submit a completed admissions application to the Admissions and Records Office along with a Special Part-Time Program High School Release Form signed by both the high school principal and the parent/guardian. Students who are enrolled in the Special Part-Time Program and are designated as California residents (see residency information) are not required to pay the per-unit enrollment fee but are required to pay all other required fees.
Assessment Center

The Assessment Center provides testing services for entry placement in English and Mathematics. This testing is expected of all first-time students, except for those students who have completed required English and Mathematics skills courses. New students who have earned an associate degree or higher from an accredited institution are not required to take the placement tests if they have fulfilled the prerequisite for the course for which they intend to enroll. All other students who plan to enroll in English or Mathematics courses are required to complete the placement tests.

Students are strongly encouraged to complete the no-cost placement tests early in their program since the scores are used for advisory purposes during counseling sessions. The Assessment Center is located at the College Center in Fountain Valley, 11460 Warner Avenue. Testing dates and times, practice exams and additional information are posted on the Assessment Center’s webpage: www.coastline.edu/services/assessment-center/

Students may schedule their placement tests online by following the instructions posted at the Assessment webpage.

Placement results are available immediately after completing the tests. Assessed students are directed to speak with a counselor or faculty advisor to determine course placements which are based upon multiple measures. Multiple assessment measures for entry placement decisions may include, but are not limited to, the following factors: assessment test results, goal definition, motivation, academic status, self-assessment or study skills. For information about the placement process, please visit the website or call the Assessment Center at (714) 241-6285.

Assistance for Students with Disabilities

Students with disabilities (e.g., mobility, speech, hearing, learning, vision, intellectual, mental health, acquired brain injury, autism, and attention deficit) are invited to request assistance from the Special Programs and Services for the Disabled office. Services include, but are not limited to: interpreting services, note taking, registration assistance, academic counseling, materials/equipment (i.e., digital recorder, Smart pen, enlarged print materials, and alternative formatted textbooks and materials), and test proctoring. Coastline also offers comprehensive programs and services to qualified students with intellectual disabilities, acquired brain injuries, and adaptive fitness. Students with disabilities who are interested in enrolling in Coastline classes or one of the specialized programs are encouraged to call the Special Programs Office for assistance and a confidential intake at (714) 241-6214 or email specialprograms@coastline.edu. The Special Programs and Services Office is located on the first floor of the Newport Beach Campus.
All Coastline students have easy access to trained professionals dedicated to helping them develop an educational plan that best positions them to meet—and perhaps exceed—their academic, career, and personal goals. New, continuing, and re-entry students are encouraged to meet with a counselor to map out and discuss their educational plans, and learn about college programs and opportunities designed to enhance student success, extend learning “beyond the classroom,” and prepare for the next steps after Coastline.

Counselor are available at Coastline’s College Center in Fountain Valley, Newport Beach Campus, Garden Grove Campus, and Le-Jao Campus in Westminster throughout the academic year. Walk-in/resource counseling for short questions is available. Also online counseling is available via the new Career Café. Call (714) 241-6162 to schedule an appointment. Academic counseling and advisement for military students is available by emailing militarycounselor@coastline.edu, or by calling toll free (866) 422-2645.

Career Services Center

Whether you are looking for a part time job while in college or a full time career position, the Coastline Career Services Center offers a variety of services. The center provides assistance with resume preparation and critique, mock interviews, career exploration, referrals, and job search and acquisition. Students can obtain labor market information on specific careers such as current employment statistics, labor force, wages, and outlook. Students can attend a series of job search related workshops such as Hidden Job Market and Networking, Resume Writing Techniques and Tips, and Interviewing Techniques and Tips. These workshops are offered at all three learning campuses: Newport Beach, Le Jao and Garden Grove. The center hosts on site recruitments, informational sessions, and career fair events. Students looking for a job can search openings via the Coastline CareerLink at https://coastline.csm.symplicity.com/. Students can prepare for upcoming job interviews by utilizing the InterviewStream system to video record interview preparation sessions. For career exploration and assessment, students can use EUREKA and SIGI3 systems. In addition, students are encouraged to connect with the academic counselors after taking the assessments for assistance in making informed and educated decisions regarding their career goals. Students can research and explore careers by viewing candid career videos. These videos feature real people in specific career fields as well as job acquisition skills such as interviewing, networking, and resume writing.

The Career Services Center is located on the fourth floor at the College Center at 11460 Warner Avenue, Fountain Valley. The Coastline Online Library—Always Open

**Articles and Books at your fingertips**

**About the Coastline Online Library**
Coastline has a Library for students and employees and it is 100% online so you can access it all the time. It is ALWAYS open! You access the online Library through the Library webpage at http://www.coastline.edu/library/.

**Textbook Reserve Library**
Coastline maintains small collections of current textbooks in the Information Commons (Garden Grove Campus 714.241.6209) and the Student Success Centers at Le Jao (714.241.7420) and Newport Beach (714.241.7210) for students to use onsite. Call to confirm that the textbook for your class is available in the collection. Access to the textbooks is available during the Commons and Success Centers’ regular operating hours on a first come, first served basis. For more information see Does the Library have my textbook? on the Coastline Library YouTube channel (https://youtu.be/AfnuDpmBRvY).

**Ask a Librarian**
Do you need research help? Ask a Librarian! They are research experts.
There are multiple ways to contact a Coastline Librarian:
- Phone: 714.696.1573
- Text: 714.696.1573
- Email: Library@coastline.edu
- Mail: Library, Coastline Community College, 11460 Warner Ave., Fountain Valley, CA 92708

Using the Coastline Online Library eBooks and Article Databases
As a student, you have access to over a hundred thousand e-books, and thousands of magazine, journal, and newspaper articles through the online Library at Coastline.
1. Go to the Library webpage: http://www.coastline.edu/library/ and CLICK eBooks and Article Databases
2. Log in with your MyCCC username and password
3. The Article Databases are divided by subjects. Find a subject that works for you or use the big databases under GENERAL ACADEMIC DATABASES and chose “ProQuest Research Library” or “Academic Search Premier”.
   - Short videos about the Academic Databases show you how to search some of the databases and you can view videos on the Coastline Library YouTube channel (https://goo.gl/mOY2Hd).

Research Tip: As you use the Article Databases think about KEYWORDS you could use in your search. Come up with a few sets of Keywords and start your research. Notice other words and phrases that are coming up as you browse through the articles you find and refine your search and research topic based on these ideas and articles. Start your research early so you can see what is available for your topic and change / modify it if you need too. Remember a Librarian is always here to help you too!

**Additional Library Resources**
- CalWest Coastline students with current student ID may use the libraries at Golden West, Orange Coast, Cypress and Fullerton College.
- Coastline Library on YouTube: Short and sweet videos to help you with your Library and Research needs (https://goo.gl/mOY2Hd).

**Textbook Reserve Collections**

About the EOP&S Program

Coastline Community College's Extended Opportunity Programs and Services is a state funded program whose aim is to provide the academic, personal, and financial support necessary for students whose educational and socioeconomic backgrounds might limit their access to higher education, or hinder their ability to be academically successful as they begin their college level studies.

Eligible students are provided additional guidance and support to help them achieve their academic goals. EOP&S students who are single parents of young children receive additional support services through CARE. EOP&S students who are current or former foster youth receive additional support services through CAFYES.

Special Services We Provide
1. Book assistance: The EOP&S book service program provides assistance for book rental and/or purchase (depending on the availability of funds).
2. Priority registration: The program provides EOP&S students with early registration, making it easier for those students who qualify and participate to get the right classes they need at the times they need them.
3. Counseling and advisement: Staff are available most days to assist with general information and advisement, and a professional educational EOP&S counselor to assist with educational and career goals, including transfer help. All EOP&S students must see the EOP&S counselor a minimum of three times a semester to maintain good standing.
4. New student orientation: This is a two hour presentation by EOP&S staff to give you comprehensive information.
5. Classroom supplies, cap and gown, grants, scholarships, field trips and award events.

EOP&S Student Eligibility
1. Must be a California resident or meet AB540/California Dream Act Requirements.
2. Must be enrolled in at least 12 or more units at the time of acceptance into EOP&S and plan to earn a certificate, associate degree, or transfer degree.
3. Must have completed less than 45 degree applicable units.
4. Must qualify for the California Board of Governor's Fee Waiver (BOGW A or B) or BOGW C with an Expected Family Contribution (EFC) of $0.
5. Must be considered educationally disadvantaged (determined by EOP&S).

How is educational disadvantage determined?
Students must meet ONE of the following criteria:
1. Primary language at spoken at home is not English
2. Must be considered first generation college student
3. Must be assessed below college level in English or Math
4. Not a high school graduate
5. Current or former foster youth
*Please note that meeting the eligibility requirements does not guarantee admission to the program.

About the CARE Program
Cooperative Agencies Resources for Education

The CARE program is a sub program of EOP&S; all CARE students must be EOP&S students. The program is designed to provide current or former foster youth additional support and resources.

The Benefits
In addition to the services listed under EOP&S, some of the specialized services that CARE may be able to provide include:
1. Additional funds to purchase textbooks
2. CARE grants
3. Gasoline cards and parking permits
4. Grocery cards
5. Referrals to outside agencies

CAFYES Student Eligibility
1. Be a California resident or meet AB540/California Dream Act Requirements.
2. A current or former foster youth in California whose dependency was established or continued by the court on or after the youth's 16th birthday.
3. Qualify for the California Board of Governor's Fee Waiver (BOGW A or B) or BOGW C with an Expected Family Contribution (EFC) of $0.
4. Under the age of 26 at the commencement of any academic year in which she or he participates in CAFYES.
5. Enrolled in at least 9 units at the time of acceptance into CAFYES or enrolled full time.

Financial Aid

Financial aid programs attempt to fill the gap that may exist between the cost of education at Coastline and the money available to students from family, employment, savings and other resources. State and federal programs for eligible students include: fee waivers, grants, loans and work study opportunities. Coastline participates in the following programs: Pell Grant, CalGrant, FTSSG (Full Time Student Success Grant), SEOG (Supplemental Educational Opportunity Grant), Federal Work study, Federal Direct Loans (subsidized and unsubsidized), Plus Loan, and the California Board of Governors Fee Waiver (BOGFW). All recipients of federal financial aid must be in good academic standing, be participating in required class activities; be working toward an eligible degree or certificate, have a high school diploma or GED, be a U.S. citizen or eligible noncitizen; have a valid Social Security number; and have completed the Free Application for Federal Student Aid (FAFSA). (Undocumented students cannot apply for federal aid, but, if determined to meet AB 540 requirements, may apply for state aid — see California Dream Act below.)

As of 2014-2015, all students otherwise eligible for the BOGFW must maintain a level of academic progress set forth by the California Community Colleges Chancellor’s Office, or lose eligibility. PLEASE read about these specific standards at http://www.cccd.edu/students/financial-aid under the Board of Governors Fee Waiver menu item.

Useful telephone numbers and websites are:

Veterans Assistance

Coastline is approved by the Bureau of School Approvals, California State Department of Education, to offer programs to veterans and eligible persons seeking benefits under Federal Public Laws and the California Veterans Educational Laws. Coastline follows the guidelines issued by the Council for Private and Post Secondary and Vocational Education, which apply to all institutions enrolling veterans and other eligible persons for veterans benefits. For questions regarding veterans benefits, check with the Veteran Certifying Official in the Admissions Office at (714) 241 6325 or email VeteranServices@coastline.edu.

Veterans Resource Centers

Coastline’s Veterans Resource Centers (VRC) are community based service centers that engage enrolled veterans, veteran-serving organizations, and community veterans who wish to support their peers.

The VRCs provide a comfortable and positive environment where Veterans will find access to academic resources, community referrals, networking opportunities, counseling and advisement services, computer access with Wi-Fi, a place to study, and workshops of value to veterans. Coastline also provides the resource information available in the VRCs to students worldwide through a Virtual VRC.

Our goal is to honor our veterans for their service, and to fully assist them with an effective transition and reintegration into civilian life.

Veterans Resource Centers Locations:
- Fountain Valley VRC
  11460 Warner Avenue
  Fountain Valley, CA 92708
- Newport Beach VRC
  1515 Monrovia Avenue
  Newport Beach, CA 92666

For more information regarding the VRC, email vet2vet@coastline.edu or call (714) 241 6126.

Eligibility for Veterans Benefits

Veterans may be eligible for benefits for ten years after the date of separation from active duty, provided the discharge or release was other than dishonorable, he/she served at least one hundred and eighty one (181) continuous days, or was discharged or released because of a service connected disability. Veterans who entered active duty beginning July 1, 1985, may be eligible under Chapter 30 of the Montgomery GI bill provided they:

- Served at least two years with honorable discharge and
- Had $100 per month deducted from their military pay for educational benefits during the first 12 months of active duty.

Selected Reserve participants may be eligible under Chapter 1606.

The Post 9/11 GI Bill® education benefit program is for individuals who served on active duty on or after September 10, 2010.

Veterans Administration Requirements for Receiving Veterans Benefits

1. In order to claim benefits, a veteran or eligible person must have, as an educational objective, an (a) Associate Degree, (b) Baccalaureate Degree, or (c) Certificate Program. If after consulting the college catalog or the schedule of classes a person wishing to file for veterans benefits is still unsure of his/her goals or major, arrangements should be made for a counseling appointment.

2. In order to ensure continuity of benefits, satisfactory progress must be made toward the stated major.

3. Attendance in enrolled classes is expected at all times.

4. After each registration, the person receiving veterans benefits must notify the Veteran Certifying Official of any program changes, i.e., complete withdrawal from college, adjustment of units, courses added and dropped, etc.

5. Those with 24 or more units of college work completed and who wish to apply for benefits must have program approval. Contact the Veteran Certifying Official for proper procedure.

6. Veterans with fewer than 24 units must submit transcripts for all previous college work to Coastline Community College within four weeks after the semester begins.

Student Success & Support Program

Student Success and Support Program intends to help students achieve their educational goals through core Student Success and Support Program services as well as support services that are necessary to assist students meet their personal academic, and career objectives. All students, unless exempt, are required to participate in English and Mathematics Assessment Testing, Orientation and Counseling. The college also provides follow-up services to evaluate the academic progress of students and to provide additional resources as necessary. Other support services are also available to those students who qualify for them. Effective Fall 2014, Student Success and Support Program regulations require that students complete testing orientation, and creation of an informed educational plan in order to receive priority registration. Students who believe they are exempt or would like to file an appeal may contact Admissions and Records on first floor of the College Center in Fountain Valley.

Goal

The primary goal of the Student Success and Support Program is to increase student success through institutional effectiveness. Success is measured by the attainment of student educational objectives. The Student Success and Support Program is a coordinated process designed to:

1. Assist students to make wise educational choices concerning the pursuit of programs and courses based upon clear and sensitive appraisals of their skills, interests and aptitudes in relation to the programs and courses offered.
2. Enable students to complete the units they attempt with satisfactory grades and to persist from semester to semester.
3. Identify the support services that students need to succeed and refer students to college and community resources to meet those needs.
4. Strengthen student motivation to succeed through the above, and provide frequent feedback and encouragement.

Student Success and Support Program Components

Admission: Students use CCC Apply to expedite the entry process.

Assessment: Students are evaluated for current skill levels in English, and mathematics. District-approved, no-cost testing instruments are used and feedback is provided. Various testing times are available for accessibility and convenience. Career interest inventories and other specialized testing tools are also available.

Orientation: Students obtain current materials on Coastline’s programs, policies, procedures, locations and facilities through semester schedules, career and transfer planning guides, catalogs, mailings, brochures, newsletters and counselor classroom visitations. They obtain additional information on college services and activities from counselors, instructors and other staff members. New student orientations are conducted online at: www.coastline.edu/orientation.

Counseling: Students meet with educational counselors through selected classroom visitations and personal appointments. Students learn about Coastline’s educational options including transfer requirements, associate degrees, certificate programs, enrichment courses, weekend offerings and distance learning courses. Counselors help students identify their educational goals and develop curriculum plans to achieve them.

Student Progress Follow-up: Students excelling in their coursework are notified of honor lists and scholarships. Students encountering academic difficulties are referred to appropriate college services by counselors, instructors and staff members. Students having special needs are directed to additional follow-up resources within the college and community.

Exemption Criteria: All students entering Coast Community College District colleges are expected to participate fully in Student Success and Support Program services. They are also expected to meet course skill level requirements and prerequisites. Students may be exempted from assessment, orientation, and/or counseling on the basis of the following criteria:

1. Students who have earned an associate degree or higher from an accredited institution.
2. Students who are enrolling in six or fewer units and who are not pursuing a degree or a certificate. Upon completion of 12 or more units, however, these students will be apprised of requirements to participate in Student Success and Support Program services.
3. Students who, in the opinion of the Vice President of Instruction/Student Services or designee, would not directly benefit from participating in orientation, assessment, and/or counseling.

Summary

Students are strongly encouraged to initiate and complete the Student Success and Support Program components prior to course registration. Students who complete all components of the Student Success and Support Program are best positioned to develop, with the assistance of an academic counselor, the most efficient path to their academic goal. Call the Counseling Office for more information at (714) 241-6162.

The Associated Student Government (ASG) is the recognized student government at Coastline Community College. The ASG advocates student interests on-campus and in local, state, and national forums, and strives to develop relevant and quality-minded services, facilities, and experiences that are responsive to members of the campus and surrounding communities. Combining ASG with student activities provides opportunities for students and the College to expand and develop leadership skills through activities and experiences.

These activities and experiences include student governance, student clubs, use of facilities and services by student clubs and organizations, student photo identification, and student scholarship awards and commencement.

The ASG fosters meaningful student development through leadership and community volunteer service experiences. In recognition of its responsibility to enhance student life, the ASG encourages and supports the activities of all Coastline’s recognized student organizations whose activities stimulate individual and group participation within the College community.

Students are classified as follows:

- **Freshman**: A student who has completed fewer than 30 units.
- **Sophomore**: A student who has completed 30 or more units.
- **Part-time Student**: A student enrolled in fewer than 12 units.
- **Full-time Student**: A student enrolled in 12 or more units.

Student Status

- **New Student**: No previous enrollment record at Coastline Community College.
- **Continuing Student**: Continuing enrollment at Coastline Community College from one primary term to the next primary term.
- **Returning Student**: Previously enrolled at Coastline Community College however missed at least two primary terms of attendance.

General Education Philosophy

General Education Degree-Level Student Learning Outcomes

The term "general education" refers to a broad-based and comprehensive program that introduces students to the major areas of higher education: the humanities, fine arts, social sciences, and natural sciences. The general education program is the basis for all degree programs at Coastline Community College and is designed to help students develop the knowledge and skills that will contribute to their intellectual, personal, and professional growth.

Upon completion of a degree-level program, students will be able to:

1. Demonstrate understanding and appreciation for the visual and performing arts
2. Demonstrate ethical civic, environmental, and social responsibility
3. Demonstrate ability to apply critical thinking and analysis
4. Demonstrate innovative thinking, adaptability, and creative problem-solving skills
5. Demonstrate understanding and respect for cultural and global diversity
6. Demonstrate information competency
7. Use effective communication and interpersonal skills
8. Use scientific and quantitative reasoning

Multiple Majors

A student completing the requirements of more than one major may earn more than one Associate degree. When completing concurrent majors, the student simultaneously completes all academic requirements for his/her majors and graduates with two (or more) degrees in the same semester. Students must list all desired degrees on the Graduation Petition form.

Additional Associate Degrees

Students who already possess an Associate degree may be awarded an additional degree upon completion of the following:

1. All requirements of a major or area of emphasis in a different field of study. Coursework from the previous major may be applied toward the new major.
2. Twelve additional units in residence at Coastline Community College after conferral of the previous degree.
3. General Education units earned from a previous Associate degree may be applied toward subsequent Associate degrees. If there has been a break in enrollment from when the last Associate degree was awarded, the student must complete the General Education requirements in effect at the time the student re-enrolls.

Duplicate Degrees

Students are not permitted to acquire duplicate associate degrees in the same major, within the Coast Community College District.

Petition for Graduation

An Associate degree or a certificate of achievement is not automatically awarded. Students are required to petition for the degree or certificate of achievement at the beginning of the semester in which they will be completing their final requirements. Petitions are available in the Admissions office and online. If you are not currently enrolled, you will need to meet the current catalog degree requirements for the current academic year. Military students may obtain a graduation petition online at http://military.coastline.edu/forms

Students should be sure all official transcripts from other campuses are on file with Coastline if those transcripts are being used to satisfy our graduation requirements.

Students may petition for graduation during the Spring, Summer, or Fall terms. Petition filing period dates may be found at http://www.coastline.edu/admissions/graduation/. Students are advised to petition for their degree at the beginning of the term in which they will complete their final degree requirements.

Catalog Rights and Continuous Enrollment

For graduation, students may follow the catalog degree requirements that were in effect for the academic year when their attendance began at Coastline Community College or follow the catalog requirements in effect during subsequent years of enrollment provided that continuous enrollment has been maintained.

Continuous enrollment is defined as enrollment in at least one course at Coastline Community College for at least one semester (fall and/or spring) in each academic year. The student must receive a grade of A, B, C, D, F, P, NP, W, I or IP for the course.

A student’s SOC Agreement or Official Student Education Plan will remain valid as long as the student maintains continuous enrollment. For a student whose break in attendance is necessitated by reason of service in the uniformed services, the validity of the student’s SOC Agreement (“contract for degree”), or other official degree plan prepared by the college, will remain in effect if the cumulative length of the service-related absences from that institution does not exceed five years.
Coastline Community College awards the degrees of Associate in Arts and Associate in Science. (See also, Associate Degree for Transfer under Transfer Information.) These degrees are designed to provide students with the necessary skills to compete successfully in a culturally diverse and global job market. Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in a field of knowledge to contribute to lifetime interest.

In accordance with law and with rules and regulations of the Board of Governors of the California Community Colleges and the Board of Trustees of the Coast Community College District, the requirements for the degree of Associate in Arts or Associate in Science include the following:

1. Unit Requirement
Complete at least 60 units of acceptable college work with a minimum of 12 units completed in residence at Coastline. Earn an overall grade point average of 2.0 or higher from all colleges attended and a 2.0 or higher grade point average at Coastline.

* Students must be in good academic standing (not on probation and/or disqualification) during the semester graduation is petitioned.

2. Program of Study
Complete the required courses in one of the programs as detailed in the Academic/Career/Certificate Programs section of this catalog. A summary of current programs can be found on the Programs Summary pages (see index). All coursework must be completed with a grade of “C” or higher.

3. General Education
Complete one of the three General Education options below:

Option 1—designed for students pursuing an Associate degree and who may or may not be planning to transfer to a four-year university. The degree is transferable to many colleges and universities.

Option 2—CSU GE Breadth: designed for students who are planning to transfer to a university in the CSU system. It may also be appropriate for transfer to some independent colleges.

Option 3—IGETC: designed for students who are planning to transfer to a university in the CSU or UC system. It also may be appropriate for transfer to some independent colleges.

4. Global and Multicultural Studies Requirement*
Complete at least 2.5 units from any of the following Global and Multicultural Studies Courses: Anthropology C100, C150; Art C100, C101, C103, C104, C105, C109, C135, C136, C137, C138, C233, C235, C236, C237, C261, C262, C265; Communication Studies C150; Criminal Justice C148; English C144, C145, C155; International Language—any over C100; Geography C185; Gerontology C140; History C115, C122, C124, C125, C126, C128, C132, C135, C146, C161, C162, C165, C180, C185; Humanities C100, C110; Human Services C100; Music C103; Philosophy C100, C113; Sociology C130

*This requirement is waived for students completing an Associate Degree for Transfer (see Transfer Information for ADT degree).
General Education Requirements

OPTION 1 • 2017-2018

This option is designed for students pursuing a degree and who may or may not be planning to transfer to a four-year institution. Most of the coursework in this option is applicable towards transfer. Other colleges and universities may accept this degree for transfer. It is important to contact a Coastline counselor or your transfer institution for guidance in preparing your educational plan. In addition to the General Education requirements below, students must complete additional requirements for the Associate Degree listed in the catalog under Associate Degree Requirements.

Complete at least 18 units in the specific courses listed in Groups A-E. Students may select courses from any sub-area under each specific group. One course may not be used to satisfy more than one general education requirement; however, the same course may be used to satisfy both a general education requirement and a requirement for the major or area of emphasis. Students may also double-count courses for the Global and Multicultural Studies Requirement.

Group A – Basic Subjects

One course from each area

A1 — Mass Communications C100; Communication Studies C100, C101, C110, C140, C150, or C220

A2 — English Competency: Passing English C100, C109 or C135 (with a grade of “C” or better)

A3 — Math Competency: Passing the Math Placement Test or completion of two years of high school algebra (Algebra 1 and 2) with a grade of “C” or better, or passing one of the following with a “C” or better: Mathematics C030*, C045*, C046*, C070*, C100, C103, C104, C106, C115, C120, C140, C150, C160, C170, C180, C185, C280, C285

*Mathematics C030, C045, C046, C070 can be used to meet the Math competency requirements. They count toward the 60 units required for the Associate degree, but do not count toward the required general education units. All other courses numbered below 100 (other than English C099 and Mathematics C010) do not count toward the A.A. degree.

Group B – Natural Sciences:

Any three units

B2 — Anthropology C185; Biology C100, C100C*, C100L*, C120, C180*, C185*, C210*, C211, C211L*, C220*, C221, C225*, C281, C282, C283; Ecology C100; Marine Science C100, C100L*, C105*

*Course has Laboratory Activity

Group C – Arts and Humanities:

Any three units

C1 — Arts: Art C100, C101, C102, C103, C104, C105, C109, C110, C110A, C110B, C120, C120A, C120B, C121, C122, C122A, C122B, C127, C129, C130, C131, C132, C133, C134, C135, C136, C137, C138, C139, C140, C142, C147A, C150, C151, C190, C194, C202, C203, C205, C206, C212, C214, C220, C221, C222A, C222B, C228, C229, C230, C231, C232, C233, C234, C235, C236, C237, C238, C239, C240, C242, C250A, C250B, C261, C262, C263, C265, C280; Dance C200; Music C100, C103, C130, C131, C139, C143; Theater Arts C100, C101, C106, C107, C111

*ENGL C163 and THEA C101 are equivalent courses; only 3 units may be counted.

Group D – Social Sciences:

Any three units

Anthropology C100, C120, C150, C185; Communication Studies C150; Criminal Justice C140; Economics C110, C170, C175; Geography C100, C180, C185; History C101, C115, C121, C122, C124, C125, C126, C132, C135, C146, C150, C155, C161, C162, C170, C175, C180, C185; Mass Communications C100, C150; Political Science C101, C140, C160, C180, C185; Psychology C100, C116, C118, C165, C170, C250, C255, C260, C280; Sociology C100, C110, C120, C130, C185

Group E – Self-Development:

Any three units

Business C120; Counseling C104, C105, C120; Dance C105, C106, C107, C108, C110, C111, C112, C114, C115, C116, C124, C125, C130, C140, C141, C160, C162, C256, C257; Foods and Nutrition C170, C175; Gerontology C120, C140; Health Education C100, C120, C175; Library Science C110 Management and Supervision C144, C145, C150, C151; Physical Education any course numbered C100 or above; Psychology C116, C118, C165, C170
Designed for students who are planning to transfer to a university in the CSU system. However, it may be appropriate for transfer to some independent colleges. In addition to the General Education requirements below, students must complete additional requirements for the Associate Degree listed in the catalog. Transfer students are strongly advised to contact a Coastline counselor for guidance in preparing an educational plan. In addition, for the most current articulation information, visit www.assist.org.

Complete at least 39 units in the specific courses listed in Groups A-E. One course may not be used to satisfy more than one general education requirement; however, the same course may be used to satisfy both a general education requirement and a requirement for the major or Area of Emphasis. Students may also double-count courses for the Global and Multicultural Studies Requirement.

Certificate of Achievement in CSU General Education
Upon completion of this General Education pattern, students may qualify for a Certificate of Achievement in CSU General Education.

Certification of General Education for Transfer to CSU
Upon a student’s request, Coastline will verify the completion of lower-division general education requirements for transfer to the California State University. Courses can only be certified if they were on the CSU approved list at the time they were taken by the student. Upon transferring, the student will need to complete any upper-division general education requirements required by the university. Students who transfer without certification will have to meet both lower- and upper-division general education requirements of the specific CSU campus to which they are transferring. Meeting these requirements usually necessitates taking additional courses. Students may also request subject-area (partial) certification. To qualify, a student must satisfactorily complete the courses required in one or more sub-areas. Coastline will provide a full-certification only once. Certification is not automatic and must be requested after the completion of the last term prior to transfer. This request should be made in the Admissions Office when final transcripts are requested to be sent to the transfer university.

Area A – English Language Communication and Critical Thinking
Must complete 9 units with a minimum of one course in A1, A2 and A3 (grade of “C” or better).

A1—Oral Communication
Communication Studies C100, C101, C110, C140

A2—Written Communication
English C100

A3—Critical Thinking
Communication Studies C220; English C102; Philosophy C115

Area B – Scientific Inquiry and Quantitative Reasoning
Must complete 9 units with a minimum of one course each in B1, B2, and B4. (One of the science courses must be a laboratory course.)

B1—Physical Science
Astronomy C100, C101, C102, C103; Chemistry C100, C105, C110, C130, C140, C180, C185, C220, C225; Geology C105, C106, C115, C185; Physics C110, C120, C125, C140, C185, C280, C285

B2—Life Science
Anthropology C185; Biology C100, C100C, C120, C180, C185, C210, C211, C220, C221, C225, C283; Ecology C100; Marine Science C100, C105

B3—Laboratory Activity
Astronomy C100L*; Biology C100C, C100L, C180, C185, C210, C211L, C220, C225; Chemistry C110, C130, C140, C180L, C185L, C220L; Geology C105L, C106, C185L; Marine Science C100L, C105; Physics C110L, C120, C125, C140, C185, C280, C285

* Astronomy C100 must be taken prior to or concurrently with Astronomy C100L

B4—Mathematical/Quantitative Reasoning Concepts (grade of “C” or better)
Mathematics C100, C103, C104, C106, C115, C120, C140, C150, C160, C170, C180, C185, C280, C285

—continued on next page
Area C – Arts and Humanities
Must complete 9 units with a minimum of 3 units in C1 and 3 units in C2.

C1—Arts
Art C100, C101, C102, C103, C104, C105, C109, C120, C122, C129, C135, C137, C140, C142, C214, C261, C262, C263, C265; Dance C200; English C163*; Music C100, C103, C139, C143; Theater Arts C100, C101*

C2—Humanities
American Sign Language C185; Communication Studies C150; English C111, C140, C143, C144, C145, C146, C150, C155, C163*, C181, C270, C275, C296, C297; History C101, C121, C126, C132, C135, C150, C155, C161, C162, C170, C175, C180, C185; International Language C144, C160, C160A, C160B, C165, C165A, C165B, C180, C180A, C180B, C185, C260, C280, C280A, C280B, C285; Humanities C100, C110, C135; Philosophy C100, C102, C113, C120; Theater Arts C101*

*English C163 and Theater Arts C101 are equivalent courses, only 3 units may be counted.

Area D – Social Sciences
Must complete 9 units with courses from at least two disciplines.
Anthropology C100, C120, C150
Communication Studies C150
Criminal Justice C140
Economics C110, C170, C175
Geography C100, C150, C180, C185
History C101, C115, C121, C122, C124, C126, C128, C132, C135, C146, C150, C155, C161, C162, C170+, C175+, C180, C185
Mass Communications C100
Political Science C101, C140, C160, C180+, C185
Psychology C100, C116, C118, C165, C170, C250, C255, C260, C280
Sociology C100, C110, C120, C130, C185

Area E – Lifelong Understanding and Self-Development
Must complete 3 units.
Business C120; Counseling C104, C105, C120; Foods and Nutrition C170, C175; Gerontology 120, C140; Health C100, C175; Kinesiology C100; Psychology C116, C118, C165; Sociology C120

A maximum of one unit may be counted from the following activity courses:
Dance C105, C106, C107, C108, C110, C111, C112, C114, C116, C120, C124, C125, C126, C130, C140, C141, C160

+American Institutions Requirement—All CSU campuses require that a student demonstrate competence in the Constitution of the United States and in American History. This may be satisfied by taking Political Science C180 and History C170 or C175 at Coastline College or by taking a course at the CSU. These courses also count toward Area D requirements.
Associate Degree—General Education Requirements
OPTION 3—Transfer IGETC • 2017-2018

Designed for students who are planning to transfer to a university in the CSU or UC system. However, it may be appropriate for transfer to some independent colleges. In addition to the General Education requirements below, students must complete additional requirements for the Associate Degree listed in the catalog. Transfer students are strongly advised to contact a Coastline counselor for guidance in preparing an educational plan. In addition, for the most current articulation information, visit www.assist.org.

Complete at least 37 units in the specific courses listed in Areas 1-6. One course may not be used to satisfy more than one general education requirement; however, the same course may be used to satisfy both a general education requirement and a requirement for the major or Area of Emphasis. Students may also double-count courses for the Global and Multicultural Studies Requirement.

Certificate of Achievement in Intersegmental General Education Transfer
Upon completion of this General Education pattern, students may qualify for a Certificate of Achievement in Intersegmental General Education Transfer (IGETC) and IGETC Certification of General Education.

Certification of General Education for Transfer to CSU or UC
Upon student request, Coastline will verify the completion of lower-division general education requirements for transfer to the California State University (either the CSU general education breadth requirements or the IGETC) or the University of California (IGETC). Courses can only be certified if they were on the CSU or IGETC approved list at the time they were taken by the student. Students who transfer without certification will have to meet the general education requirements of the specific CSU or UC campus to which they are transferring. Meeting these requirements usually necessitates taking additional courses. Coastline will certify courses only once. Certification is not automatic and must be requested after the completion of the last term prior to transfer. This request should be made in the Admissions office when final transcripts are requested to be sent to the transfer university.

Partial Certification of IGETC
Students may request partial certification if they have completed all but two of the courses on the IGETC pattern. Students need Areas 1 and 2 completed to meet minimum transfer admission requirements. Therefore, partial certification that acknowledges a deficiency in Area 1 and/or 2 may also indicate a student does not meet minimum transfer requirements. Students have several options for completing the remaining courses. See a counselor for more information.

Area 1 – English Communication

UC—Two courses, one from Group A and one from Group B.
CSU—Three courses, one from Group A, one from Group B and one from Group C.

Group A: English Composition
English C100

Group B: Critical Thinking
English C102

Group C: Oral Communication
Communication Studies C101, C110 (required for CSU and A.A. degree)

Area 2 – Mathematical Concepts and Quantitative Reasoning
One course. Minimum of 3 units.

Area 3 – Arts and Humanities
Three courses, with at least one course from Group A and one course from Group B. Minimum of 9 units.

Group A: Arts
Art C100, C101, C102, C103, C104, C105, C109, C261, C262

- Sociology C100, C110, C130, C185

Area 5 – Physical and Biological Sciences
Two courses, with one from Group A and one from Group B. Minimum of 7 to 9 units.
One of the courses must include a lab (indicated by + sign)

Group A: Physical Science
- Anthropology C185
- Astronomy C100, C100L+, C101, C102, C103
- Geography C180
- Geology C105, C105L+, C115, C185+
- Physics C110*, C110L+, C120+, C125+, C185+, C280+, C285+

Group B: Biological Sciences
- Biology C100, C100C+, C100L*, C180+, C185+, C210+, C211, C211L+, C220*, C221*, C225*, C281, C282, C283
- Marine Science C100, C100L+, C105+

Group C: Laboratory Science Requirement
At least one course from 5A or 5B must incorporate a laboratory component or take a corresponding lab course. Lab courses are indicated by (+).

Area 6 – Languages Other Than English
(UC REQUIREMENT ONLY): This requirement may be fulfilled by one of the following methods. See a counselor for clarification.

A. Complete two years of a high school foreign language with grades of “C” or better (high school transcripts must be on file at CCC)

OR

B. Completion at Coastline of a foreign language course numbered C180 or higher with a grade of “C” or better.

OR

C. Earn a satisfactory score on one of the following tests (results must be on file at CCC):
   1. SAT II Subject Test in a language other than English (score: 500 or better)
   2. College Board Advanced Placement Examination in a language other than English (score: 3 or better)
   3. International Baccalaureate Higher Level Examination in a language other than English (score: 5 or better)

4. An achievement test administered by a college or university (score: proficiency equivalent to at least two years of high school language).

5. Language other than English “0” level exam with a grade of “C” or better or “A” level exam with a score of “S” or higher.

D. Complete, with grades of “C” or better, two years of formal schooling at the sixth grade level or higher in an institution where the language of instruction is not English (documentation must be on file at CCC).

American Institution Requirements
(Not part of IGETC. May be completed prior to transfer.)
CSU has an American Institutions requirement that is separate from IGETC. Courses used to meet the CSU requirement can be double counted in Area 3 or 4. To meet the CSU requirement, students should take Political Science C180 AND one of the following courses: History C170 or C175.

UC requires the completion of a college course or courses with a grade of “C” or better OR a one-year course in high school in U.S. history or a half-year course in U.S. history and a half-year course in American government with grades of “C” or better (UCLA requires grades of “B”). UCSB requires the completion of a college course. If you are using college coursework to satisfy this requirement, check the appropriate UC catalog to determine which course(s) to take.

Transfer Information

Associate Degree for Transfer
California Community College students who receive an Associate Degree for Transfer are eligible for admission with junior standing into the California State University (CSU) system. A student who has earned one of these degrees will not be guaranteed admission for a specific major or campus but will be given priority admission consideration to the local CSU campus and to a program or major that is determined by the California State University to be similar to the transfer AA degree. Upon enrollment at the CSU campus, the student will be eligible to graduate with 60 remaining semester units. To find out which CSU campuses accept each degree as similar, please go to www.adegreewithaguarantee.com.

Students who have been awarded an Associate Degree for Transfer are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

Current and prospective community college students are strongly encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

Approved Associate Degrees for Transfer
The following Associate Degrees for Transfer are currently approved. Additional majors are under development. Please see a counselor and http://www.coastline.edu/services/articulation/ for more information.

- Business Administration AS-T
- Communication Studies AA-T
- Elementary Teacher Education AA-T
- English AA-T
- History AA-T
- Mathematics AS-T

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Students should always go to www.assist.org to confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit. The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database.

Preparation for Transfer

Students considering transferring to a CSU, UC or private college should plan as early as possible. Make an appointment to meet with a counselor for assistance in developing a Student Educational Plan (SEP) that outlines both your major and general education requirements.

Strategies for Successful Transfer

Identify your Major
- Enroll in Counseling C104 or C105
- Visit our Career Center at the Fountain Valley Center
- Meet with a counselor to explore majors
- Check out Exploring Majors on www.assist.org
- Explore majors on the Eureka Information System (see counselor)

Choose a University
- Visit the Coastline College Transfer Center at the Garden Grove Campus
- Meet with college representatives at scheduled visits
- Attend the annual University Transfer Event
- Attend college fairs, preview days, open houses, campus tours
- Visit college websites

Determine Requirements
- Identify admission requirements
- Identify the best general education option pattern
- Identify major preparation requirements
- Visit www.assist.org
- Review college catalogs and websites
- Determine the competitive GPA for the major

Develop a Transfer Plan
- Meet with a counselor regularly to help you develop and maintain your educational plan
- Be aware of application deadlines for admissions, financial aid, and scholarships
- Clean up substandard grades with course repetition or Academic Renewal (see index)
- Don’t hesitate to ask for help when you have questions or concerns

ASSIST (www.assist.org): ASSIST is an online transfer information system that shows how course credits earned at one public California college or university can be applied when transferred to another. ASSIST is the official repository of articulation for California’s public colleges and universities and provides the most accurate and up-to-date information about student transfer in California. You can use ASSIST to find community college courses that are transferable to a UC or CSU campus and to determine how those courses might be used to satisfy specific subject matter requirements for admissions, General Education, or lower division major preparation. You can also use ASSIST to explore the majors available at University of California and California State University campuses.

California State Universities (CSU)

All the campuses of the California State University welcome applications from transfer students. If a student completes college units after the summer following his/her graduation from high school, he/she is considered a transfer student. The majority of transfer students enter the CSU as “upper-division” transfers. Upper-division transfers must complete at least 60 semester units or 90 quarter units before transfer, maintain a 2.0 GPA or better (a higher GPA is recommended to remain competitive) in all transferable college units and be in good standing at the college or university attended. Some students enter as “lower-division” transfer students if they completed fewer than 60 transferable semester units (90 quarter units). Visit www.csumentor.edu for admissions and application procedures. Students may also complete an Associate Degree for Transfer (ADT), which provides the student with some CSU admission benefits (see index for more information on ADTs).

Academic Planning for Prospective Transfers: Until they meet with a counselor, students unsure of their major should first concentrate on completing the lower-division general education requirements. Of these requirements, the highest priorities are the general education requirements in the English language, oral communications, English composition, and critical thinking—along with a general education course in mathematics. While completion of all general education requirements is not required for admission, it is important that students complete as many of the lower-division general education requirements as possible prior to transfer. If they are pursuing a high-unit major that requires extensive lower-division prerequisites, they may not be able to complete all lower-division general education requirements prior to transfer.

General Education/Breadth Requirements: CSU provides California Community College transfers with two options for fulfilling CSU lower-division general education requirements:
CSU General Education Breadth (GE-Breadth) and the Intersegmental General Education Transfer Curriculum (IGETC). For a list of courses that meet these requirements, refer to Option 2 and 3 in this catalog. You may also visit www.assist.org for both general education and articulated major requirements. Please see a counselor for additional guidance.

Impacted Majors: Many campuses have multiple impacted majors that require additional admission criteria. These specific criteria must be met before transfer for a student to be eligible for admission. Generally, the Impacted majors remain the same from one year to the next, but the criteria are subject to change. Students are encouraged to talk with a counselor or contact the campus directly for the most current information on impaction.

Detailed information about the 2017-2018 CSU impacted campuses and majors can be accessed at www.calstate.edu/SAS/impactioninfo.shtml.

University of California (UC)

A transfer applicant, according to the University, is a student who has enrolled in a fall, winter, or spring session at another college or university after high school. A student who meets this definition cannot disregard his or her college record and apply as a freshman.

Prospective transfer applicants should plan their coursework carefully. Selected courses should help them 1) meet the minimum admission requirements for the next, 2) prepare them for their major and 3) fulfill recommended general education requirements. All courses must be UC transferable.

Admission Requirements: In addition to meeting the minimum admission requirements, a student should adhere to any special application or screening procedures for the selected major or UC campus. Additional requirements for highly competitive majors can also be identified through articulation agreements (available at www.assist.org). Students should enroll in the courses that meet these requirements. To earn 60 semester (90 quarter) units before transferring, the student should select courses that meet the eligibility, lower-division major-preparation, and appropriate general education/breadth requirements.

Major-Preparation Requirements: Transfer students should take courses that meet major requirements. In most cases, completing at least a portion of the major requirements is essential to gain admission to the major. The Transfer Preparation Paths, available at http://admission.universityofcalifornia.edu/transfer/preparation-paths/, outline the major preparation requirements at each UC campus for the most popular majors. They are particularly useful in helping students identify major-preparation coursework that will prepare them for multiple UC campuses. Information on major preparation requirements is also available at www.assist.org.

General Education/Breadth Requirements: Transfer applicants to the University from California community colleges may satisfy lower-division general education requirements by completing the Intersegmental General Education Transfer Curriculum (IGETC). For a list of courses that meet these requirements, refer to Coastline’s General Education Option 3 in this catalog. You may also visit www.assist.org for course information. Please see a counselor for additional guidance.

Minimum eligibility requirements: To be eligible for admission as a junior UC transfer student, a student must complete 60 semester (90 quarter) units of transferable college credit with a GPA of at least 2.4 (2.8 for nonresidents) before transfer. However a higher GPA is recommended to remain competitive. No more than 14 semester (21 quarter) units may be taken Pass/Not Pass.

Transfer Admission Guarantee (TAG)

Coastline College has Transfer Admission Guarantee (TAG) agreements with UC Davis, UC Irvine, UC Merced, UC Santa Barbara, UC Santa Cruz, and UC Riverside. By participating in a Transfer Admission Guarantee program, students receive early review of their academic records, early admission notification, and specific guidance about major preparation and general education coursework. Coastline College encourages students to take advantage of these agreements. See a counselor to determine eligibility. For more information and application procedures, see http://admission.universityofcalifornia.edu/transfer/guarantee/.

UC Credit Limitations

Some of the courses which are transferable to the University of California indicate they have credit limitations. Check the UC Transferable Course List to determine these limitations. This list is available in the Coastline Transfer Center and Counseling Department and online on the Transfer Center and Articulation webpages.

Independent Colleges and Universities

Coastline maintains articulation agreements with many private colleges and universities. Check our Articulation webpage (http://www.coastline.edu/services/articulation/) for links to our agreements. Go to the Transfer Center webpage (http://www.coastline.edu/services/transfer-center/) for a list of transfer universities—UC, CSU, Private, and Out-of-State schools. We also recommend that you speak with a counselor to assist you with creating a Student Education Plan (SEP) to help meet your educational goals.

Additionally, Coastline partners with many four-year schools, including military-friendly colleges, so you can transfer your Coastline Associate degree or units into Bachelor degree programs with ease. For our Veteran Students, contact a Military Counselor at militarycounselor@coastline.edu or contact the Transfer Center for current information.

*These certificates and degrees can be completed entirely through online learning in either Coastline’s regular or military/contract education programs. **Note:** The degrees are all “Option 1” degrees, since Coastline does not have a public speaking class in distance learning format, which fulfills the CSU Oral Communications requirement. (Please consult with a counselor to confirm your degree requirements.) In addition, some courses required for these degrees and certificates require students to complete exams on campus, at examination centers, or in the presence of a proctor.

American Studies

Associate of Arts Degree
Area of Emphasis
3_AA_AMST

This interdisciplinary major is designed to provide students with an integrated understanding of American society, history, and culture. Students may select designated courses within the humanities, social sciences, and fine arts disciplines. More than 300 colleges and universities in the United States offer American Studies programs. They approach American culture from many directions but have in common the desire to view America as a whole rather than from the perspective of a single discipline. Students who have graduated from four-year universities with American Studies degrees have gone on to work as lawyers, librarians, business leaders, writers, archivists, researchers, teachers, and politicians.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply perspectives from a variety of disciplines to develop an understanding of American culture, past and present, and its impact upon both the peoples of the United States and those outside its borders.

2. Critically evaluate historical sources, literature, art, film, music, or other types of cultural expressions in terms of their relevance to the American experience.

Requirements for the Degree

All courses must be completed with a grade of “C” or better.

Select a minimum of 18 units from at least 5 different disciplines.

Associate of Arts Degree
Major
3_AA_ART

This major encourages the development of technical skills, art appreciation, and personal creative vision. Art majors begin with a series of foundation courses that are designed to develop students’ understanding and application of visual language across a range of media. This major will equip students with a variety of skills and visual strategies that they will be able to apply in meaningful contexts. Through study of arts, students learn how to find creative solutions to problems and how to express their individuality.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Interpret the ideas being communicated by analyzing the visual elements and principles of design.

2. Solve visual problems involving craftsmanship by using the creative process.

3. Recognize, distinguish, and correlate the basic elements of form and utilize it to make original art.

BUSINESS MANAGEMENT

Entrepreneurship and Small Business Management

Associate of Arts Degree or Certificate of Achievement

3_AA_SMBO or 3_CL_MSSB

The small business sector is one of the fastest growing in the nation’s economy. With an ever-increasing number of adults today self-employed, many people either work for a small business or plan to start one of their own. Coastline’s entrepreneurship program can help prospective entrepreneurs launch new ventures or, if you are an entrepreneur who already has your business established, you can strengthen your managerial and business skills to grow your business.

You will learn the fundamentals of starting and operating your own business. The program includes basic business skills as well as specific courses in starting and managing a business. Course work covers evaluating a business opportunity, preparing a business plan, planning advertising and sales promotions, marketing a product or service, and managing the finances for the entrepreneurial company.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Effectively communicate solutions to business problems, using appropriate language and tools and demonstrating understanding of business terms and concepts.

2. Analyze and recommend effective business decisions/solutions using a systematic, evaluative, and information-based approach.

3. Develop and exhibit high standards of professional practice, demonstrating awareness of ethical and social responsibilities in today’s multicultural, team-oriented, rapidly-changing global environment.

Area of Emphasis
3_AA_COMM

Courses in this Area of Emphasis prepare students with skills that are in high demand in business, industry, non-profit organizations and government service. Students develop an understanding of communication principles that are utilized to interpret, create, evaluate and deliver messages effectively.

Some University majors within the Communications Area of Emphasis include: English, Journalism, Media Communication, Speech, Public Relations, and Theater Arts.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES
Upon completion of this program, students will be able to:
1. Use written and oral tools to analyze and improve communication in personal, academic, public, and professional interactions.
2. Effectively deliver oral presentations in a range of settings to diverse audiences.
3. Construct written messages for various purposes to diverse audiences.
4. Observe, evaluate, and competently exercise interpersonal communication skills.

Completion of the Digital Media Design Certificate will prepare students for entry-level positions in print, graphic design, digital media, animation/gaming graphics, web design, and/or other related occupations. Students will establish a strong foundation in both the technical and creative aspects of the digital media industry.

The program will emphasize creativity, design skills, digital portfolios, project management, problem solving, global teamwork, and entrepreneurship options.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Produce creative, professional projects that align with current market trends and industry standards as well as apply strategies to support self-initiated lifelong learning to continually upgrade knowledge and skills in the field of digital media and entrepreneurship opportunities.

Required Courses

Students will complete all of the following:

ECONOMICS

Economics
Associate of Arts Degree
Major

3_AA_ECON

Economics is the study of how effectively society meets its human and material needs. It provides a logical, ordered way of looking at various problems. It draws upon history, philosophy, and mathematics to deal with subjects ranging from how an individual household or business can make sound decisions to societal issues such as unemployment, inflation, and environmental decay. Critical thinking is stressed more in economics than it is in any of the social sciences or in the business department. Economics also stresses computer proficiency and communications skills.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply the economic problem of scarcity and how it relates to choice, opportunity cost, and marginal decision making for individuals and society.
2. Use supply and demand models to analyze markets, evaluate fluctuations, and determine changes in prices.

Liberal Studies (for Teaching)

Associate of Arts Degree

Major

3_AA_LIBS

Coastline’s Liberal Studies/Teaching Specialization A.A. Degree

The Liberal Studies/Teaching Specialization A.A. Degree offers future elementary school teachers an articulated transfer pathway and career ladder for a B.A. in Liberal Studies and the multiple-subject teaching credential. The focus of the degree is on content knowledge needed to teach in a K-8 setting and education courses that include early fieldwork opportunities for observation and practice. Coursework prepares students for the Multiple Subject CSET exam as required by the California Commission on Teacher Credentialing for elementary school teachers in both regular and special education. As a stand-alone degree without transfer, the A.A., aligned with the requirements for No Child Left Behind, helps students become effective elementary school paraprofessionals in regular or special education classrooms. The degree is also appropriate for students pursuing a career other than in elementary school teaching (such as tutors and parents providing home schooling) who would like their course of studies and degree recognition to include an emphasis in liberal studies and teacher preparation curricula. Students may select courses to simultaneously earn the Certificate in Educational Studies as well.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply skills in order to pursue a career in teaching or a related field or make an informed decision that the teaching profession is not a good personal career choice.
2. Work effectively with students, teachers, parents, colleagues, and administrators in a school and classroom setting.

ELECTRONICS AND ELECTRIC TECHNOLOGY

Electronics*
Associate of Arts Degree or Certificate of Achievement
3_AA_ELEC or 3_CL_ELEC

This sequence of classes is designed to give the student a solid foundation in Electronics using applied theory to solve practical applications utilizing the materials and forces of nature for the benefit of society. Students who successfully complete this sequence of classes will be able to pursue a bachelor's degree in Engineering or Engineering Technology or be employed as a skilled productive member of an Engineering team in Industry. Areas of interest in this program include theory and application of electric and electronic systems and components, including circuits, electro-magnetic fields, energy sources, communications devices, computers, and other components and devices powered by electricity. Design, assembly, installation, operation, maintenance, and repair of electronic equipment used in industry and manufacturing including the fabrication and assembly of related components. Design, development, testing, and maintenance of electro-mechanical and servo-mechanical devices and systems.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES
Upon completion of this program, students will be able to:

1. Design and build several of the most common circuits used in electronics technology.
2. Analyze operating and defective electronic circuits by interpreting data from a variety of test and measurement equipment.
3. Research and interpret basic electronic components using manufacturer’s data manuals, library resources, and the Internet.

EMERGENCY MANAGEMENT/ HOMELAND SECURITY

Emergency Management/Homeland Security

Associate of Arts Degree
or Certificate of Achievement

3_AA_EMGT or 3_CL_EMGT

The Emergency Management/Homeland Security (EM/HS) program prepares students to enter the emerging profession of homeland security and disaster management. Our curriculum is designed to provide the learner with a foundation of technical and professional knowledge needed by emergency and security workers to meet local, state and national safety responsibilities, both in the public and private sectors. Our program emphasizes an All-Hazard approach to emergency planning and security management, with courses in preparedness planning, risk mitigation, emergency response, and disaster recovery. In addition, we offer homeland security course content in terrorism studies, information security, and critical infrastructure resiliency, consistent with the National Response Framework. Coastline’s EM/HS program advances students by broadening core competencies in intelligence analysis, disaster planning, leadership development, and communications theory. Students who successfully complete the program will gain entry-level employment in the fields of law enforcement, fire service, urban planning, security management, information security, business continuity, and other service-related occupations.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Recognize the types of hazards that can negatively impact a community and assess the variables that impact this type of hazard exposure.
2. Distinguish some of the fundamental roles and responsibilities of the professional emergency manager established by the Emergency Management Institute.
3. Demonstrate effective skills using well established problem-solving, communication and interpersonal techniques.

Requirements for the Major

Criminal Justice
Associate of Arts Degree
3_AA_EMGTCJ

The Emergency Management/Homeland Security (EM/HS) Certificate of Achievement is designed to prepare students to enter the emerging professions of disaster management and/or homeland security. Our curriculum is designed to provide the learner with a foundation of technical and professional knowledge needed by emergency and security workers to meet national, state, and local public safety needs, both in the public and private sectors. Our program emphasizes an all-hazard approach to emergency planning/homeland security, with courses in emergency preparedness, response, and recovery, incorporating Federal Emergency Management Agency (FEMA) and Emergency Management Institute (EMI) curriculum. In addition, we offer homeland security course teachings in terrorism, intelligence, critical infrastructure, and the National Response Framework (NRF). Coastline’s EM/HS program advances students by developing core competencies in hazard assessment, planning, critical thinking, and effective communications. Those benefiting from completing the Certificate of Achievement are those who intend to work in the fields of law enforcement, fire service, government, private security, health care, or other public safety/service related occupations.

There are no prerequisite courses for those listed. The Department of Emergency Management and Homeland Security recommends that students begin by registering in the foundation courses of EMGT C101 and EMGT C102.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Recognize the types of hazards that can negatively impact a community and assess the variables that impact this type of hazard exposure.
2. Distinguish some of the fundamental roles and responsibilities of the professional emergency manager established by the Emergency Management Institute.
3. Demonstrate effective skills using well established problem-solving, communication and interpersonal techniques.

Concentration in Criminal Justice

Criminal Justice courses at Coastline are only offered online through our Military/Contact Education Program and designed to meet the needs of our global military community. Students not eligible for enrollment in our Military/Contact Education Program may apply equivalent transferrable Criminal Justice coursework to satisfy requirements.

ENGLISH

English
Associate in Arts Degree in English for Transfer
3_AAT_ENGL

The Associate in Arts in English for Transfer major emphasizes writing about literature and the skills needed to analyze literature in academic terms. Students taking this major will examine a variety of genres and will gain a better understanding of a given literary work's relevance to the time period in which it was written as well as the relationship between the events in an author's life, time, and culture. In other words, successful students will develop the ability to analyze literature in context. Completion of this major will provide a solid foundation for students interested in pursuing a B.A. in literature.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Write well-organized, well-developed expository essays using Standard English, with a clear thesis statement and supporting topic sentences and supporting details.
2. Search for and find reliable, unbiased sources and use these sources in research papers, using correct MLA documentation.
3. Evaluate a literary work in terms of style and descriptive technique, language, tone, mood, and literary conventions, such as symbolism, imagery, irony, and poetic devices such as meter and rhyme pattern.
4. Analyze a given literary work and explain its relevance to the time period and genre in which it was written as well as the relationship between the events in an author's life, time, and culture to the development of his or her writing.

3 AA_ENGL

The study of English provides opportunities to explore the worlds of literature and culture. This English major produces graduates with demonstrated skills in literary analysis, critical thinking, writing, and communication. With this major, students will build important research and critical thinking skills. They will learn to discern what is important and synthesize that information for other usage. As English majors are learning to read with a critical eye, they are also polishing their own writing skills.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Write well-organized, well-developed expository essays in a variety of rhetorical modes, using Standard English, with a clear thesis statement and supporting topic sentences and supporting details.
2. Search for and find reliable, unbiased sources and to use these sources in research papers, using correct MLA documentation.
3. Evaluate a literary work in terms of style and descriptive technique, language, tone, mood, and literary conventions, such as symbolism, imagery, irony, and poetic devices such as meter and rhyme pattern.

French
Associate of Arts Degree
Major

3_AA_FREN

The French major is primarily designed to ensure that students gain a substantial degree of competence in speaking and writing the language (advanced courses are often conducted in French) and to study the culture, literature, and history of the Francophone world. It aims to develop the student’s critical appreciation of French in both literary and cultural contexts.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Demonstrate appropriate level written and spoken fluency in the language.
2. Demonstrate understanding and respect for the cultural and global diversity in the francophone countries.

Requirements for the Major

All courses must be completed with a grade of “C” or better.

GERONTOLOGY

Gerontology
Associate of Arts Degree
Major

3_AA_GEROMA

The Gerontology major is designed to provide students with an interdisciplinary approach to studying the human aging process from sociological, psychological, and biological perspectives. If you would like an overview of the field of aging while completing your A.A. Degree, the gerontology major is a good option. Many of the courses are cross disciplinary and, therefore, count towards the major as well as the general education requirements for the A.A. Degree. Coursework will also transfer as electives or general education requirements to a four-year institution. Aging studies may be pertinent to degrees such as Human Services, Gerontology, Psychology, and Social Work.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply major theories and principles to everyday life and determine the impact of these theories on the individual and/or society as a whole.
2. Follow directions and apply effective communication skills in a variety of settings.
3. Support opinions/ideas using solid research principles.

Requirements for the Major

Gerontology

Associate of Arts Degree or Certificate of Achievement

3_AA_GERO or 3_CL_GERO

Gerontology, the interdisciplinary study of aging, offers students an understanding of their own aging and of society’s response to the increasing population of older people. Biological, psychological, and sociological aspects of aging are explored. The coursework for the Certificate of Achievement in Gerontology will provide information about the aging process and training to work in services and agencies that interact with older people. Many of the courses are cross disciplinary and, therefore, can count towards the Certificate of Achievement as well as the general education requirements for the A.A. Degree. Coursework will also transfer as elective and general education requirements to a four-year institution.

Students have the option of completing the 21-unit Certificate of Achievement in Gerontology on its own or in conjunction with the A.A. degree. Those seeking new careers in gerontology and/or transfer to a four-year institution should complete the Associate of Arts Degree requirements in conjunction with those for the Gerontology Certificate of Achievement.

Coastline College students completing the A.A. Degree and Gerontology Certificate of Achievement qualify for our degree partnership with CSUF. For information about our partnership, call (714) 241-2613 at Coastline College or Human Services Office, CSUF, (714) 278-2255.

Coastline College and CSU Long Beach have a partnership that allows a maximum of 6 units (SOC C120 and 3 units of elective courses) to be applied to CSULB’s 15 unit Gerontology Minor. Contact (714) 241-6213 at Coastline College or the Gerontology Department at CSULB for further information.

HEALTH CARE MANAGEMENT

Health Care Management
Associate of Science Degree or Certificate of Achievement

3_AS_HCM or 3_CL_HCM

The Health Care Management Certificate is designed for the health care practitioner who is considering climbing the health care management ladder. Healthcare is one of today’s most dynamic and growing fields. It is the largest industry in the U.S., and the second largest employer, with more than 11 million jobs, presenting a wide range of management opportunities and challenges. Courses in this certificate will assist students in exploring the management field and provide them with the knowledge and information to pique their interest and consider upward mobility in the health care industry. This program is designed to help office, administrative, and support staff in the medical field to consider advancing to management positions. The program prepares students for transfer into bachelor programs in Health Care Administration, Business, Organizational Behavior, Management, and Leadership fields.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply the principles and legal regulations of healthcare management to real world situations.
2. Effectively communicate solutions to management issues in an organizational (health care) setting, using appropriate language and tools and demonstrating understanding of management terms and concepts.
3. Develop and exhibit high standards of professional practice, demonstrating awareness of ethical and social responsibilities in today’s multicultural, team-oriented, rapidly-changing healthcare/management environment.

HISTORY

History
Associate in Arts Degree in History for Transfer

3_AAT_HIST

A major in History provides students with skills in historical research and analysis, a chronological understanding of the past, and factual knowledge of specific historical periods. Study yields an appreciation of U.S. history as well as the histories of other people and cultures, which enhances multicultural understanding in the workplace and everyday society. Historical study is advantageous in developing valuable career skills in research, writing, argumentation (interpersonal communication), and documentation. Such skills and knowledge prepare students for careers in education, law, government, business, management, public relations, writing, and research.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES
Upon completion of this program, students will be able to:

1. Critically evaluate the social, cultural, political and/or economic characteristics of past societies and explain how and why these characteristics change over time.
2. Analyze the meaning of primary and/or secondary historical sources and their significance as evidence.
3. Evaluate the impact of social and cultural diversity upon the development of past societies.

HUMAN SERVICES

Human Services
Associate of Arts Degree
Major

3_AA_HUSV

This major prepares students to work in the expanding field of human services, a growing profession in response to the human needs and problems in the 21st century. It provides a general background for work with families, children, and adults and offers the student a pathway to pursue an associate or bachelor level degree. Individuals with a major in Human Services can enhance their professional helping skills, offering them greater work opportunities as social-service technicians, case management aides, mental health technicians, gerontology aides, special-education teacher aides, and residential managers. Additionally, police officers, firefighters, military counselors, and others dealing with the public will benefit from the program training. The major exposes the student to the most current thinking in the field, hands-on experience, and community networking.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Utilize human services helping skills and resources to enhance career prospects.

2. Demonstrate intervention skills within fields of human services.

Human Services
Certificate of Accomplishment
3_CE_HSVC

This certificate enables students to work in the expanding field of human services, a growing profession in response to the human needs and problems in the 21st century. The certificate program provides a general background for work with families, children, and adults and offers the student a pathway to pursue an associate or bachelor level degree. Individuals with a certificate can enhance their professional helping skills, offering them greater work opportunities as social-service technicians, case management aides, mental health technicians, gerontology aides, special-education teacher aides, and residential managers. Additionally, police officers, firefighters, military counselors, and others dealing with the public will benefit from the program training. The certificate exposes the student to the most current thinking in the field, hands-on experience, and community networking.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:
1. Utilize human services helping skills and resources to enhance career prospects.
2. Demonstrate intervention skills within fields of human services.

INFORMATION TECHNOLOGY

Informatics

Associate of Arts or Science Degree or Certificate of Achievement
3_AA_INFO or 3_AS_INFO or 3_CT_INFO

Informatics is uniquely focused on computers and people. This program is designed for students interested in the design and implementation of software and information systems that help users work more effectively. It has strong emphasis on the technical design and implementation of software and information systems. Students will learn how to design, build, and analyze actual systems that are used in industry.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:
1. Design, develop, and analyze software that meets specifications for quality software.
2. Select and use appropriate software and apply conceptual thinking skills to solve problems and complete assigned projects.
3. Design and implement software/web based systems that address human computer interface issues.

LEADERSHIP

Leadership
Certificate of Accomplishment
3_CE_LEAD

The Management and Supervision Leadership Certificate recognizes the formal leadership study, participation, and student commitment to student government at Coastline Community College as well as to student government organizations in the local region and the State of California. Students receiving the Leadership Certificate will have developed skills related to evaluating and assessing leadership characteristics and skills, communicating within groups, managing conflict, setting goals, solving problems creatively, facilitating effective decision-making, delegating tasks, inspiring a shared vision, motivating and enabling others, utilizing parliamentary procedures, and conducting effective meetings. Employers and four-year transfer institutions often place value upon involvement in student government or other direct leadership development activities.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Effectively communicate solutions to business problems, using appropriate language and tools and demonstrating understanding of business terms and concepts.
2. Analyze and recommend effective business decisions/solutions using a systematic, evaluative, and information-based approach.
3. Develop and exhibit high standards of professional practice, demonstrating awareness of ethical and social responsibilities in today’s multicultural, team-oriented, rapidly-changing global environment.

LIBERAL ARTS

American Studies
Associate of Arts Degree
Area of Emphasis
3_AA_AMST

This interdisciplinary major is designed to provide students with an integrated understanding of American society, history, and culture. Students may select designated courses within the humanities, social sciences, and fine arts disciplines. More than 300 colleges and universities in the United States offer American Studies programs. They approach American culture from many directions but have in common the desire to view America as a whole rather than from the perspective of a single discipline. Students who have graduated from four-year universities with American Studies degrees have gone on to work as lawyers, librarians, business leaders, writers, archivists, researchers, teachers, and politicians.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Apply perspectives from a variety of disciplines to develop an understanding of American culture, past and present, and its impact upon both the peoples of the United States and those outside its borders.
2. Critically evaluate historical sources, literature, art, film, music, or other types of cultural expressions in terms of their relevance to the American experience.

Requirements for the Degree

All courses must be completed with a grade of “C” or better.
Select a minimum of 18 units from at least 5 different disciplines.

Upon successful completion of the Associate in Science in Mathematics for Transfer, the student will have demonstrated a practical and theoretical understanding of mathematics in preparation for transfer to the California State University system. This degree will be useful for students majoring in the STEM (science, technology, engineering and mathematics) fields. It is recommended that students consult a counselor for further information.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Select and apply correct quantitative methods to find the correct solution to a problem in familiar or unique situations or contexts.
2. Accurately interpret and create mathematical models such as formulas, graphs, tables, and schematics; include predictions based on the model.
3. Adequately explain thinking and mathematical processes, and justify mathematical solutions effectively and accurately.

Major

3_AA_MATH

Mathematics involves the study of numerical calculations, problem solving, logic, quantitative patterns, and more. Students pursuing a Mathematics major take a variety of courses in the areas of algebra, geometry, calculus, mathematical reasoning, and differential equations. Students in mathematics programs can also branch out to several specializations, including teaching, computer science, statistics-mathematics, and bio-mathematics programs.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

SCIENCE AND MATH

Associate of Arts Degree
Area of Emphasis
3_AA_SCMA

Courses in the Science and Math area develop an understanding of mathematical and scientific methods and knowledge. Continuing study in science and math will prepare students for a wide range of careers in technology, the health field, education, research, engineering, and business.

Some university majors within Science and Math include: Accounting, Astronomy, Biology, Biotechnology, Botany, Chemistry, Computer Science, Ecology, Education, Engineering, Marketing, Math, Medicine, Microbiology, Nursing, Pharmacy, Physics, and Veterinary Medicine.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:
1. Design and apply the process of science to address a hypothesis.
2. Find, select, evaluate, and communicate scientific information present in primary research literature, mass media, online, or other sources.
3. Adequately explain thinking and mathematical processes, and justify mathematical solutions effectively and accurately.

Requirements for the Degree

All courses must be completed with a grade of “C” or better.

Select at least 18 units from the following courses. At least one course should be a science course and at least one should be a math course.

- ANTH C185
- ASTR C100, C100L, C102, C103, C104

MOBILE APPLICATIONS

Mobile Applications
Certificate of Accomplishment
3_CE_MOBA

This certificate provides students with a foundation in the development of phone and tablet mobile applications. The curriculum emphasizes the basics of mobile application design and development using Operating Systems such as Apple and Android OS. The certificate also focuses on an understanding of entrepreneurship and business operations. Students will learn the ‘development side’ of application creation and marketing of applications.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:
1. Develop, design and revise mobile apps for gaming, business, productivity, personal use, and education.
2. Deploy and market mobile apps globally for gaming, business, productivity, personal use, and education.
3. Effectively communicate solutions to business problems using appropriate language and tools and demonstrating understanding of business terms and concepts.
4. Analyze and recommend effective business decisions/solutions using a systematic, evaluative, and information-based approach.

Required Courses

Students will complete all of the following:

- BC C116 Introduction to Mobile Applications 3.0
- BC C117 Mobile Application Development 3.0
- BC C171 WEB Design/XHTML 1 3.0
- BUS C222 Entrepreneurship and Small Business Operations and Management 3.0

Paralegal Studies  
Associate of Arts Degree or Certificate of Achievement  
3_AA_PARA or 3_CL_PARA

The American Bar Association (ABA) approves Coastline’s Paralegal Studies Program. The Paralegal Program prepares personnel for the intermediary position between the legal secretary and the attorney, performing work under the supervision of an attorney. Paralegals work in law offices and other legal and law related environments, and many interact with clients. A paralegal shall not provide legal advice or engage in conduct that constitutes the unauthorized practice of law, including contracting with a natural person other than an attorney for the performance of paralegal services (California Business & Professions Code, Sections 6450 et seq.). This program is not intended to prepare students for law school or the practice of law.

Students who do not already possess an Associate of Arts or bachelor degree from a regionally accredited college or university must complete the associate degree (60 units) as specified below. These requirements are in compliance with the ABA Guidelines for paralegal programs. Degree candidate students are required to attend a paralegal orientation or a counseling session and complete the English and Math Placement Testing and Group A General Education requirements prior to entering LAW C105, LAW C118, LAW C121, LAW C390 and/or any major elective with a “LAW” designation. The remaining general education units are to be completed concurrently with the remaining paralegal courses. Students must achieve a grade point average of 2.0 or higher in each paralegal studies course.

Paralegal studies course work taken at other institutions in an ABA-approved program, with approval by the paralegal studies department, will qualify for no more than six (6) units of transfer credit in legal specialty courses in the paralegal studies certificate program. Paralegal studies courses taken for other than a letter grade are limited to seven (7) units within the 27 unit total, and 21 units of paralegal course work must be completed at Coastline Community College. (Credit by examination is not available for courses within the Paralegal Studies Certificate.) Upon completion of the degree program, students will be awarded an associate degree in Paralegal Studies and a Certificate of Achievement in Paralegal Studies approved by the American Bar Association.

Students possessing a transferable Associate of Arts or bachelor degree from a regionally accredited college or university, with official transcripts on file at Coastline, will be awarded a Certificate of Achievement in Paralegal Studies approved by the American Bar Association upon completion of the 27 units of required paralegal courses. All students are required to attend a paralegal orientation or a counseling session and must achieve a grade point average of 2.0 or higher in each paralegal studies course. All students are required to demonstrate computer proficiency* (see below).

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Analyze and communicate conclusions both orally and in writing.
2. Apply legal concepts to the clients’ problems.
3. Apply legal ethics in the paralegal field.

PHYSICS

Physics
Associate in Science Degree in Physics for Transfer

3_AST_PHYS

Physics is an attempt to understand natural phenomena, and is fundamental to related fields such as astronomy, biology, chemistry, geology and engineering. The goal of the physics program is to develop students’ understanding and analysis of the physical world through mathematical techniques involving qualitative and quantitative reasoning. It is strongly recommended that all physics majors take a course in linear algebra and differential equations such as MATH C285 in addition to the degree requirements, but this cannot be included as a requirement due to unit limitations.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES
Upon completion of this program, students will be able to:

1. Identify and describe major concepts and theoretical principles as applied to physics.
2. Apply appropriate physical laws and mathematical techniques to analyze various physical situations.
3. Perform various scientific experiments and to analyze data to check agreement with theoretical predictions.

Requirements for the Degree
All courses must be completed with a grade of “C” or better.

Associate in Arts Degree in Psychology for Transfer

3_AAT_PSYC

Psychology is the scientific study of behavior and mental processes. Students majoring in psychology learn the major perspectives for understanding human behavior: behavioral, biological, cognitive, cross-cultural, evolutionary, humanistic, and psychodynamic. Students will acquire skills to analyze behavior, including statistical methods and research design, and will learn to document findings in APA style; descriptive research methods and experimental methods are covered. Students will gain an understanding of the following topics: neuroscience; sensation and perception; consciousness; learning; memory; thinking, language and intelligence; motivation and emotion; lifespan development; personality; social psychology; stress, health, and coping; psychological disorders; and therapies. Completion of the major provides a solid foundation for a psychology transfer program and many careers in the social service fields. A Master’s degree or higher is required for most counseling or research psychologist positions.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Characterize the nature of psychology as a science.
2. Apply the major theories, principles, and concepts of psychology to everyday life.
3. Utilize investigative methods to collect, interpret, and present scientific data on psychological topics.

SOCIOLOGY

Sociology

Associate in Arts Degree in Sociology for Transfer

3_AAT_SOC

The Associate in Arts for Transfer Sociology major emphasizes a scientific approach to the study of human society, utilizing a variety of theories and research methods to understand the interaction between human groups and institutions and their influences on each other. Sociology ranges from the study of relationships in intimate social settings to the study of large bureaucratic institutions. Students taking this major will examine a variety of social institutions, including family, religion, and education, and will gain a better understanding of the roles played by social class, gender, and race in shaping social interactions. Successful students will develop their ability to think critically about social relationships, perform scientific social research, construct analytical arguments, and communicate their ideas effectively. Completion of this major will provide a solid foundation for people interested in a wide variety of careers, including law and law enforcement, social welfare, gerontology, urban planning, business, education, and public health.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

Upon completion of this program, students will be able to:

1. Demonstrate critical thinking and the use of sociological theory in analyzing social reality.

2. Develop an understanding of the sociological perspectives and apply the logic to the analysis of issues.

3. Articulate the process of social change and diversity in the U.S. and in the international context.

4. Distinguish between personal opinion and evidence gathered using the scientific process.

**3_AA_SPAN**

The Spanish major helps develop advanced proficiency in Spanish and provides students with intercultural sophistication to function comfortably and effectively in a Spanish-speaking environment. This major covers several of the aspects of written (grammar, word usage) and spoken (pronunciation and conversational style) Spanish that students will need to work toward fluency. Proficiency in Spanish can open up careers in international trade and politics or in helping other language communities in your area to receive full access to services and opportunities. Jobs open to language degree holders involve either interpretation (the spoken word) or translation (written documents).

**PROGRAM LEVEL STUDENT LEARNING OUTCOMES**

Upon completion of this program, students will be able to:

1. Demonstrate appropriate level written and spoken fluency in the language.
2. Demonstrate understanding and respect for the cultural and global diversity in the Spanish-speaking countries.

Course Numbering System

Courses Numbered 001-099:
Introductory, developmental, special interest, and some technical courses (not transferable to CSU or UC). Mathematics C010, C020 and C030 are applicable to the Option 1 associate degree; other courses numbered below 100 cannot be counted toward the 60 units of credit required for an associate degree. These courses do carry college credit and thus can be used to determine eligibility for full-time or financial aid status.

Courses Numbered 100-299:
Transfer courses to the California State University. Courses transferable to the University of California are noted under the appropriate course descriptions. Depending upon the courses selected, the student’s major, and the specific four-year college/university, these courses will meet various baccalaureate program requirements. Courses numbered 100-199 are usually first-year courses; those numbered 200-299 are usually second-year courses and normally require a prerequisite.

Courses Numbered 300-399:
Highly specialized courses that may be student-negotiated for transfer to baccalaureate-granting institutions, depending upon the courses selected, the student’s major, and the specific transfer college/university.

Courses Numbered 400 and Above:
Noncredit courses.

Special Topics:
Special topics courses offer in-depth study of topics not covered in the existing curriculum. Course content and units of credit are determined by the department. Special Topics may be designed as lecture or laboratory. Consult the Schedule of Classes for specific offerings.

Correct Use of English
All courses at Coastline are taught in English. Clear and correct use of English, both on tests and on written assignments, is expected of all students. All students, especially those planning to transfer to a four-year institution, are urged to take a course in English composition as soon as possible.

Critical Thinking
The major role of education in America is to produce an individual who can contribute to society as a well-informed member of a democracy. Competence in critical thinking empowers the student with an ability to distinguish opinion from fact and belief from knowledge. Evaluative skills learned through elementary inductive and deductive reasoning have applications in problem solving in all aspects of everyday existence. Therefore, all examinations, assignments, and activities at Coastline reflect academic rigor by requiring critical thinking on the part of the student.

The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle and the generally accepted accounting principles, the financial statements, and statement analysis. Students will analyze issues relating to asset, liability, and equity valuation; and revenue and expense recognition, cash flow, internal controls, and ethics and will record financial transactions and interpret financial statements. This course meets the accounting-related or business related course requirements needed to sit for the CPA exam. Transfer Credit: CSU; UC. C-ID: ACCT 110.

- **ACCT 102**
  - Managerial Accounting
  - Advisory: ACCT 101 and eligibility for ENGL C100 and MATH C010.
  - This is the study of how managers use accounting information in decision-making, planning, directing operations, and controlling. Focuses on cost terms and concepts, cost behavior, cost structure, and cost-volume-profit analysis. Includes issues relating to cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments. This course meets the accounting-related or business related course requirements needed to sit for the CPA exam. Transfer Credit: CSU; UC. C-ID: ACCT 120.

- **ACCT 103**
  - Individual Taxation
  - Advisory: ACCT 101
  - Introduction to income taxation. Emphasis on individual taxation, the income tax formula, the expanded tax formula, introduction to forms 1040EZ, 1040, and 1040A, gross income: exclusions and exemptions, adjustments for adjusted gross income, itemized deductions, self-employed business income, capital gains and other sales of property, rental property, royalties, and income from flow-through entities, tax credits, payroll taxes, retirement and other tax-deferred plans and annuities, special property transactions, at-risk/passive activity loss rules, and the individual alternative minimum tax. Transfer Credit: CSU.

- **ACCT 104**
  - Business Taxation
  - Advisory: ACCT 100 or 101
  - Topics will include rules related to the organization, life, and dissolution of corporations, partnerships, S corporations, and LLCs. Tax research and planning issues are considered. Case simulation project similar to the new computerized CPA exam will be required. Transfer Credit: CSU.

- **ACCT 106**
  - Excel for Accounting
  - Application of fundamental spreadsheet concepts, principles, functions and formulas in working with problems in the Accounting discipline. Transfer Credit: CSU.

- **ACCT 107**
  - Accounting with QuickBooks
  - Advisory: ACCT 100 or 101
  - QuickBooks is a complete computerized accounting system for small businesses. Topics include a review of basic accounting concepts, preparation of business reports and graphs, and the creation of a company using QuickBooks accounting. Covers creation and operation of a detailed accounting system for new and existing businesses. Transfer Credit: CSU.

- **ACCT 108**
  - Tax Return Preparation using Turbo Tax Software
  - This course introduces students to federal income tax preparation using Tax Return Preparation with Turbo Tax for Windows, the most popular software package for preparing Individual Income Tax Returns (1040). Transfer Credit: CSU.

- **ACCT 109**
  - Excel for Accounting 2
  - Advisory: ACCT 106
  - The course includes a more advanced utilization of Excel as applied to Accounting subjects. Topics include using Excel functions to analyze data, manage multiple worksheets, and develop excel applications. This course meets the accounting-related or business-related course requirements needed to sit for the CPA exam. Transfer Credit: CSU.
## ACCOUNTING C120 3.0 Units

ART C205 3.0 Units
Digital Design with Painter and Photoshop
This course will emphasize the use of the computer as an additional medium with which to create images. The extensive drawing and digital image manipulation capabilities of the computer will be explored through the use and integration of images created in Corel Painter and Adobe Photoshop. Projects assigned will use the capabilities of each program as well as the integration properties of both. Transfer Credit: CSU.

ART C212 3.0 Units
Creative Photoshop for Digital Photographs
Work with award winning Photography professionals to build an exciting portfolio using Adobe’s Creative Suite Photoshop. Learn digital camera design features and work with Camera Raw images. Learn how to integrate dynamic Photoshop images with other Creative Suite software, such as Illustrator for dynamic Type Design, and InDesign for book layouts, and uploading your images to the Web for display. Transfer Credit: CSU.

ART C214 3.0 Units
Figure Composition
Advisory: ART C224
An intermediate and advanced figure painting course in which students learn to integrate the human figure into a complete composition. Graphical and perceptual elements are applied to the special problems inherent in figure representation. The student learns to analyze the visual devices used by artists in a variety of styles. Transfer Credit: CSU; UC.

ART C220 3.0 Units
Human Anatomy for Artists
Advisory: ART C121
A course designed to develop an ability to draw the human form accurately through careful study of the skeletal and muscular systems. Live models are used for observation of surface anatomy and practice of accurate drawing. Transfer Credit: CSU; UC.

ART C221 3.0 Units
Life Drawing 2
Advisory: ART C110A, C120A, or C121
A comprehensive course in advanced drawing from the model. Involves the student in working from observation, emphasizing composition, proportion, and anatomy, using line, texture, value, modeling, gesture, and contour drawing principles. Includes theoretical applications of diverse drawing materials and techniques. The concept and creative process of making art will be examined in historical and multi-cultural contexts. This course leads to a developmental of a personal style that is required for art majors and includes written and verbal critique and analysis. Transfer Credit: CSU; UC.

ART C222A 1.5 Units
Painting 3
Advisory: ART C122A and C122B
First segment of a two-part course in intermediate painting, with expanded content and concepts, emphasizing historical and contemporary issues in art. Explores oil and acrylic painting in a social and global context. Includes awareness of the creative process and explores formal analysis of student and professional work through written and verbal critique. Transfer Credit: CSU; UC.

ART C222B 1.5 Units
Painting 4
Advisory: ART C222A
Second segment of a two-part course in intermediate painting, with expanded content, concepts, emphasizing historical and contemporary issues in art. Explores oil and acrylic painting in a social and global context. Includes awareness of the creative process and explores formal analysis of student and professional work through written and verbal critique. Transfer Credit: CSU; UC.

ART C228 1.5 Units
Watercolor 1
Painting in watercolor. Lectures and demonstrations related to the techniques and history of watercolor painting. This is the first part of a two-part watercolor course that meets the requirements for a three-unit transfer course. Transfer Credit: CSU; UC.

ART C229 1.5 Units
Watercolor 2
Lectures and demonstrations related to advanced techniques and composition of watercolor painting. The second part of a two-part watercolor painting course that meets the requirements for a three-unit transfer course. Transfer Credit: CSU; UC.

ART C230 1.5 Units
Landscape Painting 1
Advisory: ART C120, C122, or C228 and C229
Drawing, composition, and painting of landscape and seascape in watercolor, acrylic or oil. Painting on location. Individual instruction supplemented by demonstrations, criticism, and painting in the studio. Illustrated lectures on the history of landscape painting. This is the first part of a two-part landscape painting course. Transfer Credit: CSU; UC.

ART C231 1.5 Units
Landscape Painting 2
Advisory: ART C230
Drawing, composition, and painting of landscape and seascape in watercolor, acrylic, or oil. Painting on location. Individual instruction supplemented by demonstrations, criticism, and painting in the studio. Illustrated lectures on the history of landscape painting. This is the second part of a two-part landscape painting series. Transfer Credit: CSU; UC.

ART C232 1.5 Units
Plein Air Painting
Advisory: ART C120, C122, or C228 and C229
Painting outdoors, on site in oil, watercolor, or acrylic. Study of painting light on form in nature to convey the outdoor experience. Use of values and intensities of color as light, combined with composition, and atmospheric perspective. Presented as a series of challenges with demonstrations and critiques. Transfer Credit: CSU; UC.

ART C233 1.5 Units
Chinese Calligraphy
Introduction to technique for writing Chinese characters in various styles. It will show methods of design and composition. Practice includes common phrases and classical poetry studies. Transfer Credit: CSU; UC.

ART C234 3.0 Units
Contemporary Figure Painting
Advisory: ART C224
A intermediate course in figure painting from the live model. Non-traditional concepts and experimental techniques are explored to develop new insights into contemporary issues. Figure representation is examined in light of the multi-cultural society. Transfer Credit: CSU; UC.

ART C235 1.5 Units
Chinese Brush Painting 2
Prerequisite: ART C136
Practice of the three main schools in Chinese brush painting: flower and bird, landscape, animal and figure. Students will explore subjects’ spiritual and cultural significance as well as practice the strokes. Transfer Credit: CSU; UC.

ART C236 1.5 Units
Chinese Brush Painting 3
Prerequisite: ART C235
Advanced studies of various schools in Chinese Brush Painting. Emphasis on technical variations and development of individual styles. Transfer Credit: CSU; UC.

ART C237 3.0 Units
Chinese Flower Paintings
This class offers an artistic way to experience life and nature, with in-depth studies on ten magnificent flowers: Iris, Poppy, Lotus, Begonia, Chrysanthemum, Night-Blooming Cereus, Peony, Hydrangea, Cattleya Orchid, and Magnolia. Each subject has a particular rhythm accompanied with a natural peaceful feeling—a natural blend of strength and grace. Students will learn the strokes to do design and composition, the enchanting background of each of the subjects, and their spiritual meaning in Chinese culture. They will also share a state of mind with inner joy of tranquility. There is an incredible amount of detailed, stroke-by-stroke information. Transfer Credit: CSU; UC.
ART C238 3.0 Units
Chinese Flower Painting 2
Learn the brush strokes used for line, texture, shading and washes to capture the beauty of flowers. Students will learn the strokes to do design and composition, the enchanting background of each of the subjects, and their spiritual meanings in Chinese culture. Transfer Credit: CSU; UC.

ART C239 1.5 Units
Watercolor 3
Advisory: ART C120 or C120A and C120B, or C229
This advanced level watercolor course explores the use of both traditional and experimental watercolor techniques and methods as well as design concepts in developing expressive and conceptual content in watercolor painting. Emphasis on creative problem-solving. Transfer Credit: CSU; UC.

ART C240 1.5 Units
Mixed Media Techniques
Advisory: ART C110, C122 or C122B, C229
This course will emphasize the creative process in 2-D and 3-D art by the combining of two or more media in a work of art. Both traditional and experimental techniques, methods, and materials will be explored. Transfer Credit: CSU; UC.

ART C242 3.0 Units
Expressive Painting
Advisory: ART C120A and C122A
A painting course in oil and acrylic, for the intermediate and advanced student, to expand expressive and conceptual content, beyond basic traditional painting techniques. Emphasis is on developing the specific skills and techniques relating to both contemporary and historical Expressionist painting from the late 19th and 20th century. This course will include both written and verbal critique and analysis and developing your original voice as an artist will be emphasized. Transfer Credit: CSU.

ART C261 3.0 Units
The History of Tuscan Art Part 1, From the Etruscan through the Early Renaissance
Advisory: ART C100
A multicultural survey of Tuscan Art from the prehistorical Etruscan period through the Ancient Roman, Byzantine, Medieval, and Early Renaissance periods. Discussion of major art forms from the periods, including painting, sculpture, and architecture. The multicultural influences that formed pre-modern Tuscan Art will be examined. Emphasis will be placed upon how Tuscan Art reflected the culture in terms of symbols, techniques, materials, and subject matter. Included in the course content is an examination of how Tuscan Art influenced and formed other European and Middle Eastern cultures. Illustrated lectures, field trips, reading, and study of related exhibitions. Transfer Credit: CSU; UC.

ART C262 3.0 Units
The History of Tuscan Art Part 2, From the Renaissance through the Modern Era
Advisory: ART C101
A multicultural survey of Tuscan Art from the Renaissance through the Modern Era. Discussion of major art forms from the periods, including painting, sculpture, and architecture. The multicultural influences that formed Tuscan Art will be examined. Emphasis will be placed upon how Tuscan Art reflected the culture in terms of symbols, techniques, materials, and subject matter. Included in the course content is an examination of how Tuscan Art influenced and formed other European and Middle Eastern cultures. Illustrated lectures, field trips, reading, and study of related exhibitions. Transfer Credit: CSU; UC.

ART C263 3.0 Units
Watercolor 1
Advisory: ART C120
A comprehensive course in watercolor painting with lectures and demonstrations. Includes the history of watercolor painting and its relevance to society. Involves the student in selection of subject matter, color, materials and tools, basic and advanced techniques and methods, composition, and design concepts for effective painting, as well as student analysis and evaluation of watercolor masterworks. Transfer credit: CSU; UC.

ART C265 3.0 Units
Methods and Materials of Italian Masterworks
Advisory: ART C120A
A multicultural, multi-century survey of Italian art masterpieces with emphasis on the process of how the work was created and by whom. Includes exposure to a selection of the fine art techniques used in mural, fresco, egg tempera and oil painting, Renaissance drawing, mosaic-making, illuminated manuscript-making, ivory carving, and sculpture. Contains a studio art component: students will undertake some projects related to techniques studied. Prior art study not required. Transfer Credit: CSU; UC.

ASTRONOMY (ASTR) C100L 1.0 Unit
Astronomy Laboratory
Prerequisite: ASTR C100 with a grade of “C” or better or concurrent enrollment in ASTR C100 and understanding of Beginning Elementary Algebra.
A beginning astronomy laboratory course for non-science majors. In this course the scientific method is applied to the analysis of experimental astronomical data using a virtual observatory with various telescopes. Transfer Credit: CSU; UC.

ASTRONOMY C101 3.0 Units
Planetary Astronomy
Advisory: ASTR C100
An introduction to the solar system and all its constituents (sun, planets, dwarf planets, moons, asteroids, comets, etc.), their origin and nature, and their development since the time of the creation of the solar system approximately 4.6 billion years ago. Current topics of interplanetary missions, other planetary systems, and development of life in our and in other planetary systems will be discussed. Transfer Credit: CSU; UC.

ASTRONOMY C102 3.0 Units
Stellar Astronomy
Advisory: ASTR C100
A detailed study of the formation, structure, and evolution of the sun and stars, including an overview of binary systems, variable stars, Supernovae Types I and II, white dwarfs, neutron stars, black holes, and other stellar phenomena. A survey of particle physics and special and general relativity as relevant to the topics discussed will also be included. Transfer Credit: CSU; UC.

ASTRONOMY C103 3.0 Units
Cosmology
Prerequisite: ASTR C100 or C102 with a grade of “C” or better
Advisory: ASTR C100 if ASTR C102 is used for the prerequisite
An introduction to the origin and evolution of the universe with emphasis on the major cosmological models. Galaxy types, galaxy evolution, clustering, gravitational lensing, non-luminous (dark) matter, and the cosmological constant (dark energy) will be studied. An overview of relevant particle physics and special and general relativity will be included. Transfer Credit: CSU; UC.

ASTRONOMY C104 3.0 Units
Tools of Astronomy
Advisory: ASTR C100
A coherent state-of-the-art account of the instruments and techniques used in astronomy and astrophysics today. This includes telescopes and their instrumentation, as applicable to different wavelength ranges in the electromagnetic spectrum as well as other “windows” like, e.g. cosmic ray or neutrino detectors, and gravitational wave detectors. Field trips to major astronomical observatories are included. Transfer Credit: CSU.
**BIOLOGY (BIOL)**

**BIOLOGY C100 3.0 Units**

**Introduction to Biology**

Biology for non-science majors. A general study of the basic concepts of biology, including the human body and the environment. Emphasis on the characteristics of plant and animal life, human body systems, health, genetics, and the interaction of organisms in their environment. Transfer Credit: CSU; UC.

**BIOLOGY C100C 4.0 Units**

**Introduction to Biology Lecture/Lab**

A general study of the basic concepts of biology, including the human body and the environment. Emphasis on the characteristics of plant and animal life, human body systems, health, genetics, and the interaction of organisms in their environment. This lecture and lab course is suitable as a general education elective for non-science majors. Course combines content from BIOL C100 and BIOL C100L. Transfer Credit: CSU; UC credit limitations (see counselor).

**BIOLOGY C100L 1.0 Unit**

(Formerly Biology C101)

**Introduction to Biology Lab**

Prerequisite: BIOL C100 with a grade of “C” or better or concurrent enrollment.

Biology lab for non-science majors. A general study of plant and animal life processes to acquaint the non-biology major with basic biological concepts and instruments in the laboratory. Transfer Credit: CSU; UC credit limitations (see counselor).

**BIOLOGY C102 3.0 Units**

**Introduction to the Concepts of Anatomy and Physiology**

Advisory: ENGL C100, MATH C100

This lecture-only course provides a general overview of the anatomy and physiology of the eleven human body systems. It is designed for the student with little or no biological background who would like to learn more about the structure and function of the human body, including anatomical and physiological terminology, the student who would like a preparatory course before embarking on the more advanced anatomy and physiology courses, and the student interested in the Health and Fitness major. Transfer Credit CSU; UC credit limitations (see counselor).

**BIOLOGY C103 3.0 Units**

**Introduction to Marine Science**

(Same as Marine Science C100)

A general study of the marine environment. Examines the chemical, biological, and geological properties of the sea; the sea as a natural resource; and its geo-political and economic impact. Transfer Credit: CSU.

**BIOLOGY C103L 1.0 Unit**

**Marine Sciences Lab**

Prerequisite: BIOL C103 or taken concurrently.

(Same as Marine Science C100L)

An orientation to marine science research process, techniques, equipment, institutions, and training/education centers. Investigations of physical and chemical properties of the sea; conditions of the air/sea/land interface; review of biological taxonomy and classification; and study of longitude, latitude, ocean basin geography, and geology. Evaluation of the sea as a physical, chemical, biological, and recreational resource. Analyses of human efforts to control pollution, manage fisheries, and monitor the ocean world. Transfer Credit: CSU.

**BIOLOGY C104 3.0 Units**

**Medical Terminology for Health Professionals**

This course introduces students to the subject of Medical Terminology and prepares them for all careers in the medical field. It covers the study of the basic elements of medical terms as well as the basic anatomy and physiology of the human body. In addition, it covers the medical terms used to describe different pathological conditions, diagnostic tests, and therapeutic procedures. Transfer Credit: CSU.

**BIOLOGY C120 3.0 Units**

**Biography of Aging**

This course will explore normal vs. abnormal changes in aging and the human ability to adapt. Each body system will be reviewed, focusing on how age changes relate to the development of disorders, and disease in later life. Methods of assisting older persons in adapting to acute and chronic illness and in health promotion and maintenance will be discussed. Transfer Credit: CSU.

**BIOLOGY C120 4.0 Units**

**Cell and Molecular Biology**

Prerequisite: CHEM C180 with a grade of “C” or better or equivalent

Advisory: Eligibility for ENGL C100

This course, intended for biological sciences and pre-health profession majors, explores principles and applications in cell and molecular biology. Topics include biological molecules; homeostasis; viruses; eukaryotic/prokaryotic cell structure and function; cell metabolism, including photosynthesis and respiration; cell communication; cell reproduction and its controls; classical (Mendelian) genetics; molecular genetics; and biotechnology. Transfer Credit: CSU; UC, C-ID: BIOL 190.

**BIOLOGY C185 5.0 Units**

**Diversity of Organisms**

Prerequisite: BIOL C180 with a grade of “C” or better

This course is a survey of the basic biology and diversity of unicellular and multicellular organisms. It emphasizes general biological principles, such as classification, structure, function, evolution, and environmental interactions. Topics include morphological and molecular phylogeny, comparative anatomy, physiology, development, evolution, taxonomy, behavior, and ecology. Designed for biological science majors. Transfer Credit: CSU; UC, C-ID: BIOL 140.

**BIOLOGY C200 3.0 Units**

**Pharmacology**

Prerequisite: BIOL C225 with a grade of “C” or better

Advisory: CHEM C110; eligibility for ENGL C100

Basic principles of pharmacology; classification of drugs, methods, and routes of administration, distribution, absorption, excretion; desired and toxic effects; indication and contraindication for use. Transfer Credit: CSU.

**BIOLOGY C210 5.0 Units**

**General Microbiology**

Advisory: CHEM C110

Major concepts of microbiology are discussed as they relate to the principal classes of microorganisms: bacteria, fungi, algae, protozoa, and viruses. Topics covered include 1) functional anatomy of prokaryotes and eukaryotes, 2) microbial metabolism and genetics, 3) characteristics and control of microbial growth, 4) microbial taxonomy and methods of microbial classification, 5) host-microbe interactions, 6) mechanisms of microbial pathogenicity, 7) immunology, 8) biotechnology and human infectious diseases. The laboratory focuses on methods for identifying and characterizing microbes, including aseptic technique, microscopy, staining, cultivation, molecular biology, and bioinformatics. Both lecture and laboratory content relate to general and clinical applications. Transfer Credit: CSU; UC.

**BIOLOGY C211 3.0 Units**

**General Microbiology Lecture**

Advisory: BIOL C100, CHEM C110, eligibility for ENGL C100

Major concepts of microbiology are discussed as they relate to the principal classes of microorganisms: bacteria, fungi, algae, protozoa, and viruses. Topics covered include 1) functional anatomy of prokaryotes and eukaryotes, 2) microbial metabolism and genetics, 3) characteristics and control of microbial growth, 4) microbial taxonomy and methods of microbial classification, 5) host-microbe interactions, 6) mechanisms of microbial pathogenicity, 7) immunology, 8) biotechnology and human infectious diseases. This course covers the lecture content in BIOL C210. Transfer Credit: CSU; UC credit limitations (see counselor).

</tbody>
</table>
BIOTECHNOLOGY C105  4.0 Units
Biological Technology Skills II
Prerequisite: BIOT C100 with a grade of “C” or better
A course in advanced biological laboratory techniques used in the biotechnology industry, with an emphasis on protein detection and analysis. Protein techniques include polyacrylamide gel electrophoresis, ELISA, Bradford assay, horizontal electrophoresis, column chromatography, Western blot, GFP characterization, affinity column, dialysis, protein standard curve, sonication, ion exchange column purification, and fraction analysis. DNA techniques include PCR, restriction digests, DNA purification, and Southern blot. Students will learn to use a spectrophotometer, plot standard curves, and use a microplate reader. Internet projects assigned to enhance learning of theory and methods (virtual DNA sequencing, reading output from a DNA sequence, and entering sequences in BLAST database for DNA sequence comparison). Transfer Credit: CSU.

BIOT C110  3.0 Units
Overview of Quality Assurance and Medical Devices
An overview of quality assurance systems used in the biotechnology industry, organizational functions, engineering technology, analysis, and application in an FDA regulated industry. Emphasizes the importance of adequate lot control, process and product, and record keeping. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY (BCT)

BUILDING CODES TECHNOLOGY C251  3.0 Units
Introduction to Green Building
An overview of the entire process of green building, covering the theory, history, state of the industry, and best practices in green building. The course will provide an introduction to green building programs, such as LEED assessment system, Build It Green, Green Globes and other standards, such as ICC 700 and the State of California Green Building Code. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY C281  1.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Building Codes Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Building Codes Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Building Codes Technology. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY C282  2.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Building Codes Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Building Codes Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Building Codes Technology. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY C283  3.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Building Codes Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Building Codes Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Building Codes Technology. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY C284  4.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Building Codes Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Building Codes Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Building Codes Technology. Transfer Credit: CSU.

BUILDING CODES TECHNOLOGY C300  3.0 Units
Introduction to the International Building Code
The student will gain insight into building laws founded on broad-based performance principles and will become familiar with the proper use of the International Building Code. This includes administrative, occupancy, types of construction, materials, fire resistive standards, exiting, and detailed regulating provisions of the document.

BUILDING CODES TECHNOLOGY C301  3.0 Units
Residential/Construction Blueprint Reading
An introduction to residential/commercial construction, this course is designed to provide you with foundational knowledge and with enough practice at reading blueprints to get you started. It is a guide to understanding the drawings used in the major construction trades, including carpentry, electrical, plumbing, heating, and air conditioning. The course includes information for styles of building from small-scale residential to large-scale commercial.

BUILDING CODES TECHNOLOGY C302  3.0 Units
California Administrative Code (Title 24)
Applies the California Code of Regulations (Title 24) as it pertains to various types of buildings. Special emphasis will be placed on California State energy regulations, building modifications for the disabled for accessibility, and includes an introduction to the California State Green Building codes.

BUILDING CODES TECHNOLOGY C303  3.0 Units
Non-Structural Provisions of Building Codes
Advisory: BCT C300
A comprehensive course designed to give the student an understanding of the non-structural provisions of the International Building Code. Important aspects of this course are regulation of building areas, heights, location on property, fire resistance rated materials, fire suppression systems, and the means of egress of buildings.

BUILDING CODES TECHNOLOGY C304  3.0 Units
Concrete Codes
Advisory: BCT C300
Students who are preparing for a career in Building Code Technology or concrete specialty inspection and who want to learn more about code requirements for concrete construction will find this course a major learning asset. Every aspect of construction will have some sort of concrete placement. This fundamental course will provide the student with basic knowledge through advanced practices and procedures of the concrete industry.

BUILDING CODES TECHNOLOGY C305  3.0 Units
Framing Requirements of Building Code
Advisory: BCT C300
This class will concentrate on the International Building Code chapters concerning, wood and steel framing, roofing and reroofing, drywall, stucco, plaster, plastics, soil classification, and foundation investigation.
**Building Codes**

**Technology C306** 3.0 Units

Electrical Code

Basic safety and the use of electricity. Includes basic wiring methods used in residential and commercial buildings in conjunction with the latest edition of the National Electrical Code. Application of the principles of inspection with details of electrical construction.

**Building Codes**

**Technology C307** 3.0 Units

Mechanical Code

Interpretation of the Uniform Mechanical Code as it pertains to heating and air conditioning installations; includes venting, heater and air conditioning selection, gas, electrical, and applicable State Green Building codes.

**Building Codes**

**Technology C308** 3.0 Units

Plumbing Code

Advisory: Knowledge of building construction.

Plumbing code interpretation for inspectors and installers necessary for correct selection of material, sizing of pipe, and installation of conventional and Green Building Plumbing systems.

**Building Codes**

**Technology C311** 3.0 Units

International Residential Code

Comprehensive study of International Residential Code for One and Two-Family Dwellings. Topics include all residential code requirements for building a home according to IRC, including international building, electrical, plumbing, mechanical, and fire codes. Laboratory and classroom experiences are designed to develop skills in noncommercial construction. Field experiences are used when applicable.

**Building Codes**

**Technology C312** 3.0 Units

Construction Estimating

Fundamentals of Construction Estimating takes a comprehensive approach to estimating, offering readers a well-rounded, up-to-date perspective on the estimating process. It is designed for entry level courses and focuses on the process of utilizing the latest technology to compile cost estimates for general contractors.

**Building Codes**

**Technology C314** 3.0 Units

Green Building Codes

Advisory: BCT C251

Detailed review of California Green Building Code Chapter 11 of Title 24 and ICC 700-2008 National Green building standards. The students will learn the various components for LEED for New Construction and Leadership in Energy and Environmental Design (LEED) for homes. Transfer Credit: CSU.

**Building Codes**

**Technology C316** 3.0 Units

Masonry Codes

Advisory: BCT C300

All facets of masonry construction and inspection are covered in this course. In addition to code requirements, students will learn field-testing of concrete masonry, understand sampling materials, quality control of materials, grouting, and type and placement of reinforcing steel.

**Business (Bus)**

**Business C007** 3.0 Units

Business Mathematics

Business Mathematics provides a practical, up-to-date coverage of widely-used topics in business, including basic math, bank services, payroll, discounts and markups, simple and compound interest, stocks and bonds, consumer loans, taxes and insurance, depreciation, financial statements, and business statistics. **Business C103** 3.0 Units

Project Management Professional Certification Review

This course is designed to assist students in preparing for the PMP certification exam given by the Project Management Institute (PMI). The topics include the project management processes and skills an Introduction to the structure and design of the human body. Includes structural components, spatial relationships, and body system interactions. Students participate in the laboratory, which will include dissections. Appropriate for students interested in human anatomy and in pursuing a health field pathway; satisfies requirements for nursing, physician assistant, occupational therapy, physical therapy, pre-pharmacy majors, kinesiology majors, medical, dental, and other health field programs professional responsibility. The class will focus on learning the purpose for processes, inputs, tools, techniques, and outputs. The students will develop a study schedule, organize study groups, and create a plan with tasks that will guide them in preparing for the PMP exam. Techniques on exam taking, including study time management, will also be addressed to ensure success. Transfer Credit: CSU.

BUSINESS

COMPUTING C147 2.0 Units
Beginning Microsoft Word
Advisory: BC C107A or keyboarding skills of at least 25 words per minute.
Learn to use the latest version of Microsoft Word to create professional-looking documents for personal and business needs. Topics include using Windows operating system basics and Internet Explorer; creating, editing, formatting, and managing documents; inserting objects, tables, SmartArt, diagrams, and organizational charts. Transfer Credit: CSU.

BUSINESS

COMPUTING C148 2.0 Units
Intermediate Microsoft Word
Advisory: BC C147
Learn to use the latest version of Microsoft Word to create professional-looking documents for personal and business needs. Topics include using Windows operating system basics and Internet Explorer; creating, editing, formatting, and managing documents; inserting objects, tables, SmartArt, diagrams, and organizational charts. Transfer Credit: CSU.

BUSINESS

COMPUTING C150 3.0 Units
Microsoft Office Professional 1
An introduction to MS Office applications — Microsoft Word, Excel, Access, PowerPoint, and other related tools. Transfer Credit: CSU.

BUSINESS

COMPUTING C160 3.0 Units
Introduction to GIS (Geographic Information Systems)
Advisory: BC C121 or C175
An Introduction to the concepts and use of Geographic Information Systems (GIS) and its role in analysis and decision making. Course work is based on the mapping and spatial analysis capabilities of the ArcView software program. Students will be introduced to basic cartographic principles, maps, scales coordinate systems, and projections. Through computer lab tutorials and case studies students will learn to use ArcView to view relationships, patterns, or trends that are not possible to see with traditional charts, graphs, and, spreadsheets. Transfer Credit: CSU.

BUSINESS

COMPUTING C161 3.0 Units
Health Information Technology—Medical Coding 1
Advisory: BC C104 or ability to use Microsoft Windows and BC C163
An introductory course in Current Procedural Terminology (CPT). Systematically learn CPT codes by body system, various procedures and ways to code each one. This course includes an introduction to International Classification of Diseases, 9th Revision, Clinical Modification (ICD 9-CM/10-CM) and information about third party reimbursement. Transfer Credit: CSU.

BUSINESS

COMPUTING C162 3.0 Units
Health Information Technology—Medical Coding 2
Advisory: BC C104 or ability to use Microsoft Windows, BC C161 and C163
This second course in medical coding emphasizes coding physician services and diagnoses in the outpatient settings of clinics and outpatient departments of hospitals. Study authentic medical cases covering concepts that give a more in-depth understanding of physician-based services. It includes auditing previously coded cases that were returned because of errors. This is the second course in preparing for the certification examination given by either the American Health Information Management Association or the American Academy of Professional Coders. Transfer Credit: CSU.

BUSINESS

COMPUTING C163 3.0 Units
Health Information Technology—Medical Terminology 1
Advisory: BC C104 or ability to use Microsoft Windows.
Introduction to medical terminology for body structure, body systems, and diagnostic work. Prefixes, suffixes, word roots, and combined word forms. Includes instruction in spelling, definition, and pronunciation. Transfer Credit: CSU.

BUSINESS

COMPUTING C171 3.0 Units
Web Design/XHTML 1
Advisory: BC C170 or DGA C166A
Web Design/XHTML 1 introduces students to the foundations of web design, including planning, creating, and publishing a website. It emphasizes HTML/XHTML coding rather than using a WYSIWYG (What You See Is What You Get) editor. The course also covers some critical issues related to web design, such as background information, including copyright issues. Transfer Credit: CSU.

BUSINESS

COMPUTING C175 1.5 Units
Microsoft Access 1
Advisory: BC C104
Using Microsoft Access, learn database basics. Design and create tables, forms, and reports. Create queries, including aggregate functions and crosstab queries to analyze and filter data. Transfer Credit: CSU.

BUSINESS

COMPUTING C176 1.5 Units
Microsoft Access 2
Advisory: BC C175 or fundamental skills using a personal database.
Continuation of Microsoft Access Level 1, emphasizing relational database design, maintenance, customized forms, built-in functions, macros, an introduction to Structured Query Language and an overview of Visual Basic for Applications. Transfer Credit: CSU.

BUSINESS

COMPUTING C185 1.5 Units
Microsoft PowerPoint
Advisory: BC C110, C147 or C150 or ability to use current computer operating systems.
Create powerful, effective, professional presentations using Microsoft PowerPoint. Topics will include creating, organizing ideas, editing, communicating ideas, and delivering presentations in multiple modalities. Transfer Credit: CSU.

BUSINESS

COMPUTING C194 3.0 Units
Web Accessibility
Create accessible websites or revise existing, non-accessible websites using HTML and other appropriate coding. Explore specific strategies and techniques for producing accessible webpages. Word documents, PDF documents, and tagging images, or captioning video. Transfer Credit: CSU.

BUSINESS

COMPUTING C281 1.0 Unit
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Business Computing for 5 hours per week per 1.0 unit of Work Based Learning. Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Business Computing by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Business Computing. Transfer Credit: CSU.

BUSINESS

COMPUTING C282 2.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Business Computing for 5 hours per week per 1.0 unit of Work Based Learning. Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Business Computing by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Business Computing. Transfer Credit: CSU.
BUSINESS
COMPUTING C283 3.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Business Computing for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.

To enhance each Work Based Learning participant’s opportunity for success in the field of Business Computing by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career, or occupational goal in Business Computing. Transfer Credit: CSU.

BUSINESS
COMPUTING C301L 1.0 Unit
Computer Lab
Advisory: Concurrent enrollment in any Coastline Community College class.

Provides computer lab time on IBM PCs and Macs. Instructors provide limited individual attention due to the variety of software used in the lab.

BUSINESS
COMPUTING C306 1.5 Units
Website Internship
Advisory: BC C171

Create and post webpages and maintain a website for a specific department, instructor, agency, or company. Enhance websites with tips and tricks discussed in class.

CHEMISTRY (CHEM)

CHEMISTRY C100 3.0 Units
Principles of Chemistry

Analysis of problems of current concern to the individual relating to his/her surroundings and the role that chemistry plays in the problems and in their possible solutions. Transfer Credit: CSU.

CHEMISTRY C105 2.0 Units
Chemistry Explorations for Teachers

A class in basic scientific principles and methods related to chemistry. Emphasis is on developing a molecular understanding of the world, and applying the scientific method to understanding everyday phenomena. Course is designed to introduce future elementary and middle school teachers to the central ideas of chemistry through a series of laboratory experiments, hands-on exercises, and discussions. Topics have been chosen to ensure coverage of the content in state and national science education standards. Transfer Credit: CSU.

CHEMISTRY C110 5.0 Units
Introduction to Chemistry

Advisory: MATH C010 with a grade of “C” or better.

A lab science course in principles of inorganic, organic, and biochemistry for transfer and for A.A. Degree programs in nursing, dietetics, paramedical, and other allied health fields. Not for students planning to take CHEM C130. Transfer Credit: CSU; UC.

CHEMISTRY C130 4.0 Units
Preparation for General Chemistry

Advisory: MATH C030 with a grade of “C” or better.

An introduction to both the principles and calculations of chemistry and lab techniques, especially for those students who will be continuing with future chemistry courses. Transfer Credit: CSU; UC.

CHEMISTRY C140 4.0 Units
Survey of Chemistry and Physics

(Same as Physics C140)

Prerequisite: MATH C010 with a grade of “C” or better

An investigation of basic principles of physics and chemistry, including matter, physical and chemical properties, energy, motion, light, atomic structure, bonding, solutions and chemical reactions. The interdependence of chemistry and physics will be emphasized. This course is intended for non-science majors. Transfer Credit: CSU; UC credit limitations (see counselor).

CHEMISTRY C180 4.0 Units
General Chemistry A

Prerequisite: Completion of CHEM C130 or a recent high school chemistry course with a grade of “C”, and completion of MATH C030 or a recent high school course in intermediate algebra with a grade of “C” or appropriate placement on a math placement assessment.

Introduction to both the principles and mathematical analysis of general chemistry and basic lab techniques, especially for students intending to proceed with further chemistry courses. Topics include atomic structure and bonding, the stoichiometry of chemical equations, thermochemistry, and the behavior of gases and solutions. Transfer Credit: CSU; UC.

CHEMISTRY C180L 1.0 Unit
General Chemistry A Lab

Prerequisite: Completion of CHEM C130 or a recent high school chemistry course with a grade of “C”, and completion of MATH C030 or a recent high school course in intermediate algebra with a grade of “C” or appropriate placement on a math placement assessment.

Corequisite: CHEM C180

Introduction to both the principles and mathematical analysis of general chemistry lab techniques, especially for students intending to proceed with further chemistry courses. Topics include atomic structure and bonding, the stoichiometry of chemical equations, thermochemistry, and the behavior of gases and solutions. Transfer Credit: CSU; UC.

CHEMISTRY C185 4.0 Units
General Chemistry B

Prerequisite: CHEM C180 with a grade of “C” or better

This course is the second semester of a two-semester sequence (CHEM C180 and CHEM C185). A basic course in the principles of inorganic chemistry with special emphasis on chemical kinetics, chemical equilibrium, electro chemistry, nuclear chemistry, acids, and bases. Transfer Credit: CSU; UC.

CHEMISTRY C185L 1.0 Unit
General Chemistry B Lab

Prerequisite: CHEM C180 and CHEM C180L with a grade of “C” or better

Corequisite: CHEM C185

This course is the second semester of a two-semester sequence (CHEM C180L and CHEM C185L) which continues the examination of the basic principles of inorganic chemistry with a special emphasis on reaction kinetics, chemical equilibrium, acid/base and solubility equilibria, enthalpy, entropy and Gibbs free energy, electrochemistry, coordination chemistry, and nuclear chemistry. Transfer Credit: CSU; UC.

CHEMISTRY C220 3.0 Units
Organic Chemistry A

Prerequisite: CHEM C185 with grade of “C” or better

This course is the first semester of Organic Chemistry, a two-semester, which includes topics on the properties and reactions of aliphatic and aromatic organic compounds. Emphasis is placed on the reaction mechanisms, fundamental principles, and modern instrumental methods. Transfer Credit: CSU; UC.
CHEMISTRY C220L 2.0 Units  
(Formerly Chemistry 221)  
Organic Chemistry A Lab  
Prerequisite: CHEM C185 with grade of “C” or better.  
Corequisite: CHEM C220.  
The laboratory component of Organic Chemistry A emphasizes basic organic chemistry theory and the techniques of separation, purification, synthesis, and analysis of organic compounds, including chromatography and instrumental methods, such as infrared and nuclear magnetic spectroscopy. Transfer Credit: CSU; UC.

CHEMISTRY C225 3.0 Units  
Organic Chemistry B  
Prerequisite: CHEM C220 with grade of “C” or better.  
Further study of the structures, reactions, and reaction mechanisms of organic compounds, with particular emphasis on conjugated molecules, aromatic systems, and carbonyl containing compounds and an introduction to biologically important molecules, such as amino acids, carbohydrates, and lipids. Transfer Credit: CSU; UC.

CHEMISTRY C225L 2.0 Units  
(Formerly Chemistry 226)  
Organic Chemistry B Lab  
Prerequisite: CHEM C220L with a grade of “C” or better  
Corequisite: CHEM C225  
Theory and techniques of separation, purification, synthesis, and analysis of organic compounds, including instrumental methods of chromatography and spectroscopy. Transfer Credit: CSU; UC.

CHINESE (CHIN)  

CHINESE C180 5.0 Units  
Elementary Chinese 1  
Advisory: Students who have completed two years of high school Chinese with a grade of “C” or better should enroll in CHIN C185 or C185A.  
This text provides the fundamental ability to both comprehend and conversate in daily spoken Mandarin Chinese. Introduction to early reading and writing skills as well as Chinese customs and culture. Transfer Credit: CSU; UC credit limitations (see counselor).

CHINESE C185 5.0 Units  
Elementary Chinese 2  
Prerequisite: CHIN C180 or C180B with a grade of “C” or better  
Continued acquisition of more complex language structures to develop listening, reading, writing and conversational skills in Mandarin Chinese. Further explores Chinese daily life, culture and customs. Transfer Credit: CSU; UC credit limitations (see counselor).

CHINESE C280 4.0 Units  
Intermediate Chinese 1  
Prerequisite: CHIN C185 or C185B with a grade of “C” or better  
Intermediate course in Mandarin Chinese that stresses reading, writing, listening, and speaking and expands upon students’ knowledge of grammar and morphology as well as expanding cultural awareness of the Chinese-speaking world. Transfer Credit: CSU; UC.

CHINESE C285 4.0 Units  
Intermediate Chinese 2  
Prerequisite: CHIN C280 with a grade of “C” or better  
Intermediate course in Mandarin Chinese that stresses reading, writing, listening, and speaking and expands upon students’ knowledge of grammar and morphology as well as expanding cultural awareness of the Chinese-speaking world. Transfer Credit: CSU; UC.

COMMUNICATION STUDIES (CMST)  

COMMUNICATION STUDIES C100 3.0 Units  
(Formerly Speech C100)  
Interpersonal Communication  
Language use and effective interpersonal communication, both verbal and non-verbal. Recommended for students wanting to understand and improve their communication skills in interpersonal relationships. Content areas include: conversation, listening, perception, non-verbal communication, language, self-concept, and self-disclosure. Transfer Credit: CSU. C-ID: COMM 130.

COMMUNICATION STUDIES C101 3.0 Units  
(Formerly Speech C101)  
Human Communication  
This course is an introduction to the fundamentals and principles which underlie effective speech communication. Practical experience, emphasizing content, organization and delivery, will be required in at least three speaking situations, specifically including persuasive and informative speaking. Particular emphasis will be on Milton Rokeach’s value theory (1968) as an explanation for the relationship between self-concept and behavior. Transfer Credit: CSU; UC.

COMMUNICATION STUDIES C110 3.0 Units  
(Formerly Speech C110)  
Public Speaking  
Principles of public speaking, including planning, preparation and delivery of an effective oral presentation. Consideration of and practice in problem solving, information, persuasion and communication techniques. Emphasis on developing self-confidence and skill in communicating to and with groups. Transfer Credit: CSU; UC. C-ID: COMM 110.

COMMUNICATION STUDIES C140 3.0 Units  
Small Group Communication  
Advisory: ENGL C100  
Introduction to study, practice, and application of communication principles and theory in small group contexts. Analysis of small group concepts and processes with focus on group norms, leadership, cooperative problem solving, decision making, and conflict management. Transfer Credit: CSU; UC. C-ID: COMM 140.

COMMUNICATION STUDIES C150 3.0 Units  
Intercultural Communication  
Advisory: ENGL C100 and CMST C100 or C110  
This course is an introduction to the study, practice, and application of communication concepts and theory in intercultural contexts. Analysis of cultural influence and interactional patterns to explain, predict, and improve communication behavior within and across cultural groups. With emphasis of examination of various communication patterns across cultures to increase interpersonal and intercultural effectiveness and to decrease ethnocentric and prejudicial beliefs and discriminatory behavior. Transfer Credit: CSU; UC. C-ID: COMM 150.

COMMUNICATION STUDIES C200 3.0 Unit  
(Formerly Speech C200)  
Public Communications  
This course focuses on the preparation, presentation, and delivery of informative and persuasive public speeches. Particular emphasis is on organizing and outlining, reasoning and arguing, and analyzing audiences and adapting to different audiences. Transfer Credit: CSU.

COMMUNICATION STUDIES C220 3.0 Units  
Essentials of Argumentation  
Advisory: ENGL C100  
Essentials of Argumentation is the study of theory, practice, and criticism of argumentation, focusing on principles of effective argumentation, including the use of inductive and deductive logic, propositions, reasoning, evidence, and refutation. Students analyze, construct, and present written and oral arguments. The emphasis of the course is on critical thinking skills necessary for personal, professional, and academic success. Transfer Credit: CSU. C-ID: COMM 120.

COMPUTER INFORMATION SYSTEMS (CIS)  

(COMPUTER INFORMATION SYSTEMS (CIS)  
(Also, see courses listed under Information and Computer Science)  
COMPUTER INFORMATION SYSTEMS C100 3.0 Units  
Introduction to Information Systems  
This course prepares students with a non-programming introduction to information systems and personal computer applications, including word processing, spreadsheets, database and presentation software. Transfer Credit: CSU.)
COMPUTER INFORMATION
SYSTEMS C110 1.5 Units
Introduction to Programming with Visual Basic.Net
This course teaches the students the fundamentals of programming with emphasis on programming, coding, and troubleshooting tips using Visual Basic.Net. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C111 3.0 Units
Introduction to Information Systems and Programming
Examination of information systems and their role in business. Focus on information systems, database management systems, networking, e-commerce, ethics and security, computer systems hardware and software components. Application of these concepts and methods through hands-on projects developing computer-based solutions to business problems. Transfer Credit: CSU; UC. C-ID: BUS 140.

COMPUTER INFORMATION
SYSTEMS C113 2.0 Units
Personal Cyber Wellness
This course focuses on the development of cyber wellness from a personal perspective. Students will learn about responsible computer usage, evaluation of social networking, the impact of cyber-attacks, risks of social engineering attacks, and recognition of unusual activity. As a community of lifelong learners and critical thinkers, students will strengthen their abilities, including following policy guidelines, behaving ethically and professionally, and minimizing the risk of attacks. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C150 3.0 Units
Introduction to C++
This course covers the beginning concepts of C++ programming. Students, with no prior computer programming knowledge, will learn the fundamentals of writing computer programs using C++. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C155 3.0 Units
Introduction to Programming Using Java
Advisory: CIS C111
Student will learn structured programming techniques using Java. There is an emphasis on control structures, procedures, simple data types, file I/O, and a general introduction to object-oriented programming. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C157 3.0 Units
Introduction to Python Programming
Offers an overview of the Python programming language for students without prior programming experience. Variables, expressions, functions, looping, and flow control pertaining to Python is taught through hands-on exercises and guided demonstrations by the instructor. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C171 1.0 Unit
Computer Programming with Alice
Advisory: Ability to use a Graphical User Interface operating system (such as Vista or MAC OS.). Introduces both majors and non-majors to the concepts and topics of computer and simulation programming. Students with develop algorithmic thinking and abstraction through the use of a 3-D animation programming environment. This course is designed for beginning programmers, and web developers who need to understand object oriented concepts. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C190 3.0 Units
Introduction to Geographic Information Systems
Advisory: BC C121 and C175
An introduction to the concepts and use of Geographic Information Systems (GIS) and its role in analysis and decision making. Course work is based on the mapping and spatial analysis capabilities of the ArcView software program. Students will be introduced to basic cartographic principles, maps, scales, coordinate systems, and projections. Through computer lab tutorials and case studies, students will learn to use ArcView to view relationships, patterns, or trends that are not possible to see with traditional charts, graphs, and spreadsheets. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C191 3.0 Units
Intermediate Geographic Information Systems
Advisory: CIS C190
This intermediate course provides further study in ArcView; it is a continuation of the skills and concepts learned in CIS C190, Introduction to Geographic Information System (GIS). Course work is based on the mapping and spatial analysis capabilities of ArcView software. Students will be creating and editing spatial data and geocode data, perform spatial data processing, and conduct spatial analysis. Transfer Credit: CSU.

COMPUTER INFORMATION
SYSTEMS C231 3.0 Units
Fundamentals of Computer Information Systems
Advisory: CIS C100 and C111 and ENGL C100
Students will explore the topics of Computer Information Systems as an academic and professional discipline. The practical application of the principles and techniques of Systems Development Life Cycle (SDLC) will be experienced in a Web development project. The process of prototyping and client-developer interaction will be applied with an emphasis on soft skills for professional development. Careers and emerging trends in the Information Systems field will be analyzed. Transfer Credit: CSU.

TECHNOLOGY C0080 1.0 Unit
Network+ Exam Prep
Advisory: CST C128
This course is a review of the material covered in the Coastline’s Network+ course. It will help the student prepare for the CompTIA Network+ Exam. CompTIA Network+ covers network security, compliance and operation security, threats and vulnerabilities as well as application, data and host security. Also included are access control, identity management, and cryptography.

COMPUTER SERVICES
TECHNOLOGY C083 1.0 Unit
Advisory: CST C232
This course is a review of the material covered in Coastline’s Windows Server course. It will help the student prepare for the Microsoft IT Infrastructure exam, which covers the configuration, management, and troubleshooting of Windows desktop or server infrastructure.

COMPUTER SERVICES
TECHNOLOGY C084 1.0 Unit
Advisory: CST C128
This course is a review of the material covered in Coastline’s Ethical Hacking course. It will help the student prepare for the EC Council’s Certified Ethical Hacker (CEH) exam. The CEH credential certifies individuals in the specific network security discipline of Ethical Hacking from a vendor-neutral perspective.

COMPUTER SERVICES
TECHNOLOGY C085 1.0 Unit
Advisory: CST C245
This course is a review of the material covered in Coastline’s Computer Forensics course. It will help the student prepare for the IACIS Certified Forensic Computer Examiner (CFCE) exam. The CFCE exam covers pre-examination procedures and legal issues, computer fundamentals, partitioning schemes, Windows file systems, data recovery, Windows artifacts, and presentation of findings.
This course is a review of the material covered in Coastline’s Linux+ course. It will help the student prepare for the CompTIA Linux+ Exam. CompTIA Linux+ covers common tasks in major distributions of Linux, including the Linux command line, basic maintenance, installing and configuring workstations, and networking.

**Technology C087**

Advisory: CST C201C and C202C

This course is a review of the material covered in The Cisco Networking Academy’s CCNA 1 and CCNA 2 courses. It will help the student prepare for the Cisco ICND1 Exam. The exam tests a candidate’s knowledge and skills related to LAN switching technologies, routing technologies, infrastructure services, and infrastructure maintenance.

**Computer Services**

**Technology C088**

Advisory: CST C203C and C204C

This course is a review of the material covered in The Cisco Networking Academy’s CCNA 3 and CCNA 4 courses. It will help the student prepare for the Cisco ICND2 Exam. The exam tests a candidate’s knowledge and skills related to LAN switching technologies, IPv4 and IPv6 routing technologies, WAN technologies, infrastructure services, and infrastructure maintenance.

CyberPatriot I - Introduction

This course prepares students for participation in the CyberPatriot cyber defense competition. It covers topics in the major areas of ethical and legal issues of cybersecurity vulnerabilities, countermeasures, vulnerabilities of Windows desktop operating systems, online safety, and computer anatomy. Students will participate in practice competitions using virtual machines to develop the ability to concentrate during competition. Students will learn practical techniques for securing a network and sensitive data through business scenarios. Emphasis on hands-on training.

**Computer Services**

**Technology C092**

CyberPatriot II - Intermediate

Advisory: CST C091

This course prepares students for participation in the CyberPatriot cyber defense competition. It covers topics in the major areas of ethical and legal issues of cybersecurity vulnerabilities, countermeasures, exploration of vulnerabilities of Linux operating systems, Linux services, and an introduction to Cisco routing and switching. Students will participate in practice competitions using virtual machines to develop the ability to work and strategize as a team. Students will learn practical techniques for securing a network and sensitive data through business scenarios. Emphasis on hands-on training.

**Course Descriptions**

**COMPUTER SERVICES**

**TECHNOLOGY C177 3.0 Units**

Configuring Microsoft Windows 8

Advisory: CST C128

The course provides hands-on experience with Windows 8. Topics include storage management, optimization of file system, performance and reliability tools, troubleshooting, configuring IPv6, wireless networking, file/folder management, SkyDrive functionality, client Hyper-V, VPNs, and Direct Access. This course maps to Windows 8 MCSA and 70-687 exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C178 3.0 Units**

Managing and Maintaining Windows 8

Advisory: CST C128

This course provides hands-on experience managing and maintaining Windows 8 desktop enterprise environment. Topics include: desktop applications, cloud applications, user settings, network connectivity, remote access, authentication, storage, security, mobile devices, endpoint security, Windows Intune, public cloud and, MDDP. Maps to Windows 8 MCSA and 70-688 exams. Transfer Credit: CSU.

**TECHNOLOGY C179 3.0 Units**

Microsoft Share Point

This course teaches the installation, configuration and optimization of the Microsoft SharePoint server (Microsoft Course 5081). Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C184 3.0 Units**

MS Server 2008 Active Directory Configuration

Advisory: CST C128

This course provides students with the knowledge and skills to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore and monitor and troubleshoot Active Directory related issues. Covers topics associated with the Microsoft 70-640 MCTS exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C185 3.0 Units**

MS Server 2008 Network Infrastructure

Advisory: CST C128

This course provides students with the knowledge and skills to configure and troubleshoot a Windows Sever 2008 network infrastructure. Students will learn to implement and configure secure network access and implement fault tolerant storage technologies through secure servers and IP-enabled networks. Covers topics associated with the Microsoft 70-642 MCTS exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C186 3.0 Units**

MS Server 2008 Applications Infrastructure Configuration

Advisory: CST C128

This course provides students with the knowledge and skills to configure and deploy Microsoft 2008 Applications, using applications server, IIS, terminal services, and application services. Covers topics associated with Microsoft 70-643 MCTS exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C187 3.0 Units**

MS Exchange Server 2007 Configuration

Advisory: CST C128

This course provides students with the knowledge and skills to install, configure, and maintain Microsoft Windows 2007 Exchange and include managing security and recipient objects/lists, mobile email retrieval, and migration. Covers topics associated with the Microsoft Exchange 2007. 70-236 TS exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C188 3.0 Units**

Configuring Microsoft Windows 7

Advisory: CST C128

This course provides students with hands-on experience with Windows 7 deployment, upgrades, compatibility, system settings, security features, network connectivity and mobile computing. This course covers the material from the Microsoft MCTS 680 exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C189 3.0 Units**

Upgrading Microsoft Certified Solutions Associate (MCSA) to 2012

Advisory: CST C185

This course covers the new features and functionality of Windows 2012 Management, Networking Infrastructure, Storage, Access Control, Hyper-V, High Availability and Identity Federation. Covers topics covered maps to Microsoft 70-417 Exam. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C191 3.0 Units**

CompTIA Linux+

Advisory: CST C116, C117, or C128

Linux + is CompTIA’s vendor neutral entry level certification. Like most of CompTIA’s certifications (A+, Net+, etc.) Linux + has become the entry level “must have” certification. You will explore the history, various releases of Linux, and perform Linux installation. You will compare and contrast desktop managers, traverse the Linux file system structure, explore the wonders of VI—scripts and the Command Line. What is a Runlevel? You will know at the end of this class. Before it is over, you will document, archive, back up, and secure the workstation. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C196 3.0 Units**

Linux Administration I

Advisory: CST C118 or C128 and C195

This course provides the student with information about the essential tasks of Linux Server and network installations, file system management, backup procedures, process control, user administration, and device management. This is the second in a series of three classes and is targeted at the network administration level. This class maps to the LPI level II, Novell CLA, and CompTia Linux+ test objectives. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C201 3.0 Units**

Cisco Fundamentals/CCNA 1

Lecture and labs in this introductory course will include topics, such as the OSI model, IP addressing, basic cabling, network topologies, and an intro to configuring Cisco devices. This is the first in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Emphasis is on hands-on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C201C 3.0 Units**

CCNA 1: Introduction to Networks

Advisory: CST C128

In this introductory course, students will be able to build simple LANs, perform basic configurations of routers and switches, and implement IP addressing schemes. This is the first in a series of courses providing preparation for students seeking the Cisco CCNA Certification. There is an emphasis on hands-on training. Transfer Credit: CSU.
**COMPUTER SERVICES**

**TECHNOLOGY C202**  3.0 Units  
Cisco Router Configuration/CCNA 2  
Advisory: CST C201  
This course covers routing protocols, VLSM and CIDR, and RIP. It provides an introduction to the CLI and Cisco Router Configuration. This is the second in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Emphasis is on hands-on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C202C**  3.0 Units  
CCNA 2: Routing and Switching Essentials  
Advisory: CST C201C  
This course covers configuration and troubleshooting routers and switches, resolving common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. This is the second in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Emphasis is on hands-on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C203**  3.0 Units  
Cisco Switching/CCNA 3  
Advisory: CST C202  
This course covers switch concepts, LAN design, VLAN implantation, inter-VLAN routing, VTP, and Cisco switch configuration. This is the third in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Emphasis is on hands-on training. Cisco Academy requires that students complete CCNA 1 (CST C201) prior to enrollment in this course. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C203C**  3.0 Units  
CCNA 3: Scaling Networks  
Advisory: CST C201C and C202C  
This course covers LAN Design, LAN Redundancy, Link Aggregation, Wireless LANs, Single and Multi-area OSPF, EIGRP and IOS Images. This is the third in a series of courses providing preparation for students seeking the Cisco CCNAv5 Certification. There is an emphasis on hands-on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C204**  3.0 Units  
Cisco WAN Configuration/CCNA 4  
Advisory: CST C201C and C202C and C203  
This course includes topics, such as WAN technologies; Access Control Lists (ACLs), WAN protocols, Natting, Security, and Frame Relay. This is the fourth and last in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Emphasis is on hands-on training. Cisco Academy requires that students complete CCNA 1 (CST C201) prior to enrollment in this course. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C204C**  3.0 Units  
CCNA 4: Connecting Networks  
Advisory: CST C201C and C202C and C203C  
The focus of this course is WAN technologies and network services required by converged applications in a complex network. This is the fourth in a series of courses providing preparation for students seeking the Cisco CCNA Certification. Topics include PPP, Frame Relay, NAT, VPN Tunnels, Syslog, and SNMP. There is an emphasis on hands-on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C205**  3.0 Units  
CCNP: Implementing Cisco IP Routing  
Advisory: CST C204 or CCNA  
Students will learn to plan designs, perform tasks, and interpret performance measurements. Hands-on activities include configuring and verifying routing and routing protocols. This course covers the material in the current version of Implementing Cisco IP Routing. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C206**  3.0 Units  
Implementing Secure Converged Wide-Area Networks/CCNP 2  
Advisory: CST C204 or CCNA  
Introduction to secure enterprise-class network services. Learn to secure and expand the reach of an Enterprise Network. Topics include teleworker configuration and access, MPLS, IPSEC VPN, Cisco ZVPN, Cisco device hardening, IOS firewall features. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C207**  3.0 Units  
Building Multilayer Switched Networks/CCNP 3  
Advisory: CCNA  
Authorized Cisco Networking Academy CCNP course. This course covers VLANs, Spanning-tree protocol, inter-VLAN routing, implementing security features, and designing and implementing a Multilayer Switched Network. Emphasis on hands on training. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C208**  3.0 Units  
CCNP: Troubleshooting and Maintaining Cisco IP Networks  
Advisory: CST C205  
Students will learn to plan tasks, evaluate designs, and interpret performance measurements. Hands-on activities will include configuring, verifying, and troubleshooting a Cisco IP Network. This course covers the material in the current version of Troubleshooting and Maintaining Cisco IP Networks. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C209**  3.0 Units  
CCNA Security  
Advisory: CST C202C  
The Cisco Networking Academy course provides an introduction to the core security concepts and skills needed for the installing, troubleshooting, and monitoring of network devices to maintain the integrity, confidentiality, and availability of data and devices. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C215**  1.5 Units  
Introduction to Voice over IP  
Advisory: CST C118 or C128 or CCNA  
This course teaches the basics of IP telephony and VoIP. Topics will include: PSTN vs VoIP, Enterprise Telephony, basic Telephony Signaling, and VoIP Technology. There is also a hands-on component that will teach basic VoIP setup. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C217**  3.0 Units  
Cisco Call Manager Express  
Advisory: CCNA  
This is a second course in VoIP. Topics covered will include benefits of VoIP, OSI reference model, in depth analysis of VoIP issues, QoS, VoIP configuration issues, and VoIP applications and services. Lecture and hands-on components allow students to set up a working network. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C218**  3.0 Units  
Cisco VoIP Unity Express Voice Mail  
Advisory: CST C202, C203, C215, C217, or CCNA  
This course is the third in a series of VoIP courses designed to teach the basics of installing and configuring a Cisco VoIP Unity Express Voice Mail. It will include such topics as Cisco IP Express Automated Attendant, Cisco IP Express Integrated Voice Mail, and Cisco CME External Voice Mail. Hands-on instruction allows student to set-up and configure a basic VoIP voice mail system. Transfer Credit: CSU.

**COMPUTER SERVICES**

**TECHNOLOGY C220**  3.0 Units  
VMware vSphere: Install, Configure, Manage  
Virtualization allows consolidation of many traditional servers into a few physical servers with many virtual machines to realize significant cost savings. In this VMware-authorized, hands-on course, students learn to install, configure, and manage VMware vSphere, which consists of VMware ESX/ESXi and VMware vCenter Server. Upon completion of this course, students can take the examination to become a VMware Certified Professional. Transfer Credit: CSU.
**COMPUTER SERVICES**

**TECHNOLOGY C220A** 3.0 Units
VMware vSphere: Install, Configure, Manage 5.1
Advisory: CST C112

Virtualization allows consolidation of many traditional servers into a few physical servers with many virtual machines to realize significant cost savings. In this VMware-authorized, hands-on training course, students learn to install, configure, and manage VMware vSphere 5.1, which consists of VMware ESXi/ESXi6 and VMware vCenter Server. Upon completion of this course, students can take the examination to become a VMware Certified Professional. Topics covered map to a VCP-DCA Exam. Transfer Credit: CSU.

**TECHNOLOGY C220B** 3.0 Units
VMware vSphere: Install, Configure, Manage 5.5
Advisory: CST C112

Virtualization allows consolidation of many traditional servers into a few physical servers with many virtual machines to realize significant cost savings. In this VMware-authorized hands-on training course, students explore installation, configuration, and management of VMware vSphere 5.5, which consists of VMware ESXi and VMware vCenter Server. This course is based on versions of ESXi 5.5 and vCenter Server 5.5. Completion of this course satisfies the prerequisite for taking the VMware Certified Professional 5 exam. Topics covered map to a VCP-DCA Exam. Transfer Credit: CSU.

**TECHNOLOGY C220C** 3.0 Units
VMware vSphere: Install, Configure, Manage 6
Advisory: CST C112

Virtualization allows consolidation of many traditional servers into a few physical servers with many virtual machines to realize significant cost savings. In this VMware-authorize hands-on training course, students explore installation, configuration, and management of VMware vSphere 6, which consists of VMware ESXi and VMware vCenter Server. This course is based on versions of ESXi 6 and vCenter Server 6. Completion of this course satisfies the prerequisite for taking the VMware Certified Professional exam. Topics covered map to a VCP6-DCA Exam. Transfer Credit: CSU.

**TECHNOLOGY C221** 3.0 Units
vSphere Performance Manage and Tune
Advisory: CST C220

This class covers managing and tuning a vSphere environment. It prepares you to make design choices and improve and tune a vSphere environment. Topics include understanding and tuning CPU, memory, network, storage, virtual machine, and application performance. The class will have lecture and hands-on components. Transfer Credit: CSU.

**TECHNOLOGY C222** 3.0 Units
Installing/Configuring Windows Server 2012
Advisory: CST C128

This course covers the skills and knowledge to implement a core Windows Servers 2012 infrastructure into an existing enterprise environment. First of three courses in preparation for the MCSE certification. Topics include implementation/configuration of Server 2012 core services, including Active Directory and networking services. Topics covered map to Microsoft 70-410 Exam. Transfer Credit: CSU.

**TECHNOLOGY C223** 3.0 Units
Managing Windows Server 2012
Advisory: CST C128

This course covers the administration tasks needed to implement, manage, and maintain provisioning services and infrastructure in a Windows 2012 environment. Building on CST 222, this course maps to Windows Server 2012 MCSA and 70-411 exam. Transfer Credit: CSU.

**TECHNOLOGY C224** 3.0 Units
Conﬁguring Advanced Windows Server 2012 Services
Advisory: CST C128

This course covers advanced conﬁguration and service tasks for deploying, managing, and maintaining a Windows Server 2012 infrastructure and builds on materials covered in CST 223. Maps to Windows Server 2012 MCSA and 70-412 exam. Transfer Credit: CSU.

**TECHNOLOGY C230** 3.0 Units
Introduction to Security
Advisory: CST C128

This class is a survey of Network/Internet security. It will help prepare you for the CompTIA Security+ Exam. Topics will cover: Authentication, Malicious Code, Web Security, Intrusion Detection, Cryptography, and Biometrics. The class will have lecture and hands-on components. Transfer Credit: CSU.

**TECHNOLOGY C231** 3.0 Units
CompTIA Advanced Security Practitioner
Advisory: CST C230

Building on the skills learned in Security+, this course builds the technical knowledge and skills required to conceptualize, design, and engineer secure solutions across complex enterprise environments. The candidate will apply critical thinking and judgment across a broad spectrum of security disciplines to propose and implement solutions that map to enterprise drivers. This course maps to the CompTIA CASP exam. Transfer Credit: CSU.

**TECHNOLOGY C232** 3.0 Units
Ethical Hacking
Advisory: CST C230

This course is a survey of the ethical and legal issues pertaining to security testing. It will demonstrate how to use tools that can be used to gain information about a computer network, how to recognize that the tools are being used, and how to defend a network against those attacks. Transfer Credit: CSU.

**TECHNOLOGY C233** 2.0 Units
Cybersecurity Competition
Advisory: CST C230

This course prepares the student to participate in various cybersecurity competitions. It covers topics in the major areas of concentration for the competitions, and students will participate in practice competitions. Participating in a competition teaches students practical techniques for securing a network or personal data. Transfer Credit: CSU.

**TECHNOLOGY C234** 3.0 Units
Ethical Hacking for Web Applications
Advisory: CST C230 and C232

This course is a survey of the ethical and legal issues pertaining to Web Application Penetration Testing. It will demonstrate how to use tools that can be used to gain information about networks through web applications, how to recognize that the tools are being used, and how to defend a Web application against those attacks. Transfer Credit: CSU.

**TECHNOLOGY C237** 1.5 Units
Cisco ASA and Network Security
Advisory: CCNA

Network security is moving towards all-in-one security solutions. This course covers the Cisco Adaptive Security Appliance (ASA). Students will learn to configure the Cisco ASA to identify, mitigate, and respond to network attacks. Transfer Credit: CSU.

**TECHNOLOGY C238** 1.5 Units
Intrusion Detection Systems
Advisory: CST C230

This course uses a combination of lecture and hands-on training to demonstrate the use of network and host-based Intrusion Detection Systems to set up a ‘Defense in Depth.’ The class will also consider the use of Honeypots as a defensive tool. Transfer Credit: CSU.

TECHNOLOGY C241  3.0 Units
Palo Alto Networks Cybersecurity Essentials
Advisory: CST C128, C230
The course covers installing, configuring, and managing Palo Alto Networks next-generation firewalls as well as steps for maintaining security, preventing threats, networking, logging, and reporting features. This course starts at an introductory level and builds to an intermediate level. Aspects of basic next-generation firewall configuration covered include steps for security, networking, threat prevention, logging, and reporting features of Palo Alto Networks Operating System. Aspects of intermediate firewall configuration include managing GlobalProtect and Active/Active High Availability and optimizing visibility and control over applications, users, and content. Basic firewall troubleshooting is also covered. Security engineers, network engineers, and support staff are the targeted audience for this course. Transfer Credit: CSU.

TECHNOLOGY C245  3.0 Units
Exploring Computer Forensics
Advisory: CST C232 and C238
Introduction to Computer Forensics Investigations. The class will cover such topics as how to recognize that a computer crime has occurred and steps to follow when acquiring, authenticating, and analyzing data on a compromised system. Hands-on portion will explore the use of several Computer Forensics tools. Transfer Credit: CSU.

computer services

TECHNOLOGY C248  3.0 Units
Wireless Networking
Advisory: CST C128
This is an entry level course in wireless data communications. It covers the fundamentals of wireless communications and provides an overview of protocols, transmission methods, and IEEE standards. It also examines the broad range of wireless communications technologies available beginning with the basics of radio frequency and wireless data transmission and progressing to the protocols and mechanisms that every wireless network technician needs to understand. Transfer Credit: CSU.

computer services

TECHNOLOGY C250  3.0 Units
Windows Server 2012 Hyper-V
Advisory: CST C222
Windows Server 2012 Hyper-V offers greater scalability, new components, and more options than ever before for all businesses. Students will learn about this new cloud operating system. Topics include architecture, basic deployment and upgrading, creating virtual workloads, designing and implementing advanced network architectures, creating multi-tenant clouds, backup, disaster recovery, and more. This course offers technical detail as well as hands-on exercises and plenty of real-world scenarios so that students understand proper uses cases of Hyper-V features. Transfer Credit: CSU.

computer services

TECHNOLOGY C252  1.5 Units
Cisco Security Virtual Private Networks (VPNs)
Advisory: CCNA
Students will learn the theory and specifics behind IPSec and IKE in the most presentable manner possible. Lecture and hands-on experience in structured labs will supply students with the skills to design, implement, maintain, and troubleshoot a VPN. Transfer Credit: CSU.

computer services

TECHNOLOGY C253  3.0 Units
Cisco ASA, PIX, and Network Security
Advisory: CCNA
Network security is moving towards unified security solutions. This course covers the Cisco Adaptive Security Appliance (ASA) and Cisco Private Internet Exchange (PIX). Students will learn to configure the Cisco ASA and PIX to identify, mitigate, and respond to network attacks. Transfer Credit: CSU.

computer services

TECHNOLOGY C254  3.0 Units
Cisco IPS/CCSP
Advisory: CCNA
This course will help the student prepare for one of the Cisco CCSP IPS exams. This course covers IPS concepts, Command Line Interface and IPS Device Manager, IPS signature engines, event monitoring, sensor maintenance, and capturing network traffic. Emphasis on hands-on training. Transfer Credit: CSU.

computer services

TECHNOLOGY C255  3.0 Units
CyberSecurity Analyst+
Advisory: CST C230 and C232
This course is a survey of ‘threat-detection’ and ‘threat-analysis’ tools that allow protection of critical industry infrastructure. It will teach intermediate-level security skills and knowledge using a variety of security tools. It provides a hands-on focus on IT security analytics. Transfer Credit: CSU.

computer services

TECHNOLOGY C258  3.0 Units
Linux Networking and Security
Advisory: CST C191
Introductory course exploring the Linux operating system, including theory and hands-on application of topics covering command line utilities, graphical tools, networking protocols and services, user and group management, system permissions, and security. Transfer Credit: CSU.

computer services

TECHNOLOGY C260  3.0 Units
CISSP (Certified Information Systems Security Professional)
Advisory: CST C230
This course covers the ten domains of information security known as the CISSP Common Body of Knowledge (CBK). Completing this course does not guarantee CISSP certification; however, the course addresses the test objectives defined by (ISC)2 for the CISSP examination. Transfer Credit: CSU.

TECHNOLOGY C264  3.0 Units
Red Hat System Administration 1 version 7
Advisory: CST C117
Linux is the #1 operating system for web servers, cloud computing, smartphones, and consumer electronics. Linux system administration is one of the most in-demand skills in IT.
Red Hat System Administration 1 (RH124) provides a foundation for students wishing to become full-time Linux system administrators by introducing key command line concepts and other enterprise-level tools. These concepts are further developed in the follow-on course, Red Hat System Administration 2 (RH134). Transfer Credit: CSU.

TECHNOLOGY C271  3.0 Units
Become a Security Consultant
Advisory: CST C230
This course walks the student through the steps to become a cybersecurity consultant. Topics will include what a cybersecurity consultant does and ways to become one. Tools used, type of training needed, and the ethics of security consulting are explained. There will be a lecture and hands-on portions of the course with the hands-on portion demonstrating tools commonly used by a security consultant. Transfer Credit: CSU.

COUNSELING (COUN)
COUNSELING C104 3.0 Unit
(Formerly Counseling C100)
Career/Life Planning
An introduction to career/life planning, including an exploration of interests, skills, values, personality traits, past experiences and life stages. Students will develop a career/life plan using gathered self-information, decision-making strategies and an awareness of psychological, sociological and physiological factors related to career/life satisfaction. Transfer Credit: CSU; UC credit limitations (see counselor).

COUNSELING C105 3.0 Unit
Strategies for College Success
This course is designed to increase success in achieving educational, career, and life goals. It includes information on learning styles and strategies, time management, decision making, goal setting, college resources and services, memory techniques, note-taking, test-taking, and other success techniques. Students will develop educational and career plans. Transfer Credit: CSU; UC.

COUNSELING C115 0.5 Unit
Educational Planning
This course provides students with important information needed to develop a comprehensive Student Educational Plan (SEP) that is in alignment with individual educational and career goals. It includes an overview of Coastline College programs, graduation requirements, transfer requirements, college policies and regulations and student support services. Transfer Credit: CSU.
CRIMINAL JUSTICE (CJ)

Criminal Justice courses are offered through Coastline's Military Distance Learning Program. The courses are applicable to the Emergency Management/Homeland Security Degree Program. Students who reside in the local Orange County area and who are not eligible for enrollment in our global Military Distance Learning Program are encouraged to visit our sister college, Golden West College, for local course offerings.

CRIMINAL JUSTICE C110 3.0 Units
Criminal Investigation
This course examines fundamental principles and procedures employed to effectively investigate criminal cases. Students explore traditional methods used to manage crime scenes, preserve evidence and write reports. Students also recognize how to effectively develop sources of information, as well as obtain information from witnesses and suspects. Emphasis is placed on the investigation of specific crimes and the role of the investigator as a liaison in the criminal trial. Transfer Credit: CSU.

CRIMINAL JUSTICE C128 3.0 Units
Criminal Procedure
This course explores some of the basic protections the U.S. Constitution affords citizens against government intrusion when individuals are suspected of criminal conduct. It allows students to analyze legal and practical problems related to search and seizure, arrest, and interrogation law from the prospective of both law enforcement and the community member. Emphasis is placed on court decisions involving specific amendments to the Bill of Rights, as well as the Due Process Clause of the Fourteenth Amendment. Topics include important legal concepts, such as the exclusionary rule, stop and frisk, probable cause, and Miranda warnings. Transfer Credit: CSU.

CRIMINAL JUSTICE C135 3.0 Units
Introduction to Policing
This course gives students an overview of the police and their mission. It examines the evolution of policing as well as methods, issues, and challenges to present day policing. The course also looks at technology in the service of law enforcement and explores the future of policing. Emphasis is placed on the student’s developing a proper understanding of police accountability and ethical behavior. Transfer Credit: CSU.

CRIMINAL JUSTICE C140 3.0 Units
Introduction to Criminal Justice
An introductory course that examines the history, development and philosophy of the American criminal justice system. Provides an overview of law enforcement, courts and correctional systems in a democratic society. Topics include the major theories of crime causation, the nature and scope of police work, the role of courts and prison life in the United States. Covers recent trends in terrorism prevention and homeland security matters. Transfer Credit: CSU.

CRIMINAL JUSTICE C141 3.0 Units
Criminal Law
An introduction to the general doctrines of criminal liability. This course covers the historical and philosophical foundations of criminal law, as well as its purpose and structure. Students examine major conceptual legal principles and terminology. Topics include constitutional issues, legal causation, criminal defenses, parties to a crime, and inchoate offenses. Emphasis is placed on court decisions and their impact on law enforcement activities. Transfer Credit: CSU.

CRIMINAL JUSTICE C146 3.0 Units
Written Communication for Criminal Justice
This course presents techniques for accurately communicating information and ideas in a clear, concise manner within the context of the criminal justice community. It focuses on developing the student’s ability to organize information and prepare effective written correspondence in a law enforcement, court, or correctional environment. The course emphasizes instruction in the mechanics of writing, vocabulary development, and methods of effectively gathering information. Students practice note-taking, report writing, and investigative strategies to assist in the administration of justice. Transfer Credit: CSU.

CRIMINAL JUSTICE C148 3.0 Units
Multi-Cultural Studies in Criminal Justice
This course examines current issues and social problems relating to the administration of justice in a culturally diverse society. It focuses on the cross-cultural contact that criminal justice professionals have with citizens, victims, suspects, and coworkers from diverse backgrounds. The course emphasizes law enforcement’s role and responsibility in understanding cultural differences and respect toward those of different backgrounds. Topics include prejudice in law enforcement, hate crimes, jury bias, racial profiling, disparate treatment in prisons, and terrorism/homeland security considerations. Transfer Credit: CSU.

CUSTOMER SERVICE ACADEMY (CSA)

CUSTOMER SERVICE ACADEMY C010 0.5 Unit
Customer Service
This course is designed to provide the student with certain key skills in the area of attitude so that they may effectively maintain a positive attitude in the workplace and at home. The student will be introduced to attitude style recognition, attitude communication, and attitude adjustment. Topics will also include the primary causes of bad attitudes, turnaround strategies to battle these bad attitudes, and specific techniques to improve these bad attitudes.

CUSTOMER SERVICE ACADEMY C045 0.5 Unit
Managing Organizational Change
This course is designed to provide the student with an understanding of change and the influence it has on an organization and the individuals in that organization.

CUSTOMER SERVICE ACADEMY C015 0.5 Unit
Communicating with People
This course is designed to introduce the student to key elements in communication within business organizations. Topics will include verbal and nonverbal communication, listening skills, and supervisory communication.

CUSTOMER SERVICE ACADEMY C020 0.5 Unit
Team Building
This course is designed to provide the student with an understanding of how to solve common types of problems. Students will learn to recognize various team player styles and will be introduced to team building in the workplace.

CUSTOMER SERVICE ACADEMY C025 0.5 Unit
Stress Management
This course is designed to acquaint the student with various skills the supervisor needs to help employees. Topics include stress recognition and how to manage it, job burnout and what to do about it, and employee counseling in various situations.

CUSTOMER SERVICE ACADEMY C030 0.5 Unit
Time Management
This course is designed to introduce the student to time management principles and specific tools that assist in making maximum use of time. Basic concepts of managing space will also be covered.

CUSTOMER SERVICE ACADEMY C035 0.5 Unit
Conflict Resolution
This course is designed to provide the student with an analysis of attitudes and behavior that create conflict between individuals and groups within an organization.

CUSTOMER SERVICE ACADEMY C040 0.5 Unit
Attitude in the Workplace
This course is designed to provide the student with certain key skills in the area of attitude so that they may effectively maintain a positive attitude in the workplace and at home. The student will be introduced to attitude style recognition, attitude communication, and attitude adjustment. Topics will also include the primary causes of bad attitudes, turnaround strategies to battle these bad attitudes, and specific techniques to improve these bad attitudes.

**Foundation Essential: Values and Ethics**

This course is designed to acquaint the student with the importance of values and ethics in the workplace. The importance of values and ethics involved in the supervisor's carrying out his/her duties will be emphasized.

**Digital Graphics Applications (DGA)**

(See also Art)

**Digital Graphics Applications C110**  1.5 Units

**Animation I**

Advisory: DGA C116A

This course covers animation basics, such as storyboard and character development and creation of animations using basic techniques, including staging, timing, mechanics, and kinetics. Drawing skills, life drawing, storytelling, mechanics of motion and animation camera techniques are covered. Transfer Credit: CSU;

**Digital Graphics Applications C111**  3.0 Units

**3-D Simulation and Multimedia Using Maya and 3DS**

Advisory: DGA C116A

This course teaches foundational animation skills, such as 3D modeling, animation, rendering, compositing, visual effects, production, and performance skills. Hands-on training is emphasized using Autodesk Suite. Transfer Credit: CSU.

**Digital Graphics Applications C116A**  3.0 Units

**Adobe Photoshop 1**

The course will introduce basic tools and techniques to explore the graphic capabilities of Adobe Photoshop. Learn how selection and editing tools are used to manipulate graphics and photographs by duplicating, deleting, replacing, or changing image elements. Create original images and produce multi-layered graphics from existing photographs. Create eye catching display graphics, color correct, and retouch photos. No art background required. Transfer Credit: CSU.

**Digital Graphics Applications C116B**  3.0 Units

**Adobe Photoshop 2**

Advisory: DGA C116A

This project-based course will focus on the intermediate tools and techniques that expand the graphic capabilities of Adobe Photoshop. Learn how editing tools and actions are used to enhance images and retouch photographs by compositing, deleting, replacing, or changing image elements with filters, masks, channels, and paths. Create original images and produce multi-layered graphics for print and the web. No art background required. Transfer Credit: CSU.

**Digital Graphics Applications C117**  3.0 Units

**Typography Fundamentals**

Typography is the window into the world of visual communication. Explore the history and development of basic letterforms and the ubiquitous nature of type and typography, as it relates to mastering the skills necessary to design effective digital assets. Real world applications will be discussed relating to perceptions, intention, readability and usage of typography, while creating successful designs for a professional portfolio. Recommended for Digital Graphic Application majors and certificates. Transfer Credit: CSU.

**Digital Graphics Applications C118A**  3.0 Units

**Introduction to Adobe Illustrator**

This course is primarily designed for the student wishing to master the basics of Adobe Illustrator. Topics covered include the working environment using appropriate tools or filters for illustrations, applying strokes and color fills, creating and editing paths, using layers, transformation effects, and gradients, working with images, and creating basic object shapes. Course is hands-on environment with lecture. No artistic background is required. Transfer Credit: CSU.

**Digital Graphics Applications C118B**  3.0 Units

**Adobe Illustrator 2**

Advisory: DGA C118A

This course is primarily designed for students wishing to expand their basic knowledge and enhance their skills using Adobe Illustrator. Topics include Illustrator's effect and appearance features, expanded text techniques, special effects filters, stylized palettes, transformation tools, and preparation of illustrations for the web. Create impressive illustrations utilizing features, such as transparency, text, masking, and shadow-and-glow effects. No artistic background is required. Transfer Credit: CSU.

**Digital Graphics Applications C120**  3.0 Units

**Introduction to InDesign**

This project-based course will introduce the basic tools and techniques to explore the graphic and type capabilities of Adobe InDesign. Learn how to import and edit text; create and manipulate styles, tables, and graphics; and use effects and blend modes to create multi-page documents, such as letterhead, tri-fold brochures, flyers, and booklets for print and the web. No art background required. Transfer Credit: CSU.

**Digital Graphics Applications C121**  3.0 Units

**Introduction to Adobe Premiere**

This project-based course will introduce the basic tools and techniques to explore the capabilities of Adobe Premiere in storytelling using video. Learn how to import and edit video and audio; create; and apply transitions, effects, and animations to create movies that can be exported in various formats. No art background required. Transfer Credit: CSU.

**Digital Graphics Applications C122**  3.0 Units

**Introduction to After Effects**

This project-based course will introduce fundamental techniques used to integrate text, graphics, sound, video, and 2D/CG animation into video projects. Learn the skills used to create compelling digital effects and motion graphics to enhance storytelling and bring a new dimension to the finished video. Transfer Credit: CSU.

**Digital Graphics Applications C130**  3.0 Units

**Digital Media Portfolio**

Produce your digital media portfolio to display on the web, especially for mobile devices. Learn an overview of the design portfolio process using integrated Adobe products, such as Photoshop, Dreamweaver, Illustrator, and InDesign. Prepare marketing documents, business plans, and budgets, focused on becoming an entrepreneur. Transfer Credit: CSU.
DIGITAL GRAPHICS
APPLICATIONS C131 3.0 Units
Digital Photography Using Photoshop
Advisory: Student must have access to/own a digital camera.
Use a digital camera with Adobe Photshop to perform basic image editing techniques to enhance and correct images. Learn basic camera controls, camera support systems, basic lighting techniques, file formats, transfer of files, and saving options. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C140 3.0 Units
Beginning Audio Production
This course covers basic theory and practice in the areas of audio recording and production – emphasizing the recording process, sound and hearing, microphone design and application, digital audio technology, multimedia and sound, signal processing, studio design, and sound integration with current digital technologies. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C166A 3.0 Units
Dreamweaver Basics
To be competitive, website developers need to stay current in the newest web technology tools. Learn to use Dreamweaver to produce visually appealing websites with concise, editable code while allowing you to use the most advanced features of this web editor, especially responsive design. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C166C 3.0 Units
Adobe Animate
Design interactive animations with cutting-edge drawing tools and publish them to multiple platforms, including Flash/AIR, HTML5 Canvas, WebGL, or even custom platforms. Allow your creative talent to emerge and reach users on virtually any desktop or mobile device. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C168 1.5 Units
Introduction to Survey of Multimedia Entertainment
This course will present a survey of the multimedia industry. It will focus on entry-level jobs and responsibilities, career paths, and the necessary skills for success. An introduction of the production processes from concept to publication will be researched and discussed. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C170 3.0 Units
Character Design
Advisory: ART C121
In this course, students will learn the principles of drawn and digital character design as it pertains to the animation, comic book, feature film, and other multimedia entertainment industries. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C171 1.0 Unit
Computer Programming with Alice
Introduces both majors and non-majors to the concepts and topics of computer and simulation programming. You will develop algorithmic thinking and abstraction through the use of a 3-D animation programming environment. This course is designed for beginning programmers, and web developers who need to understand object oriented concepts. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C172 3.0 Units
Introduction to 2-D Animation
Create 2-D animation projects using techniques, such as character development, action tools, timelines, color, and stage positions. Apply weight and physics principles to objects with software tools. Animation samples from various production studios will be explored and discussed resulting in strategies to independently design and critique 2-D animations for your digital media portfolio. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C174 3.0 Units
Introduction to 3-D Animation
Advisory: DGA C172
Create 3-D animations using techniques, such as applying key framing, textures, camera angles, and editing. Animation samples from various production studios will be explored and discussed resulting in strategies to independently design and critique 2-D animations for your digital media portfolio. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C182 3.0 Units
Simulation Building
Advisory: DGA C174
Learn to apply basic design principles to the solution of visual problems using elements of 3-D design. You will conceptualize your intended design from concept into a 3-D environment. The use of primitive shape based design, 3-D coordinate systems, and construction of 3-D models will be explored. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C184 3.0 Units
Interface Design
(Same as Informatics C184)
Learn how the User Experience (UX) influences developers for interface design that merges simple with elegant to increase usability. UX includes all elements of the end-user’s interaction with a company, its services, and its products. Analyze user information to address security, aesthetics, marketing, and mobile issues. Emphasis is on distinguishing between the total user experience from only the user interface and creating development plan. Transfer Credit: CSU.

DIGITAL GRAPHICS
APPLICATIONS C185 3.0 Units
Interface Design User Experience Project
Advisory: DGA C184
Design and implement team based projects that are focused on the User Experience. Company culture, services, products, and staff will be discussed as an integral element of designing simple, yet elegant pathways to a positive and successful experience for the end user. Transfer Credit: CSU.

Digital Graphics
Applications C195 3.0 Units
Intro to BioTech Digital Media Design
Advisory: DGA C116A and C118A
This course emphasizes the foundational digital arts skills required to design and create professional media products for the BioTech field. Students will develop conceptual pathways related to interdisciplinary STEAM fields (Science, Technology, Engineering, Art & Math); experiment with mixed digital arts and media, including 3D modeling; and discuss the importance of research, models, and props in the design and execution of the final product. Career options, self-promotion, and practical application of digital media skills will also be discussed. Transfer Credit: CSU.

ECOLOGY (ECOL)
ECOLOGY C100 3.0 Units
Human Ecology
Provides students with an understanding of the biological implication of man's interplay with the planet. The course is focused on the biological prospects of the future as viewed by examining the biosphere and biogeochemical cycles. Future predictions and current topics will be analyzed in relationship to planet management. Transfer Credit: CSU; UC.

ECONOMICS (ECON)
ECONOMICS C110 3.0 Units
(Formerly Economics C100)
Contemporary Economic Issues and Problems
Provides an introduction to the basic tools and concepts of economic analysis with an emphasis of applying economic theory to current problems and issues. Topics include scarcity and decision making, supply and demand, and the effects of fiscal and monetary policy as applied to selected problems, such as crime and drug control, pollution, taxation, Social Security, healthcare, poverty and income equality, and international trade. Transfer Credit: CSU; UC credit limitations (see counselor).
ECONOMICS C170 3.0 Units  
(Formerly Economics C185)  
Principles of Microeconomics  
Prerequisite: MATH C030 with a grade of "C" or better  
This course offers an introduction to the concepts and tools of economic analysis. The course studies price theory, including supply and demand, marginal analysis, utility, cost and revenue concepts, perfect and imperfect competition, production and factor markets. Economic principles are applied to the analysis of such problems as industrial organization, the environment, public choice and the distribution of income. Transfer Credit: CSU; UC. C-ID: ECON 201.

ECONOMICS C175 3.0 Units  
(Formerly Economics C180)  
Principles of Macroeconomics  
Prerequisite: MATH C030 with a grade of "C" or better  
This course examines and analyzes the economic problems of recession, unemployment and inflation. The focus of this investigation centers on business cycles, the measurement of output and income in the economy, the determination of the equilibrium level of national income, money creation and the banking system, monetary and fiscal policy options, international trade and finance and the effects of the public debt. The particular interactions of the domestic and international economies are studied throughout the course. Transfer Credit: CSU; UC. C-ID: ECON 202.

EDUCATION (EDUC)  
EDUCATION C101 0.5 Unit  
Tutor Training  
Learn strategies for effective tutoring. Discover how to motivate, foster independence, stimulate active learning, and build confidence in the learner. Identify factors that affect student learning, such as language and cultural differences; learn how to handle difficult tutoring situations, and to identify different learning styles. Transfer Credit: CSU.

EDUCATION C103 2.0 Units  
Introduction to Computers in Education: Technology Proficiencies for Teachers 1  
Advisory: EDUC C104 may be taken at the same time.  
Based on the Technology Standard for a California K-12 Preliminary Teaching Credential, this class focuses on the computer proficiencies that credential candidates are required to master before they can be issued a preliminary Multiple or Single Subject Credential. The curriculum and course represent a working partnership between the California Technology Assistance Project (CTAP), Region IX and Coast Community College District’s TEACh3 Program. Students will complete a portfolio in all the state mandated proficiencies and will receive certification as a Preliminary (Level I) Technology Proficient Educator. Transfer Credit: CSU.

EDUCATION C104 1.0 Unit  
Introduction to Teaching and Learning in Diverse Contemporary Classrooms  
Advisory: Eligibility for ENGL C100.  
The course will address the qualities of an effective teacher, components and purposes of an effective professional portfolio, and critical issues in diverse contemporary classrooms. Students will initiate the development of a reflective practitioner workbook, begin their electronic professional portfolio, and learn about their own learning needs and styles. Learning outcomes are aligned to the California Standards for the Teaching Profession and associated teacher performance expectations. Ten hours of arranged fieldwork /observation included. Transfer Credit: CSU; UC.

EDUCATION C107 1.0 Unit  
Introduction to Distance Learning  
Advisory: BC C050 or basic computer skills.  
Using the tools and systems of distance learning, students will develop skills that will enable them to successfully complete distance learning programs on their own in the future. This course is a 1.0 unit class that addresses the technical competencies and computer skills needed for distance learning success. Transfer Credit: CSU.

EDUCATION C108 1.0 Unit  
How to Succeed in Distance Learning  
Advisory: EDUC C107 or equivalent experience with computer technology in a distance learning environment.  
This course provides an orientation to the characteristics and processes of distance learning. Students will learn the meaning of key terms used in distance education. They will experience the differences between traditional classroom and distance learning courses. They will learn how to anticipate, avoid, and/or solve typical problems encountered in distance learning environments. In addition, students will learn practical strategies and skills that will help them succeed in online, television, CD-ROM, and hybrid classes. Transfer Credit: CSU.

EDUCATION C121 2.0 Units  
Expert Learning 1  
This course focuses on students’ acquisition of expert learner skills in the areas of text comprehension and summarization, note-taking, test-taking, memory tools, graphic organizers, and time management. Transfer Credit: CSU.

EDUCATION C122 2.0 Units  
Expert Learning 2  
Prerequisite: EDUC C121 with a grade of "C" or better  
This course focuses on students’ acquisition of expert learner skills in the areas of textbook reading and comprehension, note-taking, listening skills, and visual notes and study tools. Transfer Credit: CSU.

EDUCATION C180 3.0 Units  
Family/School/Community Partnerships  
A course for prospective teachers about current family, school, and community partnership models and approaches that foster two-way partnerships with families and communities of diverse backgrounds. This course covers historical, legal, social, and political perspectives regarding educational access and equity for diverse student populations found in contemporary classrooms; students learn about building relationships with ethnically and linguistically diverse families and communities along with a focus on socialization, identity development, and the developing child in a societal context. Includes ten hours of arranged fieldwork/focused observations aligned with students’ area of interest (preschool, elementary, middle school, high school). Transfer Credit: CSU.

EDUCATION C200 3.5 Units  
The Teaching Profession  
Advisory: Eligibility for ENGL C100.  
Designed for students considering teaching as a career or for those interested in a class that focuses on issues facing teachers and students in today’s schools. The course examines opportunities, requirements, responsibilities, and rewards in teaching as well as skills needed and problems often encountered in the classroom. Additional focus on educational philosophies and sociology of education. In addition to class time, the course includes field work training and requires a minimum of 45 hours of structured fieldwork in public elementary school classrooms that represent California’s diverse student population, and includes cooperation with at least one campus-approved certificated classroom teacher. Meets the California Commission on Teacher Credentialing requirement that students who are considering a teaching career have early and frequent opportunities to engage in field experiences that are linked with college/university coursework. Transfer Credit: CSU; UC.

EDUCATION C210 3.0 Units  
Introduction to Special Education  
This course provides an overview of the broad range of exceptionalities and the varying levels of characteristics, prevalence, causes & prevention, assessment, early intervention, and teaching concerning individuals with disabilities. Topics will include the impact on academic, social, and emotional performances along with ways teachers can support these individuals and their families to promote a successful learning experience. 10 hours of fieldwork in a special education setting is required. Transfer Credit: CSU.

## ELECTRONICS (ELEC)

The Electronics courses below are offered online through the Military/Contract Education Program only. Students who reside in the local Orange County area and who are not eligible for enrollment in our global military/contract education program are encouraged to visit our sister college, Orange Coast College, for local course offerings.

### ELECTRONICS C101
**Introduction to Electronics with Computer Applications**
Advisory: MATH C100

This class is an introduction to the field of Electronics. It is designed to familiarize the student with the fundamental equations, calculations, and numeric representations used by Engineers and Technicians. Topics covered will include understanding the range of magnitude of numbers (data) and their SI representation in Scientific and Engineering notation. Base conversion of numbers (hex to decimal). Analog to digital (A/D) and digital to Analog (D/A) conversion. Charting and Graphing of data and how to interpret data on different graphs (semi-log, log-log). Transfer Credit: CSU.

### ELECTRONICS C102
**DC Circuit Analysis**
Advisory: MATH C100

Students learn to conduct an experiment using modern tools, collect data, analyze data, and write a report to professional standards. Students learn to analyze DC networks with applied scientific principles. Students develop an understanding of the function of resistors, capacitors, and inductors in a functioning circuit. Students are required to perform computer analysis using modern software tools to validate calculations and experimental results. Transfer Credit: CSU.

### ELECTRONICS C103
**AC Circuit Analysis**
Advisory: ELEC C101 and MATH C100

Students learn to conduct an experiment using modern tools, collect data, analyze data, and write a report to professional standards. Students learn to analyze AC networks with applied scientific principles. Students develop an understanding of the function of resistors, capacitors, and inductors in a functioning circuit. Students are required to perform computer analysis using modern software tools to validate calculations and experimental results. Transfer Credit: CSU.

### ELECTRONICS C104
**Digital Computer Electronics**
Advisory: ELEC C101 and C102

This class is a continuation of the digital logic portion of ELEC C101 and C102 (binary numbers, Logic gates AND / OR). It starts with an introduction to one-bit memory cells (Flip-Flops), comparators, ADDITION and 2’s complement using discreet logic gates (XOR), decision making circuitry, sequential circuits, program counter, instruction sequencing. This class gives the student a "behind the scene look" at what makes every digital computer work. Transfer Credit: CSU.

### ELECTRONICS C204
**Semiconductor Devices and Circuits**
Advisory: ELEC C101, C102, and C103

The student will learn the characteristics of semiconductor devices, including diodes, BJTs, and FETs. Biasing and DC and AC load-lines are presented in each of the three configurations -- CB/CG, CE/CS, and CC/CD, followed by analysis and design of amplifier circuits at mid-band with emphasis on input/output impedance and gain. Students learn to design and analyze diode and transistor circuits, simulate test results with a circuit simulation package. Transfer Credit: CSU.

### ELECTRONICS C210
**Analog Electric Circuit Analysis**
Advisory: ELEC C102 and C103 and MATH C010

Students will learn to write transfer functions of low, high, and band pass RC filters; phase lead and lag RC networks; and use complex conjugates to separate functions into gain, magnitude and phase components and sketch bode plots on semi-log axes. Write transfer functions of series and parallel RLC resonant circuits and plot their response. Determine h-parameters from device curves and convert them into small signal models to compute input/output impedance and gain. Work with four idealized forms of amplifiers -- VV, VI, IV, and II. Students learn to analyze passive RC, RC, and RLC circuits, simulate test results with EWB or PSpice, set-up test apparatus, and gather data and to prepare technical reports to professional standards. Transfer Credit: CSU.

### ELECTRONICS C230
**Advanced Digital Electronics**
Advisory: ELEC C101, C102, and C104

The student will use discrete integrated circuits, glue logic, TTL or CMOS to simulate then prototype or breadboard functional components from the ELEC C104 class, such as Multiplexers, Adders, Shift registers, stacks. These components will be ported to Alerta PLDs and their operation verified. For the final project the student will construct a project from discrete components and PLDs then compare the operation / cost / complexity tradeoff in a final paper. Typical final projects in the past included Tic-Tac-Toe, a traffic signal, Pong, read/write a sequence of 1s and 0s to RAM. These projects will be converted again in ELEC C240 to run on a M68HC11 controller. Transfer Credit: CSU.

### ELECTRONICS C240
**Microcomputer Systems & Assembly Programming**
Advisory: ELEC C101, C102, and C104

The student will learn to design, write, and debug programs in assembly and a subset of American National Standards Institute (ANSI) “C.” The student will learn to download programs to the microcomputer after they have been converted on a host computer with an assembler or C compiler. The first few programs will duplicate some of the hardware processes developed in the Advanced Digital Logic class then progress to more complex time-dependent processes, such as Temperature measurement, motor speed control, metering the flow of liquids. This class is the logical continuation of ELEC C104 and will rely on information learned in other electronics classes, such as ELEC C204 and C210. Transfer Credit: CSU.

### ELECTRONICS C272
**Electronic Manufacturing**
Advisory: ELEC C102, C103, C104, C215 and MATH C100

This course is designed to fulfill the needs of technicians seeking competency in all aspects of electronic design and fabrication techniques. It serves as a practical and realistic guide for developing skills in planning, designing and constructing electronic equipment. Students learn the process of design, from concept to completion of a piece of working hardware. Students learn the importance of safety in regards to AC wiring and protection. Students learn about modern manufacturing techniques with Printed circuit boards and automation. Students learn how to use modern CAD software to design a project, and use an outside vendor to produce a product using CAM files. Students learn to work in a group setting to design and manufacture a device. Transfer Credit: CSU.

### ELECTRONICS C280
**Basic Electrical Machines**
Advisory: ELEC C101, C102, C104, and C210

This class will provide students with a broad understanding of modern electric power, where it comes from, how it is transmitted and how it is turned into useful work. The scope of the class reflects the rapid changes that have occurred in power technology over the past few years—allowing the entrance of power electronics into every facet of industrial drives, and expanding the field to open more career opportunities. Transfer Credit: CSU.
Course Descriptions

ELECTRONICS C281 1.0 Unit
Work Based Learning
Prerequisite: Be employed or volunteer in the field of Electronics for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning experience participant's opportunity for success in the field of Electronics by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Electronics. Transfer Credit: CSU.

ELECTRONICS C282 2.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in the field of Electronics for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
This course enhances each Work Based Learning experience participant's opportunity for success in the field of Electronics by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Electronics. Transfer Credit: CSU.

ELECTRONICS C283 3.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in the field of Electronics for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
This course enhances each Work Based Learning experience participant's opportunity for success in the field of Electronics by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Electronics. Transfer Credit: CSU.

ELECTRONICS C284 4.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in the field of Electronics for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
This course enhances each Work Based Learning experience participant's opportunity for success in the field of Electronics by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Electronics. Transfer Credit: CSU.

EMERGENCY MANAGEMENT/ HOMELAND SECURITY (EMGT)

EMERGENCY MANAGEMENT C101 3.0 Units
Introduction to Emergency Management
This course introduces the student to the fundamental aspects of emergency management. It examines the roles and responsibilities of government and non-profit agencies when responding to disasters and emergencies with emphasis on man-made, natural, and technological events most likely to affect the United States. The course emphasizes the four concepts of emergency management: preparedness, mitigation, response, and recovery. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C102 3.0 Units
Introduction to Homeland Security
This introductory course explores the history, development, and organization of homeland security in the United States. It examines the roles and functions of the various components of the Department of Homeland Security and its relationship to state and local agencies. Topics include the threat of terrorism and countermeasures, the importance of the intelligence community, and how government systems can effectively prepare for and respond to security threats on American soil. Emphasis is placed on homeland security practices of the emergency manager. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C105 3.0 Units
(Formerly EMGT C100)
Emergency Preparedness
This course is designed for individuals from both the private and public sector who may be responsible for developing and implementing their organization's emergency planning guide. This course will identify steps of preparedness and the importance of community involvement, education, and disaster preparedness. Preparedness levels will include natural disaster, terrorism, incidents, and events. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C110 3.0 Units
Emergency Response
This course is designed for individuals from both the private and public sector who may be responsible for developing and implementing their organization's emergency response due to incidents and/or man-made occurrences. This course will introduce the Incident Command System, identify necessary capabilities for effective response, and demonstrate coordination between various levels of government and the private sector. The course will also demonstrate how to effectively transition between the normal and emergency operations. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C120 3.0 Units
Disaster Recovery
This course is designed for individuals from both the private and public sector who may be responsible for developing and implementing their organization's emergency recovery team during contingencies. The course will define and discuss short-term restoration and long-term recovery, discuss common restoration and recovery measures and activities and challenges related to this phase of emergency management, and identify recovery planning considerations and key elements of the recovery process. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C130 3.0 Units
Hazard Mitigation
This course is designed for individuals from both the private and public sector, who may be responsible for developing and implementing their organization's hazard mitigation strategies, based upon a defined hazard analysis process. This course will review advanced concepts of mitigation, in both the pre and post disaster or man-made occurrence, with an emphasis on strategy development. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C140 3.0 Units
Crisis Response for Responders (CRR)
An introduction to crisis response for first responders of an emergency or significant incident or event. This course will assist those who are assisting people in the immediate aftermath of a disaster or other type of tragedy. Students will learn how to reduce initial stress, gather information, debrief, and produce an environment of connectedness to empower communities to heal in the recovery process. It is an organized approach to supporting emergency first responders who are involved in emergency operations under stress. The purpose of debrief is to mitigate long-term emotional trauma following the incident. Transfer Credit: CSU.

EMERGENCY MANAGEMENT C150 3.0 Units
Crisis Management of Special Populations
This course discusses the challenges emergency responders face with individuals with special needs during a disaster or emergency. The course includes an overview of important issues and recommendations for solutions when establishing preparedness plans for individuals with special needs. Transfer Credit: CSU.
This course provides an introduction to the role of a Public Information Officer (PIO). It is designed for those who are new to the field or have had limited exposure carrying out the role as a PIO as well as those students who have been assigned the position of PIO as an ancillary duty. The course emphasizes the basic skills and knowledge needed for emergency management PIO activities. Course topics will include the role of the PIO as well as composing press releases, public speaking, doing television interviews, and conducting awareness campaigns. Transfer Credit: CSU.

**EMERGENCY MANAGEMENT C174 3.0 Units**

**Transportation and Border Security**

Advisory: EMGT C102

This course provides an overview of modern border and transportation security challenges, as well as different methods employed to address these challenges. The course covers a time period from post 9-11 to the present. The course explores topics associated with border security and security for transportation infrastructure, to include: seaports, ships, aircraft, airports, trains, train stations, trucks, highways, bridges, rail lines, pipelines, and buses. The course will include an exploration of technological solutions employed to enhance security of borders and transportation systems. Students will be required to discuss the legal, economic, political, and cultural concerns and impacts associated with transportation and border security. The course provides students with a knowledge level understanding of the variety of challenges inherent in transportation and border security. Transfer Credit: CSU.

**ENGLISH (ENGL)**

**ENGLISH C020 1.5 Units**

**Basic Grammar**

This basic grammar course covers sentence structure, parts of speech, punctuation, and syntax. Emphasis is placed on grammatical structure and correct usage. (NOT DEGREE APPLICABLE.)

**ENGLISH C021 1.5 Units**

**College Spelling 1**

A beginning, self-paced, programmed course designed to help students master the basic rules of spelling. Among other topics, it addresses phonics, silent letters, plurals, suffixes, commonly misspelled words, and apostrophes. (NOT DEGREE APPLICABLE.)

**ENGLISH C024 1.5 Units**

**College Vocabulary 1**

A beginning course designed to help students develop a college-level vocabulary. Students learn word usage and ways to build words using context clues, word derivatives, and prefixes and suffixes. (NOT DEGREE APPLICABLE.)

**ENGLISH C025 1.5 Units**

**College Vocabulary 2**

Advisory: ENGL C024

This is the second of a series of courses designed to help students develop a college-level vocabulary. Students learn word usage and ways to build words using context clues, word derivatives, and prefixes and suffixes. (Not Applicable to A.A. Degree.)

**ENGLISH C092 2.0 Unit**

**Basic Reading 2**

Advisory: Eligibility for ENGL C098

This course provides a reading program designed to improve basic reading skills in comprehension, main idea, facts and details, conclusions, judgments, inferences, vocabulary, and critical thinking. Scanning and skimming techniques are introduced. (NOT DEGREE APPLICABLE.)

**ENGLISH C094 2.0 Unit**

**Basic Reading 3**

Advisory: Eligibility for ENGL C098

This course provides a reading program designed to improve basic reading skills in comprehension, main idea, facts and details, conclusions, judgments, inferences, vocabulary, and critical thinking. Scanning and skimming techniques are introduced, and extensive and intensive reading strategies are presented. (NOT DEGREE APPLICABLE.)

**ENGLISH C095 2.0 Unit**

**Basic Reading 4**

Advisory: Eligibility for ENGL C098

This course provides a reading program designed to improve basic reading skills in comprehension, main idea, facts and details, conclusions, judgments, inferences, vocabulary, and critical thinking. Scanning and skimming techniques are introduced, and extensive and intensive reading strategies are presented. Students will learn to identify, interpret, and use figurative language. (NOT DEGREE APPLICABLE.)

**ENGLISH C096 2.0 Unit**

**Basic Reading 5**

Advisory: Eligibility for ENGL C098

This course provides a reading program designed to improve basic reading skills in comprehension, main idea, facts and details, conclusions, judgments, inferences, vocabulary, and critical thinking. Scanning and skimming techniques are introduced, and extensive and intensive reading strategies are presented. Students will learn to identify, interpret, and use figurative language. Included are problem-solving methods, including verbal reasoning, comparative reasoning, ideological reasoning, empirical reasoning, and analyzing and evaluating evidence. (NOT DEGREE APPLICABLE.)

**ENGLISH C098 3.0 Units**

**Developmental Writing**

Advisory: take English Placement Test to determine optimal English level. ESL students are advised to complete ESL C039 or higher.

Students write paragraphs in various modes and learn rules of grammar, punctuation, and mechanics. (NOT DEGREE APPLICABLE.)

### ENGLISH C150 3.0 Units

**American Literature through the Civil War**  
**Prerequisite:** ENGL C100 with a grade of “C” or better

This course exposes students to the legends, poetry, short stories, and essays of early American writers beginning with Native Americans, through Colonialism, to the Civil War. Students will examine the philosophical, cultural, religious, and historic elements related to these texts. Attention will be paid to literary devices and styles evident in individual works and the commentary made by these works on moral and social issues. Writers include Mary Rowlandson, Benjamin Franklin, Phillips Wheatley, William Apess, Frederick Douglass, Harriet Beecher Stowe, Edgar Allen Poe, Louisa May Alcott, Washington Irving, Henry David Thoreau, Nathaniel Hawthorne, Herman Melville, and many others will be included. Transfer Credit: CSU; UC. C-ID: ENGL 130.

### ENGLISH C155 3.0 Units

**American Literature 1865 to Present**  
**Prerequisite:** ENGL C100 with a grade of “C” or better

This course is designed to expose students to the poetry, short stories, essays, and novels of American writers after the Civil War to the present. Students will examine the philosophical, cultural, religious, and historic elements related to these texts. Attention will be paid to literary devices and styles evident in individual works and the commentary made by these works on moral and social issues. The course includes major writers, such as Walt Whitman, Emily Dickinson, Mark Twain, F. Scott Fitzgerald, Langston Hughes, Robert Frost, Ernest Hemingway, William Faulkner, T.S. Elliot, Toni Morrison, Alice Walker, and many others. Transfer Credit: CSU; UC. C-ID: ENGL 135.

### ENGLISH C181 3.0 Units

(Formerly English C180)  
**Shakespeare**  
**Prerequisite:** ENGL C100 with a grade of “C” or better

Participants will engage in analysis and interpretation of the works of William Shakespeare, evaluating his poems, comedies, histories, tragedies, and romances. This instruction may be complemented by attendance of performances and/or viewing recommended videos/DVDs. Transfer Credit: CSU; UC.

### ENGLISH C270 3.0 Units

(Formerly English C290)  
**British Literature to 1800**  
**Prerequisite:** ENGL C100 with a grade of “C” or better

Analysis and interpretation of British Literature from the Middle Ages through the Restoration period in the eighteenth century. The course includes the literary characteristics of the major forms during this time period. Writers from this period may include Chaucer, Mallory, Elizabeth I, William Shakespeare, John Donne, Andrew Marvell, John Milton, Jonathan Swift, Samuel Johnson, and others. Transfer Credit: CSU; UC. C-ID: ENGL 160.

### ENGLISH C275 3.0 Units

(Formerly English C295)  
**British Literature Since 1800**  
**Prerequisite:** ENGL C100 with a grade of “C” or better

Analysis and interpretation of British Literature from the Romantic Period through the twentieth century. The course includes the literary characteristics of the major forms during this time period. Writers from this period may include William Blake, Robert Burns, Mary Wollstonecraft, William Wordsworth, Samuel Taylor Coleridge, John Keats, Robert Browning, Christina Rossetti, MatthewArnold, O Oscar Wilde, Joseph Conrad, Salmon Rushdie, and others. Transfer Credit: CSU; UC. C-ID: ENGL 165.

### ENGLISH C296 3.0 Units

**Gothic Victorian Literature**  
**Advisory:** ENGL C100

This course is a survey of Gothic literature written during England’s 19th century. The course will begin with the origins of the genre and its major conventions and go on to trace the changes in the genre as measured by its historical and social contexts. Important Gothic texts, including the pre-Victorian work Frankenstein and canonical Victorian texts Dracula and Jane Eyre will be studied in order to identify the components of 19th century British Gothic literature. Transfer Credit: CSU; UC.

### ENGLISH C297 3.0 Units

**Contemporary Gothic Literature**  
**Advisory:** ENGL C100

This course is a survey of Gothic literature, concentrating on critically-acclaimed novels written during the 20th century in the United States, which demonstrate the use of Gothic conventions in contemporary narrative. The course will begin with the initial development of the genre, and focus on 20th century American Gothicism and its major conventions. The course will study Nobel Prize winner Toni Morrison’s “Beloved”, Joyce Carol Oates’s National Book award-winning “Them” and Jeffrey Eugenides “The Virgin Suicides”. The course will also study the 19th century short story “Carmilla” by Le Fanu that illustrates vampire themes, and compare the story’s literary conventions to contemporary Gothic themes. Transfer Credit: CSU; UC.

### ENGLISH AS A SECOND LANGUAGE C001 3.0 Units

**Grammar 1A**

This is a low, beginning course designed to provide practice in reading simple, short paragraphs and writing simple sentences in English. Focus on vocabulary building and reading comprehension. (NOT DEGREE APPLICABLE.)

### ENGLISH AS A SECOND LANGUAGE C002 3.0 Units

**Grammar 1A**  
**Advisory:** Placement by ESL assessment process.

This is a low, beginning course designed to provide practice in reading simple, short paragraphs and writing simple sentences in English. Focus on vocabulary building and reading comprehension. (NOT DEGREE APPLICABLE.)

### ENGLISH AS A SECOND LANGUAGE C003 3.0 Units

**Reading / Writing Preparation**  
**Advisory:** Placement by ESL assessment process.

FRENCH (FREN)

FRENCH C180 5.0 Units
Elementary French 1
Introduction to French language, culture and thought with emphasis upon listening, comprehension, speaking, reading and basic writing skills. Students will become acquainted with fundamental sounds, forms and structures of French and will be aware of the cultural and linguistic backgrounds of Francophone countries. Transfer Credit: CSU; UC credit limitations (see counselor).

FRENCH C185 5.0 Units
Elementary French 2
Prerequisite: FREN C180 or C180B with a grade of "C" or better, or completion of two years of high school French with a grade of "C" or better.
Continuation of FREN C180 or C180B, designed to enhance the student's abilities to comprehend and converse, to read and to write in standard French at the second-semester college level. Diverse cultural and philosophical features of the francophone world will be discussed, and reading and writing skills broadened and deepened. The notions of language, dialect, and socio-cultural variation will be discussed. FREN C185 comprises the single-semester equivalent of FREN C185A and FREN C185B combined. Transfer Credit: CSU; UC credit limitations (see counselor).

FRENCH C280 4.0 Units
Intermediate French 1
Prerequisite: FREN C185 or C185B
Continuation of FREN C185, designed to develop further the student’s ability to read, write, comprehend, and converse in daily spoken and written French at an intermediate level. The course emphasizes the improvement of reading and writing proficiency as the basis for improved speaking and listening skills. Cultural notes, authentic reading materials, literary selections, and grammar practice are offered to broaden the vocabulary and to improve communicative competence. Socio-cultural, psycholinguistic, and philosophical trappings of the French language and francophone cultures are discussed. FREN C280A + C280B = FREN C280 sequence. Transfer Credit: CSU; UC.

FRENCH C285 4.0 Units
Intermediate French 2
Prerequisite: FREN C280 or C280B
Continuation of FREN C280, designed to develop further the student’s ability to read, write, comprehend, and converse in daily spoken and written French as it is produced in France and in other francophone countries. The course emphasizes improvement of intermediate-level reading and writing proficiencies as the bases for improving speaking and listening skills and as the sources for enhancement of inter-cultural understanding. Transfer Credit: CSU; UC.

GEOGRAPHY (GEOG)

GEOGRAPHY C100 3.0 Units
World Regional Geography
This course covers the physical and cultural features of various regions of the world. It examines the relationship between the physical environment and the cultural, political, and economic development of human societies, the reciprocal impact of human societies upon the environment, and current and potential world problems relating to geographic issues. Transfer Credit: CSU; UC. C-ID: GEOG 125.

GEOGRAPHY C150 3.0 Units
California Geography
A study of California’s diverse natural, cultural, economic, and human systems. Specific emphasis on geological processes, climate, biogeography, hydrology, migration, and landscapes. Current environmental, social, and economic concerns relating to California geographic concepts are explored. Transfer Credit: CSU; UC.

GEOGRAPHY C180 3.0 Units
Physical Geography
This course examines the physical elements of geography with particular attention to the earth as a planet. Students will study the interactions between the atmosphere, biosphere, hydrosphere, and lithosphere, how these interactions create particular environments, and the impact of human actions upon earth’s environments. Transfer Credit: CSU; UC.

GEOGRAPHY C185 3.0 Units
Cultural Geography
This course surveys the broad landscape of global cultures in terms of their spatial distributions and interactions. It focuses on how culture shapes physical spaces, how humans perceive these spaces, and how culture and place define people's lives and identity. Transfer Credit: CSU; UC.

GEOLOGY (GEOL)

GEOL 100 3.0 Units
(Formerly Geology C100)
General Geology
A study of the composition and structure of the earth and the internal and external processes that modify the crust and the surface. Rock and mineral formation, geologic hazards, resource discovery, and uses will be covered. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: GEOL 100.

GEOL 105L 1.0 Unit
(Formerly Geology C141)
Geology Lab
Prerequisite: GEOL C105 with a grade of "C" or better or concurrent enrollment.
Laboratory study of basic physical geology. Emphasizes skills needed for identification of minerals and rocks, interpretation of land surface features based on topographic maps and the understanding of folding, faulting and rock relationships through interpretation of geologic maps. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: GEOL 100L.

GEOL 106 4.0 Units
Earth Sciences for Teachers
A broad-based lecture/laboratory study of introductory Earth Science, including geology, oceanography, meteorology, planetary science, and astronomy. Topics are aligned with the California State Science Standards for K-12 and will prepare future teachers to teach these subjects within the California Science Framework. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: GEOL 121.
GEOLOGY C115 3.0 Units
(Formerly Geology C130)
California Geology
A study of California’s topography, natural resources, and economic patterns with emphasis on current problems related to geographic factors. During the course, students will develop an overall understanding of geology and then examine specific California regions, learning how and why California has so many geologic wonders. Transfer Credit: CSU; UC.

GEOLOGY C121 3.0 Units
Environmental Geology
The study of human interactions with the earth’s geologic systems, environment, hazards and resources. It will focus on studies of environmental problems associated with soils, water resources and pollution, energy and mineral utilization, coastal erosion, natural geologic hazards, and global atmospheric changes. Principles of sound management of the geologic environment will be emphasized. Transfer Credit: CSU.

GEOLOGY C185 3.0 Units
Historical Geology
Advisory: GEOL C105
An introduction to Earth’s history and the life it supports. Subjects include geologic dating, plate tectonics, stratigraphy, fossils, biological evolution, the planet’s origin and the processes that have influenced paleogeography during the past 4.6 billion years. Transfer Credit: CSU; UC. C-ID: GEOL 110.

GEOLOGY C185L 1.0 Unit
Historical Geology Lab
Advisory: GEOL C105
Prerequisite: GEOL C185. Students should have taken or be currently enrolled in GEOL C185 in order to enroll in the lab section.

The laboratory component to an introduction to Earth’s history and the life it supports. Subjects include geologic dating, plate tectonics, stratigraphy, fossils, biological evolution, the planet’s origin and the processes that have influenced paleogeography during the past 4.6 billion years. Transfer Credit: CSU; UC. C-ID: GEOL 110L.

Skills and strategies for promoting the total well-being of the person, including behavior change strategies, physical fitness, nutritional awareness, emotional and sexual adjustment, disease prevention, and models of behavior change, personal fitness, nutrition, stress, substance use and abuse, environmental and consumer health. Transfer Credit: CSU.

HEALTH C121 3.0 Units
Introduction to Health Care Management
This course introduces students to the subject of Health Care Management and prepares them to enter this field. It covers all aspects of management, such as communication, coordination, leadership, planning, and decision making. In addition, it also covers organization design, staffing, and budgeting within the context of health care management and administration. Transfer Credit: CSU.

HEALTH C223 3.0 Units
(Formerly HEALTH C175)
Healthy Aging
Advisory: HLTH C100 or SOC C120
Physical and emotional aspects of healthful living in the later years. Emphasis is placed on the healthy changes that occur during the aging process, ways of coping with these changes, and preventative measures to maximize good health. Transfer Credit: CSU.

**World History 1**

A survey of the economic, political, social, and cultural evolution of civilizations in Asia, the Near East, Europe, Africa, and the Americas, from antiquity to 1500 C.E. This course covers the origin and early development of human civilizations in each region as well as unique cultural traditions and the beginnings of interactions between the different societies. Transfer Credit: CSU; UC. C-ID: HIST 150.

**HISTORY C162 (Formerly History C165) 3.0 Units**

**World History 2**

This course traces the economic, political, social, and cultural evolution of civilizations in Asia, the Near East, Europe, Africa, and the Americas from 1500 to the present. It covers the varied impact of industrialization and the creation of a global economy, the evolution and interaction of disparate political systems, and the development of diverse cultural, social, and ideological trends. Transfer Credit: CSU; UC. C-ID: HIST 160.

**HISTORY C170 3.0 Units**

**U.S. History to 1876**

A comprehensive examination of the history of the United States from the beginnings of exploration to the end of reconstruction after the Civil War. It covers the political, economic, diplomatic, social, and cultural aspects of American life during this time span. This course fulfills the UC and CSU requirements for the BA degree and is transferable to all state institutions of higher learning. Transfer Credit: CSU; UC. C-ID: HIST 130.

**HISTORY C175 3.0 Units**

**U.S. History Since 1876**

A comprehensive examination of the history of the United States from Reconstruction to the present time that covers the political, economic, diplomatic, social, and cultural aspects of American life. This course fulfills the UC and CSU requirements for the BA degree and is transferable to all state institutions of higher learning. Transfer Credit: CSU; UC. C-ID: HIST 140.

**HISTORY C180 3.0 Units**

**Western Civilization 1**

A study of the development of western culture from the earliest beginnings to 1550 with an emphasis upon the impact of philosophical, social, and economic factors upon western civilization. Transfer Credit: CSU; UC. C-ID: HIST 170.

**HISTORY C185 3.0 Units**

**Western Civilization 2**

A survey of the development of present day Western society from 1550 to the present, the course will emphasize the cultural, and socio-economic changes wrought by the Reformation, the Enlightenment, the Scientific Revolution, industrialization and imperialism. It will also trace the political evolution of the West by examining a variety of political trends, including liberalism, nationalism, socialism, communism, and fascism. Transfer Credit: CSU; UC.

**HUMAN SERVICES (HSVC)**

**HUMAN SERVICES C100 3.0 Units**

**Introduction to Human Services**

A comprehensive survey of the development and scope of the human services field, with a global sensitivity, covers the history of human services, current theories and models of helping, ethics, administration, and careers in human services. Transfer Credit: CSU.

**HUMAN SERVICES C104 3.0 Units**

**Treatment Issues in Substance Abuse**

This course will introduce students to theoretical and intervention models involved in the treatment of substance dependencies. Students will explore the effects of substance abuse on the individual, the family unit, workplace, and the community. Topics include counselor characteristics, legal and ethical issues facing substance abuse counselors, pharmacology, and substance abuse assessment, issues of diversity and treatment, group counseling, family counseling, codependency and enabling, and modalities of treatment. Transfer Credit: CSU.

**HUMAN SERVICES C102 3.0 Units**

**Introduction to Crisis Intervention**

This course examines crisis theory, types of crises, crisis intervention strategies and referral procedures. Topics will include: ethical and cultural issues, death and dying, substance abuse, suicide, victimization, AIDS and HIV, and post-traumatic stress disorder. Students will become familiar with the assumptions of crisis theory and how it shapes interventions. Transfer Credit: CSU.

**HUMAN SERVICES C104 3.0 Units**

**Youth Mentoring**

Designed to prepare students to become mentors, this course will cover mentoring goals and strategies. Participants will learn how to communicate and develop a relationship with a child or adolescent, and how to plan age-appropriate activities, set goals, problem-solve, and handle crises. Transfer Credit: CSU.

**HUMAN SERVICES C115 0.5 Units**

**Human Services Practicum**

Prerequisite: HSVC C100 & C101

Corequisite: 60 hours of employment or volunteer work in a human services agency.

Through community agencies, students will learn the work of human services delivery through supervised participation. The course will emphasize student self-awareness and self-esteem, interviewing and communication skills, the relationship of theory and practice, and agency and client systems. Transfer Credit: CSU.

**HUMANITIES (HUM)**

**HUMANITIES C100 3.0 Units**

**Introduction to the Humanities**

A survey of Western Civilization from its roots in prehistory to its current influence throughout the world, this course considers the religious, intellectual, socio-political, philosophical, and cultural values that have influenced the arts of the West. Transfer Credit: CSU; UC.

This course introduces both majors and non-majors to the concepts and topics of computer and simulation programming. Students develop algorithmic thinking and abstraction through the use of a 3-D animation programming environment. This course is designed for beginning programmers, and web developers who need to understand object oriented concepts. Transfer Credit: CSU.
INFORMATICS C176 3.0 Units
Web Animation
The course uses industry standard animation tools in which the principles of animation are developed for web animation. Students are expected to create one short web-i-sode with sound of at least one minute in length using these tools. Transfer Credit: CSU.

INFORMATICS C182 3.0 Units
Simulation Building
Advisory: DGA C174
Students will learn to apply basic design principles to the solution of visual problems using elements of 3-D design. The student will conceptualize his/her intended design from concept into a 3-D environment. The use of primitive shape based design, 3-D coordinate systems and construction of 3-D models will be explored. Transfer Credit: CSU.

INFORMATICS C184 3.0 Units
Interface Design
(Same as Digital Graphics Applications C184)
This course covers the basics of designing media using authoring software and creating animation, interactivity, and basic programming techniques. Emphasis is on interface design and development. Transfer Credit: CSU.

INFORMATICS C185 3.0 Units
Interface Design Project
Advisory: INFM C184
Students, working in teams, will design and implement a multimedia entertainment software system, paying particular attention to human computer/interface issues. Transfer Credit: CSU.

INFORMATION AND COMPUTER SCIENCE (ICS)
(ALSO, SEE COURSES LISTED UNDER COMPUTER INFORMATION SYSTEMS)

INFORMATION AND COMPUTER
SCIENCE C123 3.0 Units
Fundamental Data Structures
Prerequisite: INFM C141 and C142, PHIL C115; ENGL C100 with a “C” or better grade.
An introduction to computer science that is primarily concerned with the topic of data structures: what various ones are and how they are used, and the pros and cons, in terms of execution time and memory usage, of choosing one over another. Transfer Credit: CSU; UC.

SCIENCE C141 3.0 Units
Concepts of Programming Languages 1
Prerequisite: INFM C141, C142, and C144; ICS C123; PHIL C115; ENGL C100 with a “C” or better grade.
Explore a broad range of approaches to programming, the technical principles and characteristics of different programming languages, and the issues that programming language designers must consider. Transfer Credit: CSU; UC.

ITALIAN (ITAL)
ITALIAN C180 5.0 Units
Elementary Italian 1
Advisory: Students who have completed two years of high school Italian with a grade of “C” or better should enroll in ITAL C185 or ITAL C185A.
Beginning course designed to develop students’ fundamental ability to both comprehend and converse in daily spoken Italian. The course emphasizes listening, speaking, reading and writing skills, and introduces basic aspects of the life and culture of Italy. Transfer Credit: CSU; UC credit limitations (see counselor).

ITALIAN C185 5.0 Units
Elementary Italian 2
Prerequisite: ITAL C180 or C185B with a grade of “C” or better
Continuation of ITAL C180 or C180B, emphasizing acquisition of proficiency in listening comprehension, fluency in speaking, and competence in writing and reading. Cultural traditions, including an introduction to Italian folkways, arts, architecture, literature, drama, dance, geography, history, government, and religions will be emphasized. Transfer Credit: CSU; UC credit limitations (see counselor).

ITALIAN C280 4.0 Units
Intermediate Italian 1
Prerequisite: ITAL C180 or C185B with a grade of “C” or better.
Continuation of ITAL C180 or C180B, with further development of language skills at the intermediate level and exploration of cultures related to the Italian language. Additional emphasis on reading and writing, with an introduction to selected literary works. Transfer Credit: CSU; UC.

ITALIAN C285 4.0 Units
Intermediate Italian 2
Prerequisite: ITAL C280 with a grade of “C” or better.
Continuation of ITAL C280, with further refinement of language skills at the intermediate level and investigation of cultures related to the Italian language in preparation for higher level specialized work. Transfer Credit: CSU; UC.

JAPANESE (JAPN)

JAPANESE C180 5.0 Units
Elementary Japanese 1
Advisory: Students who have completed two years of high school Japanese with a grade of “C” or better should enroll in JAPN C185.
This course is designed to develop the student’s fundamental ability to both comprehend and converse in daily spoken Japanese. Early reading and writing skills are introduced, as well as customs and cultures of the Japanese language speakers. Transfer Credit: CSU; UC credit limitations (see counselor).

JAPANESE C185 5.0 Units
Elementary Japanese 2
Prerequisite: JAPN C180 or C180B with a grade of “C” or better
Advanced beginning course continuing JAPN C180 or C180B emphasizing listening, speaking, grammar, reading, comprehension, writing skills in elementary Japanese and introducing features of the history, life, and culture of Japan through readings, discussions, audio cassettes, and video presentations. Transfer Credit: CSU; UC credit limitations (see counselor).

KINESIOLOGY (KIN)

KINESIOLOGY C100 3.0 Units
Introduction to Kinesiology
An introduction to the study of human movement, including its role in daily life, its place in higher education, and professional career opportunities in areas related to sport, movement, exercise, and fitness. Students will examine the multiple ways of knowing and studying human movement with a focus on the sub disciplines within Kinesiology. Transfer Credit: CSU. C-ID: KIN 100.

LAW (PARALEGAL STUDIES)

LAW C100 3.0 Units
Introduction to Paralegal Studies
Introductory course covering the relationship between paralegals and attorneys and clients. Topics include structure of the profession, federal and state court systems, ethical standards, legal terminology, investigation techniques, research, case and statute analysis, overview of legal practice areas, and communication. Transfer Credit: CSU.

LAW C105 3.0 Units
Civil Litigation 1
Advisory: LAW C100 and C127
Learn, analyze, and examine the basic principles of civil litigation as applicable to jurisdiction, venue, and preparation of pleadings, discovery, motions, trial preparation, and alternative dispute resolution by plaintiffs and defendants in the California court system. Transfer Credit: CSU.

**MANAGEMENT AND SUPERVISION (MS)**

**MANAGEMENT AND SUPERVISION C100** 3.0 Units  
**Business Organization and Management**  
Business Organization and Management is a course designed to provide a comprehensive review of the role of management in the current business environment. Students will be introduced to the terminology, theories, and principles that make up the core of business management. The 21st Century workplace is undergoing dramatic changes. Organizations are reinventing themselves for speed, efficiency, and flexibility and are creating a strategic advantage with customer-focused leadership. Teams are becoming the basic organizational building block with increased emphasis on employee participation and empowerment. Transfer Credit: CSU.

**MANAGEMENT AND SUPERVISION C101** 3.0 Units  
**Management and Employee Communication**  
This course applies the principles of ethical and effective communication to the creation of letters, memos, emails, and written and oral reports for a variety of business situations. The course emphasizes planning, organizing, composing, and revising business documents using word processing software for written documents and presentation-graphics software to create and deliver professional-level oral reports. This course is designed for students who already have college-level writing skills. Transfer Status: CSU.

**MANAGEMENT AND SUPERVISION C102** 3.0 Units  
**Human Relations in Business**  
The course explores the influence of individual differences, interpersonal dynamics, and culture on human relations. Its focus is on learning to apply the principles of social science as a business management skill and to improve working relationships and the ability to deal with a variety of people and situations. Students will learn how to utilize problem solving, critical thinking, and human relations skills to become effective supervisors and managers in today’s business environment. Transfer Credit: CSU.

**MANAGEMENT AND SUPERVISION C104** 3.0 Units  
**Human Resource Management**  
This course provides an introduction to the human resources function and related elements and activities while focusing on the crucial role of effective human resource management in achieving organizational success. It emphasizes the ways human resource management can provide a competitive edge and support corporate strategies. It examines the diversity of today’s workforce and the economic, social, legislative, and attitudinal changes affecting human resources as well as key functions, such as recruitment, equal opportunity, selection, development, appraisal, retention, compensation, and labor relations. Students will be exposed to the view of HRM from the perception of both management and subordinate employees. Transfer Credit: CSU.

PARALEGAL STUDIES
(SEE LAW)

PHILOSOPHY (PHIL)

PHILOSOPHY C100 3.0 Units
Introduction to Philosophy
This course provides an introduction to the main ideas, methods, and problems of philosophy. Topics include the nature of philosophy and reality, questions of human nature and free will, relationship between mind and body, the question of God, sources of knowledge, and personal and social ethics. Multicultural and feminist issues are woven into traditional Western material, including contributions from India (Hinduism and Buddhism), China (Confucianism), Japan (Zen Buddhism), and Native American philosophy, among others. Transfer Credit: CSU; UC. C-ID: PHIL 100.

PHILOSOPHY C102 3.0 Units
History of Ancient Philosophy
Advisory: Eligibility for ENGL C100
This course addresses ancient philosophy, emphasizing the development of Greek philosophy from the pre-Socratics through Aristotle, and may also include Hellenistic, Roman, medieval, and non-Western thinkers. Recommended for all students interested in refining critical thinking faculties. Essential for philosophy majors. Transfer Credit: CSU; UC.

PHILOSOPHY C113 3.0 Units
Environmental Ethics: Philosophical Approaches to Sustainability
Advisory: Eligibility for ENGL C100
A philosophical course focusing upon global environmental issues, such as scarcity of resources, world hunger, animal welfare, conservation, and preservation. Transfer Credit: CSU; UC.

PHILOSOPHY C115 3.0 Units
Logic and Critical Thinking
This course introduces logic and critical thinking. It covers persuasion, argument, semantic and logical consistency, and the accurate use of language, both meaning and structure. It evaluates the effects of advertising, politics, religion, and the news media. The course also explores the gulf between reasoning in theory and in practice. Students critically evaluate world philosophies, religions, cultural influences, and history, and analyze deductive and inductive proofs through categorical and sentential logic. Transfer Credit: CSU; UC.

PHILOSOPHY C120 3.0 Units
Ethics
This course examines morality, values, and representative ethical theories. Moral problems may include euthanasia/assisted suicide, capital punishment, war, hunger and homelessness, global resource inequality, animal rights, the free rider problem, the environment and future generations, racial and gender injustice, sexual and reproductive autonomy, exploitation, or personal and social responsibility. Transfer Credit: CSU; UC.

PHOTOGRAPHY C108 1.0 Unit
Digital Photography for Travelers
Introductory course in shooting techniques and photographic management methods necessary for successful travel photography. Basic skills, such as shooting night scenes and scenic panoramas, and using professional effects to take more accomplished interior and exterior photographs will be covered. Includes brief history of the digital camera and discussion of some basic computer, printer, or publishing output options as well as suggestions for simple image manipulation. Student shall provide own digital camera. Transfer Credit: CSU.

PHYSICAL EDUCATION (PE)

PHYSICAL EDUCATION C101 1.0 Unit
Personal Fitness and Wellness
Individualized program of exercise, fitness, stress control and body weight control to improve muscle strength, endurance, flexibility, and overall physical fitness to achieve and maintain a healthy lifestyle. Transfer Credit: CSU; UC.

PHYSICAL EDUCATION C102 0.5 - 1.0 Unit
Lifetime Fitness
Individualized program for adults to achieve and maintain physical fitness. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C115 0.5 - 1.0 Unit
Tai Chi Beginning
A focus on movement, balance, and concentration for greater health and well-being. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C116 0.5 - 1.0 Unit
Tai Chi Intermediate
Advisory: PE C115
An intermediate level of Tai Chi skills, including movement, balance, and concentration. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C118A 0.5 - 1.5 Units
Introduction to Yoga 1
An overview course in yoga, the integrated study of health and movement. It includes breathing techniques, yoga postures, meditation, and relaxation. Emphasis is on practicing the principles of breathing and deep relaxation to reduce stress as well as practicing the postures to improve flexibility, balance, and strength. The first segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C118B 0.5 - 1.5 Units
Introduction to Yoga 2
An overview of yoga, which is an integrated study of health. It includes breathing techniques, yoga postures, meditation, and relaxation. Emphasis is on practicing the principles of breathing and deep relaxation to reduce stress as well as practicing the postures to improve flexibility, balance, and strength. The second segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).
PHYSICAL EDUCATION C119A 0.5 - 1.5 Units
Hatha Yoga 1
Designed to teach a variety of yoga postures. Breathing, concentration/meditation and relaxation techniques will be presented as a method of personal development encompassing body, mind, and spirit. The first segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C119B 0.5 - 1.5 Units
Hatha Yoga 2
Advisory: PE C119A
Designed to teach a variety of yoga postures. Breathing, concentration/meditation and relaxation techniques will be presented as a method of personal development encompassing body, mind, and spirit. The second segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C121A 0.5 - 1.5 Units
Power Yoga 1
Power Yoga is an ancient Eastern practice, connecting movement using mind, body, and breathing practice. The course focuses on dynamic movement to keep the body strong, flexible and relaxed. The first segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C121B 0.5 - 1.5 Units
Power Yoga 2
Advisory: PE C121A
Power Yoga is an ancient Eastern practice, connecting movement using mind, body and breathing practice. The course focuses on dynamic movement to keep the body strong, flexible and relaxed. The second segment of a two-part course. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICAL EDUCATION C126A 0.5 - 1.5 Units
Relaxation Movements 1
The students will participate in a variety of techniques from various Eastern healing traditions which can include Hatha Yoga, Qigong, Taiji (Tai Chi) that are designed to improve quality of life on all levels-physical, emotional, and spiritual. Techniques on breathing, concentration/meditation, self-massage, gentle flowing movement, strength poses, and relaxation will be presented. The first segment of a two-part course. Transfer Credit: CSU.

PHYSICAL EDUCATION C126B 0.5 - 1.5 Units
Relaxation Movements 2
Advisory: PE C121A
The students will participate in a variety of techniques from various Eastern healing traditions which can include Hatha Yoga, Qigong, Taiji (Tai Chi) that are designed to improve quality of life on all levels-physical, emotional, and spiritual. Techniques on breathing, concentration/meditation, self-massage, gentle flowing movement, strength poses, and relaxation will be presented. The second segment of a two-part course. Transfer Credit: CSU.

PHYSICAL EDUCATION C169A 0.5 - 1.5 Units
Self-Defense Arts Part 1
Advisory: PE C119A
The first segment of a two-part course. The student will participate in and sample a variety of techniques from various Martial Arts, which can include Aikido, Judo, Karate, and Hawaiian Lua, that are designed to increase self-awareness, confidence, and assertiveness when faced with a physical confrontation. The Laws of Self-Defense will also be covered in the course. Transfer Credit: CSU.

PHYSICAL EDUCATION C169B 0.5 - 1.5 Units
Self-Defense Arts Part 2
Advisory: PE C169A
The second segment of a two-part course. The student will participate in and sample a variety of techniques from various Martial Arts, which can include Aikido, Judo, Jujitsu, Karate, and Hawaiian Lua, that are designed to increase self-awareness, confidence, and assertiveness when faced with a physical confrontation. The Laws of Self-Defense will also be covered in the course. Transfer Credit: CSU.

PHYSICAL EDUCATION C190 3.0 Units
Physiology of Exercise
This course is designed for the student who has an interest in health, wellness, fitness, or sports, or who is planning a career in the fitness industry. This course will cover the basic principles and functions of the three main systems of the body: cardiovascular-respiratory system, metabolic system, and neuromuscular system. Emphasis will be placed on the body's response to exercise conditioning. Transfer credit CSU; UC.

PHYSICAL EDUCATION C201 3.0 Units
Fitness for Life
Application of principles of human anatomy, physiology, nutrition, and behavior change to the development of exercise programs for health and fitness. Transfer Credit: CSU.

PHYSICAL EDUCATION C289 3.0 Units
(Formerly PHYSICAL EDUCATION C189)
Exercise Assessment and Program Implementation
Advisory: BIOL C102 and PE C190
Prepares students to use a variety of screening methods to analyze the fitness level and risk factors of implementing an individual exercise program. The course will include the application of health behavior modification theories, strategies for determining individual expectations, and appropriate fitness goals to optimize adherence to an exercise plan. Students will be able to design and implement exercise programs for specific client needs (e.g., specific sports, performance, lifestyle, functional, balance, agility, aerobic, and anaerobic) as well as for some special populations. Transfer Credit: CSU.

PHYSICS (PHYS)

PHYSICS C110 3.0 Units
Conceptual Physics
Advisory: MATH C010 and C020
Discusses the fundamental laws of nature: mechanics, Newton’s Laws, energy, momentum, rotational dynamics, gravity, properties of 3 states of matter, heat and thermodynamics, harmonic motion, waves, and sound. Other topics will be selected from electricity and magnetism, light, and modern physics. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICS C110L 1.0 Unit
(Formerly Physics C111)
Conceptual Physics Lab
Prerequisite: PHYS C110 with a grade of “C” or better or concurrent enrollment.
Advisory: MATH C010 and C020
Introductory Physics Laboratory to complement PHYS C110. This course utilizes lectures and demonstrations to present various principles of physics in a non-mathematical manner as discussed in PHYS C110. Transfer Credit: CSU; UC credit limitations (see counselor).

PHYSICS C120 4.0 Units
Algebra Based Physics: Mechanics
Corequisite: MATH C120 or achieving qualifying score on math placement test.
Advisory: PHYS C110 or concurrent enrollment.
The course covers mechanics, heat, and sound. It satisfies the physics requirement of biological science programs (except University of California Programs) and technical programs, except physics, chemistry, or engineering. It satisfies requirements as liberal arts elective. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: PHYS 105.
PHYSICS C125 4.0 Units
Algebra Based Physics: Electricity and Magnetism
Prerequisite: PHYS C120 with a grade of "C" or better
The course covers electricity, magnetism, light/optics and modern physics. It satisfies the physics requirement of biological science programs and technical programs, except physics, chemistry, or engineering. It satisfies requirements as liberal arts elective. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: PHYS 110.

PHYSICS C140 4.0 Units
Survey of Chemistry and Physics
(Same as Geology C140)
Prerequisite: MATH C010
An investigation of basic principles of physics and chemistry, including matter, physical and chemical properties, energy, motion, light, atomic structure, bonding, solutions and chemical reactions. The inter-dependence of chemistry and physics will be emphasized. This course is intended for non-science majors. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: PHYS 140.

PHYSICS C185 4.0 Units
Calculus Based Physics: Mechanics
Prerequisite: MATH C180 with a grade of “C” or better
Advisory: MATH C185, PHYS C110
The course covers mechanics, heat and sound. Topics include kinematics and dynamics in one and two-dimensions, Newton’s Laws of Motion, Energy and Momentum, conservation principles, rotational motions, elasticity, Hooke’s Law, simple harmonic motion, wave behavior, interference and standing waves, properties of fluids, Pascal’s principle and Bernoulli’s principle, temperature, heat, calorimetry, the Gas Laws, and the Laws of Thermodynamics. Transfer Credit: CSU; UC credit limitations (see counselor). C-ID: PHYS 205.

PHYSICS C285 4.0 Units
General Physics: Modern
Prerequisite: MATH C185 and PHYS C185 or C280 with a grade of “C” or better
The course covers light, optics, and modern physics. Topics include nature of light and laws of geometric optics, image formation, and interference of light waves, diffraction patterns and polarization, relativity, introduction to quantum physics, quantum mechanics, atomic physics, molecules, and solids. Transfer Credit: CSU; UC. C-ID: PHYS 215.

POLITICAL SCIENCE C101 3.0 Units
(POLITICAL SCIENCE C110)
Survey of Current Issues
Advisory: Read the U.S. Constitution prior.
An analysis of crucial current political issues in American society and the world. This course will focus on defining key problems facing modern society and potential resolutions. Students will learn how to evaluate contemporary issues in an informed manner and construct arguments based upon reliable data and appropriate political science theory. Transfer Credit: CSU; UC.

POLITICAL SCIENCE C140 3.0 Units
Politics of the Middle East
This course surveys the major political, economic, and social institutions and movements of the Middle East, from the 1800s to the present. A special emphasis will be placed on the problems of the developing Middle Eastern region as a whole as well as the individual countries of Saudi Arabia, Iraq, Iran, Egypt, and Israel. The course will include a study of regional conflicts with a particular emphasis upon the Arab-Israeli conflict and the political and economic implications of oil as a resource. There will be a brief introduction to Islamic religious institutions, terrorism, and militarism, with particular attention paid to the importance of these institutions to the contemporary scene. Transfer Credit: CSU; UC.

POLITICAL SCIENCE C160 3.0 Units
Law and Democracy
Interdisciplinary exploration of themes, such as citizenship, participation, access, and social justice. Critical analysis of how law structures as well as limits democracy. Democracy as a universal value will be examined. Transfer Credit: CSU; UC.

POLITICAL SCIENCE C180 3.0 Units
(Formerly Political Science C100)
American Government
An introduction to the principles and problems of government, with particular attention to the American political system at all levels. Emphasis is on the human factor in politics and the realities of government at work. Transfer Credit: CSU; UC. C-ID: POLS 110.

POLITICAL SCIENCE C185 3.0 Units
(Formerly Political Science C130)
Comparative Politics
This class provides a comparative analysis of governments in various regions of the world, including Latin America, Asia, Europe, Africa, and the Middle East by examining the differences in the structures and functions of major political systems, including democratic, communist, and monarchial types of government. Transfer Credit: CSU; UC.

PROCESS TECHNOLOGY (PTEC)

PROCESS TECHNOLOGY C110 3.0 Units
Introduction to Process Technology
Introduction to Process Technology provides an overview of various process industries (oil and gas, chemical, mining, power generation, pulp and paper, water and waste water treatment, food and beverage, generation, pulp and paper, water and oil and gas, chemical, mining, power generation, pulp and paper, water and waste water treatment, food and beverage, generation, pulp and paper, water and oil and gas, chemical, mining, power generation, pulp and paper, water and)

PROCESS TECHNOLOGY C111 3.0 Units
Health, Safety, and Environment
Advisory: PTEC C110
The purpose of this course is to provide an introduction into the field of Safety, Health, and Environment within the process industry. Within this course, students will be introduced to various types of plant hazards, safety and environmental systems, equipment, and regulations under which plants are governed. Transfer Credit: CSU.

PROCESS TECHNOLOGY C112 1.5 Units
Quality Management
The purpose of this course is to provide an introduction to the field of Quality within the process industry. Within this course students will be introduced to many process industry-related quality concepts, including operating consistency, continuous improvement, plant economics, team skills, and statistical process control (SPC). Transfer Credit: CSU.
PROCESS TECHNOLOGY C113 3.0 Units
Process Technology 1: Equipment
Advisory: PTEC C110
The purpose of this course is to provide an introduction to the field of equipment within the process industry. Within this course, students will be introduced to many process industry-related equipment concepts, including purpose, components, operation, and the Process technician’s role for operating and troubleshooting the equipment. Transfer Credit: CSU.

PROCESS TECHNOLOGY C114 3.0 Units
Process Technology 2: Systems
Advisory: PTEC C113
The purpose of this course is to study the interrelation of process equipment and process systems. Students will be able to arrange process equipment into basic systems, describe the purpose and function of specific process systems, explain how factors affecting process systems are controlled under normal conditions, and recognize abnormal process conditions. Transfer Credit: CSU.

PROCESS TECHNOLOGY C115 3.0 Units
Process 3: Operations
Advisory: PTEC C114
The purpose of this course is to provide an introduction to the field of operations within the process industry. Within this course, students will use existing knowledge of equipment, systems, and instrumentation to understand the operation of an entire unit. Students study concepts related to commission, normal startup, normal operations, normal shutdown, turnaround, and abnormal situations as well as the process technician’s role in performing the tasks associated with these concepts within an operating unit. Transfer Credit: CSU.

PROCESS TECHNOLOGY C116 3.0 Units
Instrumentation 1
Advisory: PTEC C115
The purpose of this course is to study the interrelation of instrumentation used in the petrochemical and refining industries. Students will be able to identify instrumentation loops and explain how industrial processes are controlled by instruments and loops. Transfer Credit: CSU.

PROCESS TECHNOLOGY C117 3.0 Units
Instrumentation 2
Advisory: PTEC C116
The purpose of this course is to study the advanced instrumentation used in the petrochemical and refining industries. Students will be able to select instrumentation loops and describe industrial processes controls. Transfer Credit: CSU.

PROCESS TECHNOLOGY C120 2.0 Units
OSHA Standards for Construction Industry
This course covers Federal OSHA policies, procedures, and standards, as well as construction safety and health principles. Topics include scope and application of the OSHA construction standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Learn to apply the appropriate Federal OSHA standard that applies to hazards in the construction industry (#1926). Transfer Credit: CSU.

PROCESS TECHNOLOGY C121 2.0 Units
OSHA Guide to Industrial Hygiene
This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological and ergonomic hazards, Permissible Exposure Limits (PEL), OSHA health standards, respiratory protection, engineering controls, OSHA sampling protocols and strategies, and workplace health program elements (#521). Transfer Credit: CSU.

PROCESS TECHNOLOGY C122 2.0 Units
OSHA Electrical Standards
This course covers OSHA Electrical Standards and the hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA Standards, policies, and procedures and applicable portions of the National Electrical Code (NEC). Students will participate in workshops on the safe and correct use of electrical testing equipment (#3095). Transfer Credit: CSU.

PROCESS TECHNOLOGY C123 2.0 Units
OSHA Fall Protection
This course covers OSHA Fall Protection Standards for construction and an overview of fall protection methods. Course topics include principles of fall protection, components and limitations of fall arrest systems, and OSHA Standards and policies regarding fall protection. Students will participate in activities demonstrating the inspection and use of fall protection equipment, residential construction fall protection, training requirements, and development of a fall protection program (#3115/3110). Transfer Credit: CSU.

PROCESS TECHNOLOGY C124 2.0 Units
OSHA Excavation, Trenching, and Soil Mechanics
This course covers OSHA Excavation Standards and safety and health aspects of excavation and trenching. Course topics include practical soil mechanics and its relationship to the stability of shored and unshored slopes and walls of excavations, introduction of various types of shoring (wood timbers and hydraulic), soil classification, and use of protective systems. Testing methods are demonstrated, and students participate in activities in the use of instruments, such as penetrometers, torque shear, and engineering rods (#3015/3010). Transfer Credit: CSU.

PROCESS TECHNOLOGY C125 2.0 Units
OSHA Electrical Safety and Lockout-Tagout for Construction
This course covers the role and responsibility of the employer to develop and implement an energy-control program or lock-out/ tag-out (LOTO) for the protection of workers while performing servicing and maintenance activities on machinery and equipment. Topics include explaining types of hazardous energy, detecting hazardous conditions, implementing control measures as they relate to the control of hazardous energy, developing and implementing energy control programs, including written isolation procedures, training of authorized and affected employees, and periodically inspecting energy control procedures using the OSHA Control of Hazardous Energy Standard (#7115). Transfer Credit: CSU.

PROCESS TECHNOLOGY C126 2.0 Units
OSHA Principles of Ergonomics
This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Course topics include work physiology; anthropometry; musculoskeletal disorders; use of video display terminals; and risk factors, such as vibration, temperature, material handling, repetition, and lifting and patient transfers in health care. Course emphasis is on industrial case studies covering analysis and design of work stations and equipment activities in manual lifting and covering of current OSHA compliance policies and guidelines (#2255/2250). Transfer Credit: CSU.

PROCESS TECHNOLOGY C127 2.0 Units
OSHA Hazardous Materials
This course covers OSHA General Industry Standards and other consensus and proprietary standards that relate to the use of hazardous materials. Course topics include flammable and combustible liquids, compressed gases, LP gases, and cryogenic liquids. Related processes, such as spraying and dipping and using electrical equipment in hazardous locations are also discussed (#2015). Transfer Credit: CSU.
PROCESS
TECHNOLOGY C128 2.0 Units
OSHA Respiratory Protection
This course covers the requirements for establishing, maintaining, and monitoring a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include activities on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment (#2225). Transfer Credit: CSU.

PROCESS
TECHNOLOGY C130 2.0 Units
OSHA Standards - General Industry
This course covers OSHA Standards, policies, and procedures in general industry. Topics include scope and application of the OSHA General Industry Standards and general industry principles with special emphasis on those areas in general industry that are most hazardous (#5111). Transfer Credit: CSU.

PROCESS
TECHNOLOGY C132 2.0 Units
OSHA Permit-Required Confined Space Entry
This course covers the safety and health hazards associated with permit-required confined space entry. Course topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation to evaluate atmospheric hazards, ventilation techniques, development and implementation of a confined space program, proper signage, and training requirements. This course features activities on permit entry classification, instrumentation, and program development (#2264). Transfer Credit: CSU.

PROCESS
TECHNOLOGY C134 2.0 Units
OSHA Machinery and Machine Guarding Standards
This course covers the various types of common machinery, machine safe guards, and related OSHA regulations and procedures. Guidance is provided on the hazards associated with various types of machinery and the determination of proper machine safe guards. Course topics include machinery processes, mechanical motions, points of operation, control of hazardous energy sources (lockout/tagout), guarding of portable powered tools, and common OSHA machine guarding violations. Program highlights include the ability to recognize hazards and provide options for control and hazard abatement through machine safeguarding inspection activities (#2045). Transfer Credit: CSU.

PROCESS
TECHNOLOGY C281 1.0 Unit
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Process Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant's opportunity for success in the field of Process Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Process Technology. Transfer Credit: CSU.

PROCESS
TECHNOLOGY C282 2.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Process Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant's opportunity for success in the field of Process Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Process Technology. Transfer Credit: CSU.

PROCESS
TECHNOLOGY C283 3.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Process Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant's opportunity for success in the field of Process Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Process Technology. Transfer Credit: CSU.

PROCESS
TECHNOLOGY C284 4.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Process Technology for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant's opportunity for success in the field of Process Technology by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student's career or occupational goal in Process Technology. Transfer Credit: CSU.

PSYCHOLOGY (PSYC)
PSYCHOLOGY C100 3.0 Units
Introduction to Psychology
Fundamentals of human psychology. Using a scientific approach to the study of human behavior, this course examines and integrates physiological, intrapsychic, and social/behavioral perspectives on human thought and behavior. Major units include biological bases of behavior, sensation, perception, motivation, learning and memory, maturation and development, personality, and social psychology. Transfer Credit: CSU; UC. C-ID: PSY 110.

PSYCHOLOGY C116 3.0 Units
(Formerly Psychology C115)
Child Growth and Development
Examination of human development from conception through adolescence. Includes the biological, psychological, and sociocultural aspects of the maturation process. Transfer Credit: CSU; UC. C-ID: CDEV 100.

PSYCHOLOGY C118 3.0 Units
Life Span Development Psychology
Psychological study of human development across the lifespan from prenatal development through childhood, adolescence, adulthood, and dying, paying particular attention to the biological, cognitive, and psychosocial processes. Transfer Credit: CSU; UC. C-ID: PSY 180.

PSYCHOLOGY C165 3.0 Units
(Formerly Psychology C148)
Principles of Human Sexuality 1
Advisory: ENGL C099 or eligibility for ENGL C100

PSYCHOLOGY C170 3.0 Units
Psychology of Aging
Advisory: SOC C120
Investigates the lifespan of adults - career choices and changes, marriage, relationships, family issues, aging parents, and retirement. Opportunities and challenges for retirees and the elderly to explore the potential for longer, healthier lives. Transfer Credit: CSU; UC credit limitations (see counselor).
This course will provide an introduction to how the brain and nervous system influence our thinking and behavior. Students will examine neuroanatomy of the brain, the neuron, the peripheral and central nervous systems, and the endocrine system. Students will study the five major senses, perception, and higher cognitive processes. Students will understand how these nervous system components contribute to basic biological functions (e.g., sleep, wakefulness, and drive states), feelings, memory, movement, language, thinking, and behavioral actions. Transfer Credit: CSU; UC. C-ID: PSY 150.

Abnormal Psychology
Prequisite: PSYC C100 with a grade of “C” or better
An introduction to emotional and mental disorders from a biological, socio-cultural, and psychological approach. The course covers the field’s historical approaches and the range of psychological disorders as well as their symptoms, treatment, and the prevention of mental problems. Transfer Credit: CSU; UC. C-ID: PSY 120.

Psychobiology
Prequisite: PSYC C100 with a grade of “C” or better
Advisory: ENGL C099 or eligibility for ENGL C100 and ENGL C096 or ability to read a college-level text, as measured by the placement test.

Psychology to Law, Health, and Business
The scientific study of the influence of the mind on behavior. Topics include self-perceptions; attitudes and behavior; group influence and persuasion; attraction and relationships; stereotypes; prejudice, discrimination, aggression, belonging, helping, and the application of social psychology to law, health, and business. Transfer Credit: CSU; UC. C-ID: PSY 170.

Psychology to Law, Health, and Business
This course introduces to students psychological research methods and critical analysis techniques that may be applied to diverse research studies and issues. Transfer Credit: CSU; UC. C-ID: PSY 200.
REAL ESTATE C283 3.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Real Estate for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Real Estate by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Real Estate. Transfer Credit: CSU.

REAL ESTATE C284 4.0 Units
Work Based Learning
Prerequisite: Be employed or volunteer in a field related to Real Estate for 5 hours per week per 1.0 unit of Work Based Learning.
Corequisite: Be enrolled in a total of 7.0 units including Work Based Learning.
To enhance each Work Based Learning participant’s opportunity for success in the field of Real Estate by bridging the gap between educational theory and on-the-job practices through individualized performance objectives related to the student’s career or occupational goal in Real Estate. Transfer Credit: CSU.

REAL ESTATE C352 3.0 Units
Real Estate Loan Processing
Advisory: RE C100
This course will prepare students for entry-level positions as Real Estate Loan Processors. The content will include conventional and government loan processing, and the completion of required documentation following established industry standards. Course includes computer training in Calyx Point. Transfer Credit: CSU.

REAL ESTATE C356 3.0 Units
Real Estate Loan Underwriting
Advisory: RE C140 and C352
This course will prepare the student with prior Real Estate Loan Processing experience for a junior Real Estate Loan Underwriter position. Course content will include conventional, DU on-line, and government loan underwriting. Transfer Credit: CSU.

SIGN LANGUAGE
(SEE AMERICAN SIGN LANGUAGE)

SOCIOLOGY (SOC)

SOCIOLOGY C100 3.0 Units
Introduction to Sociology
An introduction to the scientific study of human society and social behavior, including the analysis of social interrelationships and human group organizations, culture, social differentiation, and social institutions. Transfer Credit: CSU; UC. C-ID: SOCI 110.

SOCIOLOGY C110 3.0 Units
Introduction to Marriage and Family
A study of the family as a social institution. Examines the process of family development, including mating, courtship, engagement, mate selection, marriage, parenthood, and divorce. Crises and challenges facing families today will be examined from a sociological perspective. Transfer Credit: CSU; UC. C-ID: SOCI 130.

SOCIOLOGY C120 3.0 Units
Introduction to Gerontology
A multidisciplinary overview of the biological, psychological, and sociological aspects of the aging process. Transfer Credit: CSU; UC credit limitations (see counselor).

SOCIOLOGY C130 3.0 Units
Globalization and Social Change
This course evaluates the social, cultural, economic, political, and environmental changes brought about by globalization. The course will deal with issues, such as outsourcing, immigration, economic development, and terrorism. The arguments and theories for and against globalization will be studied in depth and supplemented with empirical examples. Students will learn to understand how globalization is impacting their country, community, and ultimately themselves. Transfer Credit: CSU; UC.

SOCIOLOGY C185 3.0 Units
Analysis of Social Problems
An analysis of contemporary social problems. Topics include global ecology, political economy, sexual behavior, drug use, racism, sexism, ageism, education, environment, health issues, crime, and violence. Transfer Credit: CSU; UC. C-ID: SOCI 115.

SPANISH (SPAN)

SPANISH C160 5.0 Units
(Formerly Spanish C260)
Spanish for Spanish Speakers 1
Spanish C160 is designed to enrich the communication skills of the Spanish-English bilingual student. The course focuses instruction on improving the communication skills in formal and familiar ways of speaking, reading, grammar, spelling, vocabulary building, and composition. The course explores Hispanic culture through readings, plays and film. The course is conducted mainly in Spanish. Transfer Credit: CSU; UC. C-ID: SPAN 100.

SPANISH C165 5.0 Units
(Formerly Spanish C265)
Spanish for Spanish Speakers 2
Prerequisite: SPAN C160 or C160B with a grade of “C” or better
SPAN C165 is the continuation of SPAN C160. It is designed to advance the communication skills of Spanish-English bilingual students who are native or near native speakers of Spanish. The course focuses instruction on improving the communication skills in formal speaking, reading, using correct grammar, spelling, vocabulary building, and composing at the advanced intermediate level. The course explores Hispanic culture through literature, plays, music, and film. This course is conducted in Spanish. Transfer Credit: CSU; UC. C-ID: SPAN 110.

SPANISH C180 5.0 Units
Elementary Spanish 1
Advisory: Students who have completed two years of high school Spanish with a grade of “C” or better should enroll in SPAN C185 or C185A.
This course is designed to develop the student’s fundamental ability to both comprehend and converse in daily spoken Spanish. Early reading and writing skills are introduced as well as the customs and culture of the Spanish-speaking world. Transfer Credit: CSU; UC credit limitations (see counselor).

SPANISH C180A 2.5 Units
Elementary Spanish 1A
Advisory: Students who have completed two years of high school Spanish with a grade of “C” or better should enroll in SPAN C185.
This course is designed to develop the student’s fundamental ability to both comprehend and converse in daily spoken Spanish. Early reading and writing skills are introduced as well as customs and cultures of the Spanish-speaking world. SPAN C180A is equal to the first half of SPAN C180. SPAN C180A and C180B are equivalent to SPAN C180. Transfer Credit: CSU; UC credit limitations (see counselor).

SPANISH C180B 2.5 Units
Elementary Spanish 1B
Prerequisite: SPAN C180A with a grade of “C” or better
Advisory: Students who have completed two years of high school Spanish with a grade of “C” or better should enroll in SPAN C185.
This course reviews and expands the student’s ability to comprehend and converse in daily spoken Spanish. There is increased emphasis on reading and writing. An introduction to Hispanic culture is continued. SPAN C180B is equal to the second half of SPAN C180. Transfer Credit: CSU; UC credit limitations (see counselor).

2017/2018 CATALOG
SPANISH C185 5.0 Units
Elementary Spanish 2

Academic Freedom Statement
Coastline Community College recognizes that the free search for truth and the expression of diverse opinions are essential to a democratic society, and encourages and protects academic freedom as per Coast Community College District Board of Trustees policy number BP 4030 as approved 02/05/03.

Academic Honesty
Coastline Community College’s institutional integrity is built in part upon the individual student’s commitment to academic honesty. The College’s institutional integrity is also founded upon the effective administration of academic honesty issues by the College’s faculty and staff.

Coastline Community College Faculty are responsible for ensuring that the student grades are truly indicative of the student’s learned knowledge as exhibited in the classroom. Student acts of academic dishonesty cause disruption of the educational process, weaken our College’s institutional integrity, and present challenges for our faculty to fairly assess the student’s academic performance.

Coastline Community College Faculty holds primary responsibility for ensuring that academic honesty is maintained in their classes. Individual students also share in this responsibility. Coastline students are required to refrain from all acts of academic dishonesty. The Coast Community College District’s Student Code of Conduct and Disciplinary Procedures (BP-5500) apply to students whose conduct violates this academic honesty procedure.

Procedures for Dealing with Violations of Academic Honesty

Actions Taken by Faculty Member

Any Coastline Faculty member who has evidence that a student has committed an act of academic dishonesty, shall, after speaking with the student, take one or more of the following disciplinary actions:

• Issue an oral reprimand.
• Give the student an “F” grade or zero points or a reduced number of points on all or part of a particular paper, project, or examination;
• If the act of academic dishonesty results in a “F” grade or zero points being awarded to the student for that particular paper, project, or examination, and this result affects the student’s overall grade in the class, then the student shall be issued the proper grade, as affected by the specific “F” or zero grade, by the faculty member.

For any incident of academic dishonesty resulting in the instructor’s issuance of an “F” or zero points - the instructor shall assess the severity of the student’s misconduct and determine whether the incident should be immediately reported to the College’s Student Discipline Officer (presently the Vice President of Student Services) through the Maxient software program located on the Coastline home page under the Faculty and Staff tab.

Actions by the College Administration

The sanction imposed for an act of academic dishonesty depends on the severity of the alleged improper conduct of the student. However, sanctions are generally imposed as follows:

Upon receipt of a faculty-member completed first “Academic Dishonesty Report” form concerning a student, (or) upon satisfactory investigation of allegations brought by other staff or students about academic misconduct by a student, the Student Discipline Officer shall respond in one of two ways:

1. By sending a Student Discipline Notification Letter to the student, inviting the student to present a response to the allegations of academic dishonesty. The Student Discipline Officer will inform the student that if a finding of academic dishonesty is sustained, the student will be issued student conduct sanctions determined by the student Discipline Officer pursuant to the District’s Student Code of Conduct.

2. The Student Discipline Officer may also create an Academic Dishonesty Report file and send no letter (the Student Disciplinary Officer will not take action, based on the request of the individual instructor, who will handle the disciplinary action individually with his/her own students). If the Student Discipline Officer notes that multiple Academic Dishonesty Reports have been filed for particular students, then the student will receive a Letter of Student Discipline Notification.

Upon receipt of a second or more “Academic Dishonesty Report” of academic misconduct committed by a student, the Student Discipline Officer shall seek the suspension of the student for one to two full calendar years.

If, upon the student’s return from the one to two years suspension, the Student Discipline Officer receives any further reports of academic dishonesty concerning this student, the Student Discipline Officer may recommend the student be expelled from the District for a period of no less than three to ten years.

Depending on the severity of the student’s academic dishonesty, a student may be suspended from the College on a first offense or be recommended for expulsion by the CCCD Board of Trustees.

The Student Discipline Officer shall keep the faculty member and Division Dean reasonably informed of the status of the student discipline process and outcome.
Examples of Academic Dishonesty Conduct
Some examples of academic dishonesty conduct warranting the imposition of disciplinary probation, suspension, or expulsion include, but are not limited to, the following:

- Taking an examination for another student or having someone else take an examination for one-self.
- Altering a graded examination/assignment and returning it for additional credit.
- Having another person or a company do research and/or writing of a report.
- Stealing or attempting to steal an examination or answer key.
- Printing an online exam without the express authorization of the instructor.
- Stealing or attempting to change official academic records.
- Forging or altering grades.
- Obtaining answers from another student before or during an examination.
- Falsely reporting or claiming to have experienced technical difficulties with online instructional tests, quizzes, or assignments.
- Knowingly allowing another student to copy one’s work.
- Using unauthorized materials, such as notebooks, calculators, or other items, without the instructor’s consent during an examination or placement test.
- Sharing answers for a take-home or on-line examination unless otherwise authorized by the instructor.
- Receiving help in creating a speech, essay, report, project, or paper unless otherwise authorized by the instructor.
- Turning in a speech, essay, report, exam answer, discussion board posting, project, or paper done for one class to another class unless specifically authorized by the instructor of the second class.
- Misreporting or altering the data in laboratory or research projects.
- Offering another person’s work as one’s own: copying a speech, essay, report, exam answer, discussion board posting, project, or paper from another person or from books, websites, or other sources.
- Using outside sources (books or other written sources) without giving proper credit (by naming the person and putting any exact words in quotation marks).
- Intentionally impairing the performance of other students and/or a faculty member.
- Collusion - when any student knowingly or intentionally helps another student perform an act of academic dishonesty. Collusion in an act of academic dishonesty will be disciplined in the same manner as the act itself.

Academic Renewal Policy and Procedure
This Academic Renewal Policy (BP 4240) for Coastline Community College is issued pursuant to Section 55764 and 55765 of the California Administrative Code (Title 5) regulations. The purpose of this policy is to disregard past substandard academic performance of a student when such work is not reflective of their current demonstrated ability. It is based on the recognition that, due to unusual circumstances or circumstances beyond the control of a student, the past substandard work will negatively affect his/her academic standing and unnecessarily prolong the rate at which he/she may complete his/her current objectives.

Therefore, under the circumstances outlined below, Coastline Community College may disregard from all considerations associated with requirements for the Certificate of Achievement/Associate in Arts Degree and general education certification up to a maximum of thirty (30) semester units of course work from two semesters taken at any college. These circumstances are:

1. The student has requested the action formally and has presented evidence that work completed in the term(s) under consideration is substandard (less than a 2.0 grade point average) and not representative of present scholastic ability as verified by the current level of performance. Verification must consist of:
   a. Completion of a minimum of 12 semester units of course work at any regionally accredited college or university with a minimum cumulative grade point average of at least 2.0 subsequent to the course work to be disregarded.
   b. At least 12 months has elapsed since completion of the most recent course work to be disregarded.

2. Agreement that all units taken during the semester(s) to be disregarded, except those courses required as a prerequisite or to satisfy a requirement, in the student’s “redirected” educational objective.

3. An understanding that the student’s permanent academic record shall be annotated so that it is readily evident to all users of the records that units disregarded, even if satisfactory, may not apply to certificate, degree, or general education certification requirements.

4. Agreement that all course work remains legible on the student’s permanent record, ensuring a true and complete academic history.

If another accredited college has acted to remove previous course work from Certificate of Achievement, Associate in Arts, or Bachelor Degree consideration, such action shall be honored in terms of that institution’s policy. Units disregarded by another institution shall be deducted from the thirty semester units maximum of course work eligible for alleviation at Coastline Community College.

Students requesting removal of previous course work for certificate or degree consideration shall file a petition at the
Admissions and Records Office. The petition shall outline the semesters of course work to be disregarded and shall include evidence verifying (1) that work completed during this period is substandard, and (2) the expiration of at least 12 months since the end of the last term to be excluded. All official transcripts must be on file at Coastline Community College.

The Director of Admissions and Records or his/her designee shall act to approve the petition and make the proper annotation on the student’s permanent record upon verification of the conditions set forth herein.

Note: It is possible that other colleges or universities may not accept the Academic Renewal Policy.

Animals and/or Pets
Animals and/or pets of any kind or description are not allowed on or within college property. This restriction also applies to animals and/or pets confined in any vehicle parked on College property. This does not apply to the use of guide, signal, or service dogs for assisting persons with disabilities.

Enrollment Priorities
Coast Community College District (CCCD) uses a fair and equitable process to provide students access to courses and programs in pursuit of their educational goals, within the resource limits of the institution and in accordance with Education Code and Title 5 provisions and Board approved AP 5500 Enrollment Priorities. Effective July 1, 2014 priority registration will follow the framework established by BP 5500 and AP 5500.

Recognizing that not all students can be first to enroll, CCCD provides priority registration for students who enroll in one of the district colleges for the purpose of degree or certificate attainment, transfer to a four-year college or university, or career advancement. Furthermore, CCCD provides an opportunity for earlier registration for students who maintain good academic standing and have not exceeded 100 earned degree-applicable units across the three colleges in the district.

Title 5 Sections 51006, 55031, 55524(b)2, 58106, 58108.

Family Educational Rights and Privacy
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. The rights include:

1. The right to inspect and review the student’s education records within 45 days of the day Coastline Community college receives a request for access. Students should submit to the Director of Admissions and Records, or appropriate official, written requests that identify the record(s) they wish to inspect. The Coastline Community College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Coastline Community College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate. Students may ask Coastline Community College to amend a record that they believe is inaccurate. They should write the College official responsible for the records, clearly identify the part of the record they want changed, and specify why it is inaccurate.

If Coastline Community College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

School officials may disclose any and all educational records, including disciplinary records, to another institution at which the student seeks or intends to enroll without the prior consent of the student.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Coastline Community College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605
Directory Information

Student's directory information is released only upon approval of the Director of Admissions and Records. Students may request in writing to the Director of Admissions and Records or his/her designee that directory information not be released.

Directory information includes one or more of the following: student’s name, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, number of units of enrollment, and degrees and awards received.

Coastline Community College maintains in the Admissions and Records Office the following student record information:

1. Demographic data supplied to the College by the student through the enrollment process.
2. Transcripts of high school work if supplied by the student.
3. Transcripts of college work.
4. Placement test data.
5. Semester class enrollment data.

Additional information maintained in other offices on some students may include:

6. Financial Aid and EOP&S application information on students who have applied for either program.
7. Work Experience records on students who have taken work experience courses within the past three years.
8. Records maintained of students who have been disciplined.

Students may review the information contained in items 1-8. For items 1-5, a letter requesting review should be directed to the Admissions and Records Office. Requests for review of information contained in item 6 may be made to the Vice President of Student Services, and information in item 7 may be reviewed by arrangement with the office of Instruction. Inquiries regarding information contained in items 8 are to be directed to the Dean of Counseling. All requests for review will be honored within 15 days. Students may challenge the contents of any records by notifying the administrator associated with the records in question. If the issue is not resolved at that level, the student may use the student grievance procedure.

Liability

Throughout the academic year, some classes will meet at off-campus locations. The College will not provide transportation to these sites, and students enrolled in these classes are responsible for making their own transportation arrangements. Coastline personnel may assist in coordinating this transportation and/or may recommend travel time, routes, carpooling, etc.; however, the student does not have to follow these recommendations. The Coast Community College District (CCCD) is in no way responsible, nor does it assume liability, for any injuries or losses resulting from this non-sponsored transportation. If you ride with another student, that student is not an agent of or driving on behalf of the District.

Under the California Code of Regulations, Subchapter 5, Section 55450, if you participate in a voluntary field trip or excursion, you hold the CCCD, its officers, agents and employees harmless from all liability or claims that may arise out of or in connection with your participation in this activity.

Parking Regulations

Permit Required: Parking permits are required at the Newport Beach and Garden Grove Campuss. Any motorized vehicle requiring registration with the California Department of Motor Vehicles (DMV) must have a current parking permit affixed to the inside lower left corner of the windshield in clear view. Permit hangers are not recommended. However, if you choose to use one, you must ensure the permit is visible at all times. Motorcycles (mopeds) will have the permit affixed to the left front fork. Cars without permits properly displayed will be cited. Vehicles may park only in spaces or areas designated for vehicle parking. PURCHASE OF A PARKING PERMIT DOES NOT GUARANTEE A PARKING SPACE ON CAMPUS.

Purchase parking permits online: Current semester permits are now available online at www.coastline.edu. Daily parking permits can also be obtained from the office at each area site. Coastline parking permits are not valid at Golden West or Orange Coast Colleges.

Parking Areas: Designated parking areas are color coded:

- Yellow (Faculty and Staff) permit required
- White Grid (Motorcycles only) permit required
- Blue (Handicapped—DMV) permit required
- Unmarked white stalls—open for permit parking

All designated permit parking areas will be enforced Monday—Friday, 8 a.m.—10 p.m.

Responsibilities for Penalties: The registered owner of any vehicle on a Coastline site shall be held responsible for any liability or damage claims including parking or other traffic violation penalties arising in connection with the possession and/or operation of the vehicle on the Coastline site.

Liability: Coastline is not responsible and assumes no liability for damage or theft of any vehicle or its contents.

Lost, Stolen, Damaged Permits or Sold Vehicles: Replacement of lost, damaged, or permits sold with the vehicle will be $10. Stolen permits are to be reported to the Admissions office.

Sexual Misconduct Information & Title IX Compliance

Members of the Coastline Community College (CCC) community, guests and visitors have the right to be free from sexual violence. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others. CCC has zero tolerance for sexual misconduct. When an allegation of misconduct is brought to an appropriate administration’s attention and a respondent is found to have violated any sexual misconduct district policy, serious sanctions will be used to reasonably ensure that such actions are never repeated. The following is intended to define community expectations and to establish a mechanism for determining when those expectations have been violated.

**SEXUAL VIOLENCE — Risk Reduction Tips**

Risk reduction tips can often take a victim-blaming tone, even unintentionally. With no intention to victim-blame, and with recognition that only those who commit sexual violence are responsible for those actions, these suggestions may nevertheless help you to reduce your risk experiencing a non-consensual sexual act. Below, suggestions to avoid committing a non-consensual sexual act are also offered:

- If you have limits, make them known as early as possible.
- Tell a sexual aggressor “NO” clearly and firmly.
- Try to remove yourself from the physical presence of a sexual aggressor.
- Find someone nearby and ask for help.
- Take affirmative responsibility for your alcohol intake/drug use and acknowledge that alcohol/drugs lower your sexual inhibitions and may make you vulnerable to someone who views a drunk or high person as a sexual opportunity.
- Take care of your friends and ask that they take care of you. A real friend will challenge you if you are about to make a mistake. Respect them when they do.

If you find yourself in the position of being the initiator of sexual behavior, you owe sexual respect to your potential partner. These suggestions may help you to reduce your risk for being accused of sexual misconduct:

- Clearly communicate your intentions to your sexual partner and give them a chance to clearly relate their intentions to you.
- Understand and respect personal boundaries.
- DON’T MAKE ASSUMPTIONS about consent; about someone’s sexual availability; about whether they are attracted to you; about how far you can go or about whether they are physically and/or mentally able to consent. If there are any questions or ambiguity then you DO NOT have consent.
- Mixed messages from your partner are a clear indication that you should stop, defuse any sexual tension and communicate better. You may be misreading them. They may not have figured out how far they want to go with you yet. You must respect
the timeline for sexual behaviors with which they are comfortable.

- Don’t take advantage of someone’s drunkenness or drugged state, even if they did it to themselves.
- Realize that your potential partner could be intimidated by you, or fearful. You may have a power advantage simply because of your gender or size. Don’t abuse that power.
- Understand that consent to some form of sexual behavior does not automatically imply consent to any other forms of sexual behavior.
- Silence and passivity cannot be interpreted as an indication of consent. Read your potential partner carefully, paying attention to verbal and non-verbal communication and body language.
- In campus hearings, legal terms like “guilt,” “innocence” and “burdens of proof” are not applicable, but the college never assumes a student is in violation of district policy. Campus hearings are conducted to take into account the totality of all evidence available, from all relevant sources.
- The college reserves the right to take whatever measures it deems necessary in response to an allegation of sexual misconduct in order to protect students’ rights and personal safety. Such measures include, but are not limited to, interim suspension from campus pending a hearing and reporting the matter to the local police. Not all forms of sexual misconduct will be deemed to be equally serious offenses, and the college reserves the right to impose different sanctions, ranging from verbal warning to expulsion, depending on the severity of the offense. The college will consider the concerns and rights of both the complainant and the person accused of sexual misconduct.

SEXUAL MISCONDUCT OFFENSES INCLUDE, BUT ARE NOT LIMITED TO:

- Sexual Harassment
- Non-Consensual Sexual Contact (or attempts to commit same)
- Non-Consensual Sexual Intercourse (or attempts to commit same)
- Sexual Exploitation

**Sexual Harassment**

Sexual Harassment is unwelcome, gender-based verbal or physical conduct that is, sufficiently severe, persistent or pervasive that it, unreasonably interferes with, denies or limits someone’s ability to participate in or benefit from the college’s educational program and/or activities, and is based on power differentials (quid pro quo), the creation of a hostile environment, or retaliation.

Examples include: an attempt to coerce an unwilling person into a sexual relationship; to repeatedly subject a person to egregious, unwelcome sexual attention; to punish a refusal to comply with a sexual based request; to condition a benefit on submitting to sexual advances; sexual violence; intimate partner violence, stalking; gender-based bullying.

**NON-CONSENSUAL SEXUAL CONTACT:**

- Non-Consensual Sexual Contact is any intentional sexual touching, however slight, with any object, by a man or a woman upon a man or a woman that is without consent and/or by force.
- The determination of whether an environment is “hostile” must be based on all of the circumstances. These circumstances could include:
  - the frequency of the conduct;
  - the nature and severity of the conduct;
  - whether the conduct was physically threatening;
  - whether the conduct was humiliating;
  - the effect of the conduct on the alleged victim’s mental or emotional state;
  - whether the conduct was directed at more than one person;
  - whether the conduct arose in the context of other discriminatory conduct;
  - whether the conduct unreasonably interfered with the alleged victim’s educational or work performance;
  - whether the statement is a mere utterance of an epithet which engenders offense in an employee or student, or offends by mere discourtesy or rudeness
  - whether the speech or conduct deserves the protections of academic freedom or the 1st Amendment.

**Sexual Contact includes:**

Intentional contact with the breasts, buttock, groin, or genitals, or touching another with any of these body parts, or making another touch you or themselves with or on any of these body parts; any intentional bodily contact in a sexual manner, though not involving contact with/of/by breasts, buttocks, groin, genitals, mouth or other orifice.

**NON-CONSENSUAL SEXUAL INTERCOURSE:**

Non-Consensual Sexual Intercourse is any sexual intercourse however slight, with any object, by a man or woman upon a man or a woman that is without consent and/or by force. Intercourse includes: vaginal penetration by a penis, object, tongue or finger, anal penetration by a penis, object, tongue, or finger, and oral copulation (mouth to genital contact or genital to mouth contact), no matter how slight the penetration or contact.

**SEXUAL EXPLOITATION:**

Occurs when a student takes non-consensual or abusive sexual advantage of another for his/her own advantage or benefit, or to benefit or advantage anyone other than the one being exploited, and that behavior does not otherwise constitute one of other sexual misconduct of-
fenses. Examples of sexual exploitation include, but are not limited to:

- Invasion of sexual privacy;
- Prostituting another student;
- Non-consensual video or audio-taping of sexual activity;
- Going beyond the boundaries of consent (such as letting your friends hide in the closet to watch you having consensual sex);
- Engaging in voyeurism;
- Knowingly transmitting an STI or HIV to another student;
- Exposing one’s genitals in non-consensual circumstances; inducing another to expose their genitals;
- Sexually-based stalking and/or bullying may also be forms of sexual exploitation

Sanction Statement
Any student found responsible for violating the CCCD policy on Non-Consensual or Forced Sexual Contact (where no intercourse has occurred) will likely receive a sanction ranging from probation to expulsion, depending on the severity of the incident, and taking into account any previous campus conduct code violations.

Any student found responsible for violating the CCCD policy on Non-Consensual or Forced Sexual Intercourse will likely face a recommended sanction of suspension or expulsion.

Any student found responsible for violating the CCCD policy on sexual exploitation or sexual harassment will likely receive a recommendation ranging from probation to expulsion, depending on the severity of the incident, and taking into account any previous campus conduct code violations.

The Title IX investigative team reserves the right to broaden or lessen any range of recommended sanctions in the case of serious mitigating circumstances or egregiously offensive behavior. Neither the initial hearing officers nor any appeals body or officer will deviate from the range of recommended sanctions unless compelling justification exists to do so.

Other Misconduct Offenses (Will fall under TITLE IX when gender-base)

- Threatening or causing physical harm, extreme verbal abuse, or other conduct which threatens or endangers the health or safety of any person;
- Discrimination, defined as actions that deprive other members of the community of educational or employment access, benefits or opportunities on the basis of gender;
- Intimidation, defined as implied threats or acts that cause an unreasonable fear of harm in another;
- Hazing, defined as acts likely to cause physical or psychological harm or social ostracism to any person within the college community, when related to the admission, initiation, pledging, joining, or any other group-affiliation activity (as defined further in the Student Code of Conduct);
- Bullying, defined as repeated and/or severe aggressive behavior likely to intimidate or intentionally hurt, control or diminish another person, physically or mentally (that is not speech or conduct otherwise protected by the 1st Amendment);
- Violence between those in an intimate relationship to each other;
- Stalking, defined as repetitive and/or menacing pursuit, following, harassment and/or interference with the peace and/or safety of a member of the community; or the safety of any of the immediate family members of the community.

Privacy and Reporting
Jennifer De La Rosa (jdelarosa@coastline.edu), is the college’s designated Title IX Officer. The Title IX Officer is responsible for the purposes of initiating notice and/or investigation of sexual misconduct excluding cases involving personnel (not related to a student). The Title IX Officer will assign deputy investigators, who are members of the Investigative Team, to investigate allegations of gender-based discrimination and/or sexual misconduct. The deputy investigators will use discretion on how they act in response to notice of gender-based discrimination. Understanding that different people on campus have different reporting responsibilities and varied abilities to maintain confidentiality, the Title IX Officer will assign deputy investigators depending on the situation and the parties involved.

To Report Confidentially
If you want the details of the incident be kept confidential, you should speak with on-campus mental health counselors or off-campus rape crisis resources who can maintain confidentiality.

Reporting to those who can maintain the privacy of what you share—You can seek advice from certain individuals who are not required to tell anyone else your private, personally identifiable information unless there is cause for fear for your safety, or the safety of others. These are individuals who the college has not specifically designated as “responsible employees” for purposes of putting the institution on notice and for whom mandatory reporting is required, other than in the stated limited circumstances. If you are unsure of someone’s duties and ability to maintain
your privacy, ask them before you talk to them.

**NON-CONFIDENTIAL REPORTING OPTIONS**—You are encouraged to speak to officials of the institution to make formal reports of incidents (deans, vice presidents, or other administrators with supervisory responsibilities, campus security, and human resources). The college considers these people to be “responsible employees.” Notice to them is official notice to the institution. You have the right and can expect to have incidents of sexual misconduct to be taken seriously by the institution when formally reported, and to have those incidents investigated and properly resolved through administrative procedures. Formal reporting means that only people who need to know will be informed of the report, and information will be shared only as necessary with investigators, witnesses, and the accused individual.

**Federal Statistical Reporting Obligations**—Certain campus officials have a duty to report sexual misconduct for federal statistical reporting purposes (Clery Act). All personally identifiable information is kept confidential, but statistical information must be passed along to campus law enforcement regarding the type of incident and its general location (on or off-campus, in the surrounding area, but no addresses are given) for publication in the annual Campus Security Report. This report helps to provide the community with a clear picture of the extent and nature of campus crime, to ensure greater community safety. Mandated federal reporters include: student/conduct affairs, campus law enforcement, coaches, athletic directors, student activities staff, human resources staff, advisors to student organizations and any other official with significant responsibility for student and campus activities. The information to be shared includes the date, the location of the incident (using Clery location categories) and the Clery crime category. This reporting protects the identity of the victim and may be done anonymously.

**Federal Timely Warning Reporting Obligations**—Victims of sexual misconduct should also be aware that college administrators must issue immediate timely warnings for incidents reported to them that are confirmed to pose a substantial threat of bodily harm or danger to members of the campus community. The college will make every effort to ensure that a victim’s name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger. The reporters for timely warning purposes are exactly the same as detailed above.

**Student Code of Conduct**

**BP 5500 - STUDENT CODE OF CONDUCT AND DISCIPLINARY PROCEDURES:** The Coast Community College District has special interests and purposes essential to its effective functioning as an educational institution. These include (a) the opportunity for students to attain their educational objectives, (b) the creation and maintenance of an intellectual and educational atmosphere throughout the District, and (c) the protection of the health, safety, welfare, property, and human rights of all members of the District community and the property of the District itself. The Coast Community College District has a clear responsibility in the area of student conduct to protect and promote the pursuit of its goals.

The Coast Community College District Policy Regarding Student Code of Conduct and Disciplinary Procedures sets forth those acts which constitute unacceptable conduct. All alleged violations of this policy may result in referral to the College Administrator charged with enforcing this policy.

The Coast Community College District reserves the right, for educational purposes, to review any action taken by civil authorities regarding students. Students are expected to adhere, and will be held accountable for adhering, to all federal, state, and local laws, in addition to all District policies and regulations not set forth herein.

A student of the Coast Community College District accepts the responsibility to conform to all District rules and regulations. Failure to meet this obligation will justify appropriate disciplinary actions including, but not limited to, expulsion, suspension, disciplinary probation, or reprimand. Although the District will make every reasonable effort to make the District’s rules and regulations available, students are responsible for becoming familiar with them.

This policy applies to all students and also applies to:

- applicants for offenses committed as part of the application process;
- applicants for offenses committed on campus and/or while participating in District-related events or activities that take place following a student's submittal of the application through his or her official enrollment;
- individuals who participate in a District-sponsored program; and
- former students for offenses committed while a student.

If specified in the campus regulations, this policy shall also apply to conduct that occurs off campus and that would violate student conduct and discipline policies or regulations if the conduct occurred on campus, or where the conduct occurs within a reasonable distance from the campus and such conduct disrupts or interferes with the educational mission of the campus.

The following acts are defined by the District to be unacceptable. The list is not all inclusive. The Chancellor and/or College President may add violations to this code as they deem appropriate subject to the provisions of Section 3.50. A student found to have violated any of the following regulations is subject to the maximum sanction of expulsion. Being under the influence of drugs and/or alcohol or the existence of other mental impairment does not diminish or excuse a violation of the Disciplinary Code.

The District may impose discipline for the commission, or attempted commission, of the following types of violations by Students, or for aiding or abetting, inciting, conspiring, assisting, hiring or encouraging another person to engage in a violation of this Student Code of Conduct, or for any violation of state or Federal law. Being under the

49. Unwelcome Conduct. Conduct of a sexual, gender-based, or harassing nature, which is considered
unwelcome if a person did not request or invite it, and considered the conduct to be unwelcome, undesirable, or offensive. Unwelcome conduct may take various forms, including name-calling, graphic or written statements (including the use of cell phones or the Internet), hazing, bullying, or other conduct that may be physically or psychologically threatening, harmful, or humiliating. Unwelcome conduct does not have to include intent to harm, or directed at a specific target, or involve repeated incidents. Unwelcome conduct can involve persons of the same or opposite sex.

50. Violation of Driving Regulations. Driving unsafely on District property or while taking part in any District function, or repeated violation of District parking regulations.

51. Violation of Health and Safety Regulations. Violation of any health, safety or related regulations, rule or ordinance on District property or at any District function.

52. Violation of Law. Violation of any federal, state or local law on District property, at a District function or involving a member of the District Community.

53. Violation of Posted District Rules. Violation of any rule or regulation posted on District property by the District or the College, or printed in any District publication.

54. Violation of Published Computer/Network Usage Policy(s), Procedures, or Guidelines.
   a. Accessing and/or without permission altering, damaging, deleting, destroying, or otherwise using any data, computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   b. Accessing and/or without permission taking, copying, or making use of any data from a computer, computer system, or computer network, or taking or copying any supporting documentation, whether existing or residing internal or external to a computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   c. Using or causing to be used District computer services without permission,
   d. Accessing and/or without permission adding, altering, damaging, deleting, or destroying any data, computer software, or computer programs which reside or exist internal or external to a computer, computer systems, or computer network belonging to or used by the District or any Member of the District Community,
   e. Disrupting or causing the disruption of computer services or denying or causing the denial of computer services to an authorized user of a computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   f. Providing or assisting in providing a means of accessing, without permission, a computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   g. Accessing or causing to be accessed without authorization any computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   h. Introducing any computer contaminant or virus into any computer, computer system, or computer network belonging to or used by the District or any Member of the District Community,
   i. Sending any message using any computer system or network without authorization or sending any message in the name of another person or entity,
   j. Using any account or password without authorization,
   k. Allowing or causing to be used an account number or password by any other person without authorization,
   l. Accessing or causing to be accessed, downloading or causing to be downloaded, pornographic or obscene materials except when accessing a pornographic website which is part of the instructional process or assignment for a class the Student is currently enrolled in,
   m. Use the District's systems or networks for commercial purposes; for example, by performing work for profit with District resources in a manner not authorized by the district.

Student Grievance Procedures

Coastline Community College extends to all students the right to petition for readress of grievance. The right to petition may be initiated at any time when the student has a grievance against any college employee, policy or procedure at Coastline Community College.

Every effort will be made to preserve confidentially as grievances are fairly and equitably considered. The procedures will allow students to exhaust every administrative level possible in receiving fair and complete hearing of their grievances. These are college-level procedures for resolving problems and should not be viewed as legal or quasi-legal proceedings.

Based on the principle of improved communication between the students and the institution, the following procedures will be followed for students registering grievances:
NOTE: In order to establish due process, all parties to the grievances will adhere to the steps as outlined.

**STEP I:** Prior to filing a formal grievance, the student is expected to first contact the Dean of Counseling and the person(s) who has (have) the closest contact with the pertinent issue. The grievance should be thoroughly defined to be discussed objectively.

If the grievance cannot be resolved at this step, the student may progress to Step II after informing the person(s) involved of intended plans to file a formal grievance. The formal grievance must be filed during the semester in which the grievance occurs.

**STEP II:** The student meets with the Dean of Counseling to discuss the grievance. At this step, the “Formal Grievance Petition” is filed. The Vice President of Student Services will serve as an ombudsman in order to examine objectively both sides of the issue.

The Vice President of Student Services will then meet with all persons involved with the grievance. At the conclusion of Step II, the Vice President, within five (5) school days, will provide the student and others involved with a written summary of the discussion.

If the grievance has not been resolved by this step, the student may proceed to Step III.

**STEP III:** The student, within five (5) school days after the conclusion of Step II, will submit a written request to the Vice President of Student Services for a meeting of an arbitration committee.

The committee will consist of:
1. The appropriate Dean for the Area involved
2. Vice President of Student Services
3. Faculty Member

A meeting of the committee will be called by the Vice President of Student Services to review and/or take action on the grievance. In ten school days after the student has filed a written request, the committee will meet with all involved parties and discuss the grievance in detail in an attempt to resolve the issue at this step. Meetings will be chaired by the Vice President of Student Services.

Within five (5) school days, the decision and proposed action will be communicated to the following:
1. Student involved
2. Committee members
3. College President
4. Other person(s) involved with the grievance

**STEP IV:** If either the grievant or other person(s) involved are not satisfied with the decision of action of the Grievance Committee an appeal may be made. Within five (5) school days after the decision or action, the appeal must be filed with the President of the College for consideration. Once the College President has reviewed the memorandum and the written communication from the Grievance Committee, the President will schedule a private meeting with the complainant to discuss the matter.

**STEP V:** If the grievant/student is not satisfied with the final college level disposition of the case, she/he may, through the Chancellor of the Coast Community College District, appeal directly to the Board of Trustees. The Board, after reviewing the materials pertaining to the grievance, may determine the time, place, and manner of the hearing.

**Student Right to Know**

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), Coastline makes its completion and transfer rates available to all current and prospective students at the following website: http://www.goo.gl/4YByun

A copy of this information may be obtained by calling Coastline’s Public Relations office at (714) 241-6186.

**Students’ Rights**

The Coast Community College District and Coastline are committed to the concept and principles of providing all persons with equal opportunity in employment and education by prohibiting discrimination based on race, color, sex, national origin, religion, age, disability, marital or veteran’s status, or sexual preference. This commitment applies to every aspect of education and personnel policies and practices in the treatment of employees, students and the general public.

**Rights of Students with Disabilities:** Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990 prohibit discrimination on the basis of disability against persons in programs or activities receiving or benefiting from federal assistance. Thus, in postsecondary education settings, Section 504 mandates “reasonable accommodation” for adults with professionally documented physical or learning disabilities. Any person with a disability who believes that he or she has been discriminated against on the basis of disability should contact Renaté Akins, Americans with Disabilities Act (ADA) officer, (714) 241-6146 or Renaté Akins, Equal Employment officer, (714) 241-6146.

**Sexual Harassment:** It is the policy of the Coast Community College District to provide an educational, employment, and business environment free of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment as defined and otherwise prohibited by state and federal statutes. It shall be a violation of this policy for anyone who is authorized to recommend or take personal or academic action affecting a student or employee, or who is otherwise authorized to transact business or perform other acts or services on behalf of or for the Coast Community College District, to engage in sexual harassment as stated in the definition.
Within the Coast Community College District, sexual harassment is prohibited regardless of the status and/or relationships the affected parties may have. Contact one of the following college administrators: Dean of Counseling, (714) 241-6162; Helen Rothgeb, Equal Employment Officer, (714) 241-6150; or the Sexual Harassment Prevention Coordinator, (714) 241-6160 for further information.

**Study Load**

College work is measured in terms of the “unit.” In a lecture course, a college unit is normally defined as one hour of lecture and two hours of homework per week. In a laboratory course, three hours in the classroom per week with no outside work constitutes one unit of work.

No CCC student may carry more than 19 units during a semester, 9 units during summer, or 6 units during intersession without the permission of the Director of Admissions and Records/designee. This maximum applies to the combination of all units in which the student enrolls per semester/term in the Coast Community Colleges (Orange Coast, Golden West and Coastline). Petitions to take more than the previously referenced units will only be considered during the first week of the term or session.

**Remedial Coursework Limits**

No more than 30 semester units of course credit may be assigned to a student for remedial coursework except when the student is enrolled in one or more course in English as a Second Language or is identified as having a learning disability. This limit may be waived if the student can show significant and/or measurable progress toward the development of skills appropriate to enrollment in college-level courses. Student needing remedial instruction beyond the course credit restrictions set forth in this section shall be referred to appropriated non-credit adult basic education programs conducted by an adult school.

Group 3 Continuing Students
Group 3 Legislated Groups (Veterans, Foster Youth, EOPS, DSPS & CalWorks)

Group 4:
Concurrently enrolled high school students

Open Registration

If a student does not qualify for priority registration, a student may petition to have his/her priority registration reinstated by completing and submitting a CCCD Petition to Reinstate Priority Registration, available on each of the College’s web sites.

Definitions:
An abbreviated education plan is one or two terms in length and is typically used for entering first time students, students on academic or progress probation, or students who have short term educational goals at the college (short term CTE certificates, ESL, or basic skills). For the DSPS program, the Student Education Contract may be used to meet the abbreviated education plan.

A comprehensive education plan is at least two terms in length, reflects a sequence of courses required to achieve the student’s declared course of study, and includes the provision of counseling as required per Title 5, Section 55524(b)2.

Career advancement, as defined by CCCD for the purposes of identifying students for priority registration, is any student who has met with or consulted with a counselor to develop an abbreviated or comprehensive education plan.

Ratified February 19, 2014
Academic Standards

Honors: Coastline recognizes academic honor in four ways.

1. PRESIDENT’S LIST: A student is eligible to be included on the President’s List after completing a semester of at least 12 units in courses awarding letter grades during which a GPA of 4.0 is earned.

2. DEAN’S LIST: A student is eligible to be included on the Dean’s List after completing a semester of at least 12 units in courses awarding letter grades during which a GPA of 3.50 to 3.99 is earned.

3. HONOR’S LIST: A student is eligible to be included on the Honor’s List after completing a semester of 6.0 to 11.9 units in courses awarding letter grades during which a GPA of 3.75 to 4.0 is earned.

4. GRADUATION WITH HONORS: A student is eligible for Graduation with Honors* if he or she achieves a 3.50 or higher GPA in all college units attempted and a 3.50 or higher GPA in all courses completed at Coastline.

Probation Status: The Coast Community College District’s policy on probation states that a student shall be placed on probation if he or she meets one of two conditions:

1. Academic Probation
   A student is on academic probation if he or she has attempted at least 12 semester units at a District college and
   a. has a GPA of less than 2.0 in the most recent semester completed, or
   b. has a cumulative GPA of less than 2.0 in all units attempted.

2. Progress Probation
   A student is on progress probation if he or she has attempted at least 12 semester units at a District college and the percentage of units with “W, I and NP” grades reaches or exceeds 50 percent.

Students on probation at one District college shall be on probation at all colleges within the District. All probationary students shall be notified of their status and counseling services shall be made available.

Dismissal Status: The approved disqualification policy states that a student in the District who is on academic or progress probation shall be disqualified whenever he or she meets one of two conditions:

1. Academic Disqualification
   Any student on academic probation for two consecutive semesters shall be academically disqualified. However, students on academic probation whose most recent semester GPA equals or exceeds 2.0 shall not be disqualified but shall be continued on academic probation.

2. Progress Disqualification
   Any student on progress probation for two consecutive semesters shall be disqualified for lack of satisfactory progress. However, students on progress probation whose most recent semester work indicates less than 50 percent of “W, I or NP” entries shall not be disqualified but shall be continued on progress probation.

Students on disqualification at one District college shall be disqualified at all District colleges. Students shall be notified of disqualification status near the beginning of the semester that it shall take effect but, in any case, no later than the start of the Fall Semester.

Upon notification of eligibility for disqualification, students shall be informed of appeal procedures and of counseling and other appropriate services. If circumstances warrant, exceptions may be made and reinstatement granted at the discretion of and under the conditions established by the Probation and Disqualification Review Committee.

*Spring grades will not be used in computing the GPA for the graduation ceremony, but will be used in determining the final GPA for the diploma.

Attendance

Students are expected to attend class regularly. Failure to attend may be taken into consideration by instructors when assigning grades. Students who miss the first class meeting, are absent for two continuous class meetings, or have too many absences MAY be dropped by the Instructor at any time during the semester until the final deadline for withdrawal. Instructors may have more restrictive requirements for attendance and these requirements shall be stated in the class syllabus. Student’s that miss class due to verifiable extenuating circumstances beyond the control of the student (i.e. accident, illness, death in immediate family, etc.) should inform their instructors prior to missing class meetings. A student who has been absent because of extenuating circumstance should report to the instructor on the day of his/her return. No absence will excuse a student from making up the work missed. Students should realize that absences may adversely affect their grades. Please Note: It is the responsibility of the student to withdraw in order to meet all fee/refund deadlines and it is also the responsibility of the student to withdraw by state mandated deadlines to avoid grade penalties.

Auditing

The college is no longer offering students the option to audit a course.
Coastline recognizes college credit, except sectarian courses, earned at any institution of higher education which is accredited by one of the regional accrediting associations of schools and colleges as identified by the Council on Postsecondary Accreditation. They consist of the following associations:

- MSA - Middle States Association (of Colleges and Schools)
- NASC - Northwest Association of Schools and Colleges
- HLC (Formerly NCA) - Higher Learning Commission
- NEASC-CIHE - New England Association of Schools and Colleges - Commission on Institutions of Higher Education
- SACS - Southern Association of Colleges and Schools
- WASC-ACCJC - Western Association of Schools and Colleges - Accrediting Commission for Community and Junior Colleges
- WASC-ACSCCU - Western Association of Schools and Colleges - Accrediting Commission for Senior Colleges and Universities

In order to receive credit for courses completed at other colleges, students must submit copies of official sealed transcripts to Admissions and Records from each college attended. Transcripts submitted to Coastline College are evaluated to identify degree applicable courses completed with a grade of A, B, C, D, F, CR or P. The courses, units, and grades earned are applied as appropriate to the student’s educational plan.

Also, please note that some colleges/universities offer courses that have similar titles, and appear to be equivalent to courses offered by Coastline. However, the elements of the course – course content, learning objectives, lecture and/or lab hours, and prerequisites/co requisites – may not be congruent with the Coastline course. When evaluating coursework, all of these elements are taken into consideration.

Upper-division units may be considered for application towards a Certificate, local/non-transfer Associate Degree, Associate Degree for Transfer (ADT), CSU/GE and IGETC certification. The units will count toward the 60 units required for the associate degrees and meet the transfer requirements. If you are using upper-division courses to fulfill a lower-division IGETC or CSU/GE course or Associate Degree for Transfer major requirement, remember that you are required to complete a certain number of upper-division courses at the transfer institution. Contact the receiving institution to see how upper-division course credit will be awarded towards the baccalaureate degree. See the IGETC Standards for policy details: http://icas-ca.org/standards-policies-and-procedures-manual. CSU policy can be viewed at: http://www.calstate.edu/EO/EO-1100.html.

Students planning to transfer credit awarded by Coastline for experience other than classroom attendance should contact the specific transfer institution, since each college has a different policy regarding experiential credit.

**International Transcripts:** Coastline grants college credit for courses taken at regionally accredited institutions outside of the United States. Coastline is unable to evaluate international transcripts. Students are encouraged to utilize one of the evaluation services listed on the NACES site www.naces.org to retrieve a detailed evaluation of your international transcript. The results of the credential evaluation will be reviewed to determine how the international coursework may be applied to a CCCD local/non-transfer associate degree (AA/AS) or certificate. Students may be required to submit course descriptions from the evaluating agency.

We cannot apply non-regionally accredited international coursework to CSU General Education Certification or IGETC Certification for transfer purposes. Although some of your courses may be accepted by the institution to which you transfer, it is up to the destination institution to evaluate and determine what coursework will be accepted and how it will apply to your degree. For more information consult directly with the 4-year college that is your transfer destination.

Students may receive a maximum of 40 units through experiential learning, including American Council on education (ACE) College credit recommendations, military training and experience, CLEP, DSST, and Advanced Placement towards the experiences in similar subject areas.

**Advanced Placement Credit:** Credit may be granted for Advanced Placement courses completed in high school. The credit may be applied toward the Associate degree and/or CSU General Education Certification. Official test scores must be submitted to Coastline’s Admissions and Records Office. See Appendix B—AP Chart for the required scores and degree application.

AP course credit and units granted at Coastline College may differ from course credit and units granted by a transfer institution. See the transfer institution’s application of AP major preparation credit. UC AP major preparation credit: http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html. See individual CSU campuses for AP major preparation credit. See a Counselor.

**CLEP (College Level Examination Program)**

The College Entrance Examination Board offers examinations covering material taught in courses that most students take in the first two years of college.

- CLEP credits will count towards general education, major, or elective credits for the Associate degree or CSU General Education Certification. See Appendix C—CLEP Chart for the required scores and applicability.
- The University of California does not grant credit for CLEP.
- CLEP may or may not be accepted by other colleges and universities. A student must check with the specific transfer institution to determine regulations
regarding CLEP. General CLEP policies can be found in the college catalogs.

- CLEP exams may not be used to retake or improve a grade in a course at Coastline or any other institution.
- CLEP credit posted to another institution’s transcript will be reevaluated based on Coastline’s standards and may or may not be equal to credit received at another institution. CLEP credit posted to a student’s Coastline transcript may or may not be accepted for equal units at another institution.
- Coastline has established CLEP and DSST National Test Centers on base at Dyess AFB, Fallon NAS, Gulfport NCP, Holloman AFB, Pensacola NAS and Point Loma.

Credit by Examination: $25 per course. Students with appropriate post high school experience may petition for “Credit by Examination” and receive college credit in courses reflecting this experience, providing the:
1) student is in good standing;
2) course is appropriate for credit by examination;
3) course is listed in the college catalog and
4) appropriate instructor, currently teaching the classroom course, is willing to assist the student in completing “Credit by Examination.”

The appropriate number of units may be posted to the student’s transcript upon completion of 12 units at Coastline. This credit will be designated “Credit by Examination” and will be awarded the grade of “Pass” if the student successfully passes the examination; the grade of “No Pass” will be assigned if the student fails the examination.

DANTES (Defense Activities Non-Traditional Education Support) Subject Standardized Tests (DSSTs)

- Coastline accepts DANTES (DSSTs) with scores from 44 to 400 depending on the exam.
- DSST credits will count towards general education, major, or elective credits for the Associate degree. (See DSST chart for applicability)
- DSST scores may not count toward CSU and IGETC certifications.
- DSST scores may or may not be accepted by other colleges and universities. A student must check with the specific transfer institution to determine regulations regarding DSST credit.
- DSST exams may not be used to retake or improve a grade in a course at Coastline or any other institution.
- CLEP/DSST credit posted to another institution’s transcript will be reevaluated based on Coastline’s standards and may or may not be equal to credit received at another institution.

See Appendix D—DSST Chart.

Foreign College Units: Coastline is unable to evaluate foreign transcripts. Students are encouraged to utilize one of the evaluation services listed on the NACES site www.naces.org to retrieve a detailed evaluation of their international transcript. The results of the credential evaluation will be reviewed to determine how the international coursework may be applied to a CCCD local/non-transfer associate degree (AA/AS) or certificate. Students may be required to submit course descriptions from the evaluating agency. Although these agencies charge a fee for their services, the expense is usually much less than repeating the courses at an American institution of higher education. Coastline will accept the official evaluation and will count the units and/or degrees toward the student’s educational program. Call the Counseling office for information at (714) 241-6162.

Independent Study: Students whose past experiences and present activities provide an accepted alternative method for completing course objectives may petition for Independent Study:
1. If the course is offered during the petition semester;
2. If the course is appropriate for this method of instruction, and
3. If the petition is approved by the specific instructor teaching the class, the discipline dean and the vice president of instruction.

Military Credit: Coastline recognizes that U.S. Service members receive intensive training and educational instruction unmatched by many others in our society. Coastline will award a maximum of 40 units of credit for military training and experience as recommended by the American Council on Education (ACE).

- Military transcripts are evaluated to verify credit applicable to a degree. Transcript documentation includes JST (Joint Service Transcript), DD 295 and DD 2586.
- Military credits may count towards general education, major, areas of emphasis, certificate, and elective credits and are applicable to an associate degree at Coastline.

Work-based Learning: Students pursuing any vocational major at Coastline may earn elective credit for learning on the job through a planned program of goal setting, site visits and evaluations. Concurrent enrollment in Coastline's vocational classes is required. For further information, contact the Work-based Learning office at (714) 241-6209.

Classification of Students

Students are classified as follows:
Freshman: A student who has completed fewer than 30 units
Sophomore: A student who has completed 30 or more units
Part-time: A student carrying fewer than 12 units per semester (for Summer session, fewer than 6 units)
Full-time: A student carrying 12 or more units per semester (for Summer session, 6 or more units)
Enrollment Status for Reporting Purposes:
Full-time: A student carrying 12 or more units per semester (for Summer session, 6 or more units)
Three-Quarter time: A student carrying 9 to 11.99 units per semester (summer excluded)
Half-time: A student carrying 6 to 8.99 units per semester (for Summer session, 3 to 5.99 units)
Less Than Half-time: A student carrying .5 to 5.99 units per semester (for Summer session, .5 to 2.99 units)

Course Repetition
In accordance with Title 5, sections 55024, 55040-55045 only courses which fall into the following categories may be repeated. Enrollment in two sections of the same course in the same term or part of term is not permitted.

Repetition of Activities Courses—Families of Courses
New regulations governing the repetition of credit courses in the California Community College system have eliminated repeatability in Dance, Drama, Physical Education, Visual Arts, and most Music courses. Intercollegiate Athletics and some Music courses that are required for transfer programs will be the only courses that will remain repeatable; all other courses previously offered as repeatable will be offered as one time enrollment courses.

While students will not, in most cases, be allowed to repeat active participatory courses in Dance, Drama, Music, Physical Education, and Visual Arts, you will still be allowed to enroll in a series of active participatory courses that are related in content (commonly referred to as a family of courses) a maximum of four times. This is a state regulation and applies to all Dance, Drama, Music, Physical Education and Visual Arts activity classes in the District.

For example, all Ballet courses are part of the “Ballet Family”. Repeatable courses that are related in content and taken prior to FALL 2013 will count toward the four enrollment limitation. Therefore, the “Ballet Family” includes Dance C110 Ballet 1 and Dance C115 Ballet 2. A student who previously enrolled in Dance C110 twice can only take two more courses in the family; a student who previously enrolled in Dance C110 four times may not take any additional courses in the family.

A family of courses may include more than four courses, but students are limited to a maximum of four courses in any family, in the District. Further, all grades, including “W”s, will count toward the four course enrollment limitation and for computing the grade point average (GPA). Students can repeat Art, Dance, Drama, Music, and PE courses that are included in Families of Courses in which a “NP”, “D”, “F” grade was earned or “W” was assigned; however, all enrollments count toward the 4 enrollment maximum for each family of courses.

Repeating Courses
It is possible to repeat a class only in certain circumstances as follows:

1. In the course description in the catalog, the class is identified as eligible for repetition; or
2. The class is eligible for grade remediation by repetition.

Students are limited to three (3) total enrollments for most credit courses. Students will not be allowed to repeat a course more than three times without documented evidence of extenuating circumstances. ‘W’ grades are counted as enrollments.

3. Special classes which meet the needs of students with a documented disability may be repeated in compliance with Title 5, Section 56029, of the Education Code.

Reasons to Repeat a Class:

A. Repeating a course in an effort to alleviate a substandard grade; Students who receive substandard grades (“D,” “F,” “NP” or “NC”) and/or one or more Withdrawals (“W”) on the transcript may attempt to successfully complete the course up to a total of two additional times within the Coast Community College District, if necessary to alleviate the substandard grade or successfully complete the course.

After the third attempt to receive a passing grade in a course, the student may complete the Petition to Repeat form and submit to the Admissions and Records Office for one additional attempt. Petitions are only considered for documented extenuating circumstances. Students who withdraw and receive a “W” on each of the three allowable attempts, if by petition the student is given permission to enroll, the students will not be able to withdraw from the course again and an evaluative grade symbol will be recorded. NO FURTHER ATTEMPTS WILL BE PERMITTED.

If the substandard grade is repeated within the Coast Community College District, the Repeat/Delete grade exclusion will be automatically performed on the student’s academic transcript. The grades in the latest term will be the grade which will be used to calculate grade point average regardless of which grade was higher. Although the previous grade(s) will not be counted in the grade point average, they will remain visible on the transcript and the last recorded attempt is the course which will be counted in the student’s permanent academic history.

When a student repeats an equivalent course in which a substandard grade outside the Coast Community College District at a regionally accredited college, they must file a Repeat/Delete Request and submit it to the Admissions and Records Office along with an official transcript from the other college showing successful completion of the course.
B. Repeating a course due to a significant lapse of time, where a passing grade (CR or P) or C or better was previously earned. A significant lapse of time is defined as at least five years. All coursework shall remain on the student's permanent record. The previous grade and credit will be disregarded in computing the GPA. Course repetition based on significant lapse of time may only occur once. (documentation must be submitted)

C. **Extenuating Circumstances** - verified cases of accidents, illness, or other life changing event beyond the control of the student that prevented you from doing well in the course (must submit documentation);

D. The course you wish to repeat is part of a legally mandated training as a condition of continued or volunteer employment. Regardless of whether or not a substandard grade (D, F, NC, or NP) was previously earned, the grade and unit credit shall be included each time for the purpose of calculating the GPA. (Documentation must be attached to certify that course repetition is necessary to complete legally mandated training).

E. Repeating a course previously taken at another college. Substandard or non-substandard grades earned at another institution will not be alleviated by repeating a course at Coastline Community College. The grade and unit credit earned will be calculated and averaged in GPA.

Note: Some transfer institutions may elect to include both courses or may choose to use only the first grade taken in their computation of the grade point average to establish entrance requirements.

Note: There is current State and District policy pending regarding changes to the Course Repetition Policy. Please check with the Admissions and Records Office or Counseling for updated information.

### Expenses

**Enrollment Fees:** $46 per unit. The enrollment fee is subject to change by the state legislature.

**College Services Charge (formerly Student Services Charge):** $6 per semester. This charge underwrites many student services, classes and programs. It is not mandatory. A portion of each $6 charge goes to instructional grants and student scholarships. Information about specific programs funded by this charge and requests for waiver of the charge are available and granted only in the Admissions and Records office during the registration period. Waivers must be secured in advance and submitted at the time of a student's initial enrollment.

**Housing:** Coastline maintains no dormitories. Housing transactions must be made individually.

**Non-resident Tuition:** $234.00 per unit + $37.00 per unit Non-Resident Capital Outlay. Students who are not California residents as defined by the Education Code are required to pay the non-resident tuition fee in addition to the fees described above. Active duty military students and their dependents who either are enrolled in the Military Programs administered by Coastline Community College or who are enrolled only in full online classes at any college in the District are exempt from the capital outlay fee. Please note that it is the student's responsibility to prove that he/she is a California resident.

**Materials Fees:** Students may need to purchase materials for classes, as follows:

1. Required instructional materials of continuing value outside of the classroom must be paid for by the student. These are tangible materials that are essential to satisfy course objectives, have value to the student outside the classroom, belong to the student and may be taken home. These materials include, but are not limited to, such items as textbooks, workbooks, syllabi, computer discs, tools, uniforms and canvases. They also include materials, such as clay, that are transformed into materials of lasting value.

   NOTE: Some classes carry a fee for required instructional materials. These fees are for the types of materials described above. When such fees are indicated, the materials for which the fees are levied are supplied at district costs and are sold as a convenience to students. However, students may choose not to pay the fee indicated and provide the materials themselves. Students are warned that they will not be able to complete the requirements of a course if they do not purchase or provide required instructional materials.

2. Students are advised to provide certain instructional materials of an optional nature. These are materials that enhance a student's learning experience in the classroom but are not essential to completion of course objectives.

Parking Fee: $30 per Fall/Spring Semester. $15 for Summer Session. See “Parking Regulations” found in the Parking Regulations section of this catalog.

Health Services Fee: All students enrolling in one or more courses are required to pay the Health Services Fee of $10. This is a mandatory fee unless the student presents a waiver. Students who qualify for a waiver are:

- Students who depend solely upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization. Call 1 (714) 241-6176 for information.
- Students enrolled only in courses of two weeks or less in duration.
- Students enrolled only in non-credit courses.
- Students enrolled in an approved Study Abroad Program.
- Students enrolled in an approved apprenticeship training program.

Expenses for Military & Contract Education Programs: Coastline has a number of agreements with employers and private entities to provide specialized educational opportunities to their employees or other designees. Fees will be assessed according to the respective agreements in place between the college and entity for students opting to enroll in these programs.

Coastline offers online and other distance learning education programs specifically designed to meet the unique needs of military and corporate students and clients. With approval of its Board of Trustees in 2000, Coastline established an ancillary program specifically designed to meet the unique needs of active duty servicemembers and adheres to Service-specific educational program practices, requirements, contracts, and MOUs.

Our Military Program incorporates a dedicated team of faculty and staff experienced with serving the military community, a set catalog and schedule of 8-week online courses, and assured enrollment for seamless and timely degree completion. Coastline also provides non-Internet-based courses to Sailors at sea through the Navy College Program for Afloat Education (NCPACE). Military Programs are approved for Tuition Assistance (TA), MyCAA Financial Assistance vouchers (military spouses), and Veterans Affairs education benefits. Please visit our website at military.coastline.edu for program-specific information and prevailing rates.

Current program rates range up to $200 per credit hour. Please visit our website at military.coastline.edu, or the respective Coastline-sponsored employer website, for program-specific information and prevailing rates.

### Grading

Student performance is indicated by one of seven grades. Grades, which carry a point value and which are used in determining the grade point average (GPA), are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing-less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
</tbody>
</table>

The grade point average is calculated by dividing the number of grade points by the number of units attempted for the grades of A, B, C, D, or F.

The following grades are not part of the GPA calculation:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>P (formerly CR)</td>
<td>Pass satisfactory, C or better</td>
<td>Unit credit granted</td>
</tr>
<tr>
<td>NP (formerly NCR)</td>
<td>Not passing, less than satisfactory or failing</td>
<td>No units granted</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal</td>
<td>No Units granted</td>
</tr>
<tr>
<td>MW</td>
<td>Military withdrawal</td>
<td>No Units granted</td>
</tr>
<tr>
<td>I, IB, IC, ID, IF, INP</td>
<td>Incomplete*</td>
<td>No Units granted</td>
</tr>
<tr>
<td>NG</td>
<td>Non graded</td>
<td>No Units granted</td>
</tr>
<tr>
<td>RD</td>
<td>Report delayed</td>
<td>No Units granted</td>
</tr>
</tbody>
</table>

*Incompletes were expanded to include the grade that the incomplete will revert to in one year if the student does not make up the coursework with the instructor (i.e., ID= incomplete which will revert to a “D” in one year if the student does not make up missing coursework).

An “E” to the far right of a course on the academic transcript indicates that the grade has been excluded from the GPA calculation. The reason for the exclusion may be notated as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACDRNL</td>
<td>Academic renewal</td>
<td>Repeated substandard grade</td>
</tr>
<tr>

</tr>
<tr>
<td>UR</td>
<td>Unauthorized repeat</td>

</tbody>
</table>

### Other Notations

- **APL** = Assessment of Prior Learning
- **CE** = Credit by Exam
- **(I)** = Course taken during Winter Intersession
- **(H)** = Honors Course

### Grading Options

Optional Pass/No Pass or grade classes.

In these courses, students may elect to receive either a traditional letter grade of “A” through “F” or Pass/No Pass for the course. This choice must be made by the
same deadlines as last day to drop without a “W,” which is printed on the Student Class Program (Web Schedule Bill) through MyCCC.

Pass/No Pass grading option:

Students who enroll in courses designated “graded or pass/no pass option” may change the grade by logging into MySite, clicking on Add/Drop Classes, then clicking on the Grade Mode for the class they wish to change the grade option.

Once the Pass/No Pass grading option deadline has passed, the grade option cannot be reversed. Therefore, before selecting this option, students should consult with a counselor.

NOTE: In classes graded on this basis, students are held to attendance regulations and academic standards expected in the standard graded courses.

Students are advised to read the following statements before deciding to pursue a course on a graded (“A” to “F”) or Pass/No Pass basis.

- A grade of “Pass” or “No Pass” does not affect a student’s grade point average at Coastline Community College.
- “NP,” “W,” and “I” grades are utilized by Coastline Community College in the determination of academic probation and disqualification. (Refer to college regulations concerning “Probation/Disqualification.”)
- Courses taken at Coastline Community College to remedy an admissions deficiency for the University of California due to poor or incomplete high school preparation are not acceptable if completed on a “pass” basis.
- Students required to complete 60 units of course work with a grade point average of 2.4 prior to transfer to a University of California campus, such as Irvine, must complete at least 42 of these units on a graded (“A” through “F”) basis.
- Some universities may specify that courses required for a major be completed on a standard grade basis (“A” through “F”).
- A grade of “pass” is equivalent to a “C” for purposes of transfer.
- Some universities specify that courses taken to satisfy general education breadth requirements be completed on a standard grade basis (“A” through “F”).
- Some institutions limit the number of units completed on a “pass” basis which are accepted toward the bachelor’s degree.
- Students planning to apply to competitive admissions programs such as the health professions are usually advised to complete the specified preparation on a graded basis (“A” through “F”).

W Withdrawal

Withdrawal is not an automatic process. The student is responsible for officially withdrawing, through the Admissions and Records Office, to avoid receiving “F” or “NP” (no-pass) grades.

Upon entering Coastline Community College, the student assumes the responsibility of completing each course in which he/she is registered. A college student is expected to attend all sessions of the classes in which he/she is enrolled. An instructor may drop a student for excessive absences when the instructor determines that, due to absences, the student may not successfully complete the course. Students who miss the first meeting of the class may also be dropped. Students who are dropped by their instructors for missing the first class meeting or for excessive absences should verify the instructor drop with the Admissions Office in order to avoid grade penalties and to comply with critical drop dates as specified. After a student has been dropped from the class for unexcused absences, appeal for reinstatement will be considered only under extenuating circumstances.

When withdrawing from a class, students should be aware that the following policies apply:

Early Withdrawal

Classes will not appear on a transcript (a “W” will not be assigned) when a student officially withdraws during the first two (2) weeks of full semester (16-week) fall or spring courses, and 20% of all other length courses. Students should refer to their “Student Class Program, Web Schedule Bill” for specific course deadlines.

Other Withdrawals

A “W” will appear on a transcript for official withdrawals made between the Tuesday of the 3rd week and the last day of the 12th week for full semester (16-week) fall or spring courses and more than 20% and less than 75% in all other length courses.

MW (Military Withdrawal)

“Military withdrawal” occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol of “MW” is assigned. Military withdrawals shall not be counted in progress probation and dismissal calculations.

Withdrawal after Deadline

Students may petition for a “W” grade after the final limit for “W” only for extenuating circumstances beyond the control of the student, such as verified accident or illness. Petitions must be reviewed and approved by the Grade Review Committee.

I (Incomplete)

An incomplete grade (I, I/B, I/C, I/D, I/F, and I/NP) may be assigned when the course is not completed for unforeseen, emergency, and justifiable reasons, with
Admissions and Registration

physical education. Normally final examinations are given.

Examinations
Final examinations are required in all courses, except physical education. Normally final examinations are given.

NOTE: When unusual circumstances prevail, a petition may be filed at the Admissions and Records Office requesting a reasonable extension of time.

NOTE: Students are not permitted to enroll in a course in which they were assigned an "I" grade. Incompletes must be agreed upon by both the student and the instructor.

Prerequisites, Corequisites and Other Limitations on Enrollment
All prerequisites or corequisites identified in Coastline’s catalog and class schedule were established according to state laws as outlined in the Coast Community College District’s Model Plan. The following information is provided in compliance with those laws.

Definitions: “Prerequisite” means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. “Corequisite” means a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course. “Advisory” means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Challenging Limitations on Enrollment
Closed classes without prerequisites or corequisites: For courses that do not have prerequisites or corequisites, students may attend the first class meeting and ask the instructor for permission to enroll in class.

Closed classes with prerequisites or corequisites: For courses that do have prerequisites or corequisites, students must have completed all prerequisites or corequisites. Students who have not met the appropriate prerequisites or corequisites and who complete in-class registration may not be officially enrolled or may be involuntarily dropped from the course.

Open courses with prerequisites or corequisites: Students may challenge prerequisites or corequisites based on the types of challenges listed below, which are established by law. It is the student’s responsibility, however, to provide satisfactory evidence that the challenge should be upheld.

Defnitions:

"Prerequisite" means a condition of enrollment required to meet before or in conjunction with enrollment in a course or educational program.

"Corequisite" means a condition of enrollment consisting of a course that a student is required, or advised, to take in order to enroll in another course.

"Advisory" means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Grade Challenge Policy
The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. A student who has been assigned a final grade which he/she believes to be incorrect may file a Grade Challenge Petition form obtained from the Office of Admissions and Records. All grade challenges must be made by the student, in writing, within two years after the end of the semester in which the grade in question was assigned. Grade challenges filed after the two-year deadline will not be reviewed.

Examinations
Final examinations are required in all courses, except the last week of class. No student will be excused from these examinations. Students must be in attendance at Coastline Community College for the entire semester and must take the final examination to receive credit.

IP (In Progress)
The “IP” (In Progress) grade indicates that the class extends beyond the normal academic term. It indicates that work is “in progress” but assignment of a final grade awaits completion of the course. The “IP” symbol remains on the student’s record and is not used in calculating units attempted or grade points. The appropriate evaluative grade, units, and grade points are assigned and appear on the student’s record for the term in which the course is completed.

Note: There are very few classes at Coastline Community College that qualify to use the IP grade.

NG (Non-Graded)
The NG symbol is assigned to non-graded courses.

RD (Report Delayed)
The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the student’s control. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD will not be used in calculating grade point averages.

Grade Challenge Policy
The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. A student who has been assigned a final grade which he/she believes to be incorrect may file a Grade Challenge Petition form obtained from the Office of Admissions and Records. All grade challenges must be made by the student, in writing, within two years after the end of the semester in which the grade in question was assigned. Grade challenges filed after the two-year deadline will not be reviewed.

Examinations
Final examinations are required in all courses, except
Authorized Grounds for Challenge (Title V—Section 55201): Colleges are required to notify students about the types of challenges that are established by law, and to advise students of the circumstances under which they are encouraged to make a challenge.

Any prerequisite or corequisite may be challenged by a student on one or more of the grounds listed below. The student shall bear the initial burden of showing with documentation that grounds exist for the challenge. Challenges shall be resolved in a timely manner, and, if the challenge is upheld, the student shall be permitted to enroll in the course or program in question. Grounds for challenge are:

1. The prerequisite or corequisite has not been established in accordance with the District’s process for establishing prerequisites and corequisites;
2. The prerequisite or corequisite is a violation of this article;
3. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
4. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite;
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available; and
6. Such other grounds for challenge as may be established by the District governing board.

Coastline has established all prerequisites or corequisites in full compliance with the District’s process for establishing prerequisites and corequisites. The existing prerequisites and corequisites are not in violation of state law. The District has not established any grounds for challenge other than those already permitted by law. Therefore, students are not advised to challenge a prerequisite or corequisite based on items 1, 2, or 6 above. Coastline students are encouraged to submit their official transcripts as documentation of prerequisite or corequisite completion at the time of registration. The transcripts will usually indicate which completed coursework from other colleges is equivalent to the prerequisite or corequisite. This action will avoid the need to file the Prerequisite/ Corequisite Challenge Petition.

Student Rights to Appeal: If a challenge is denied based upon the determination of one person and not a committee, the student has the opportunity to appeal to the Dean of Counseling and Matriculation.

How To Prepare for Proper Course Placement, Registration, and Educational Planning (Student Success and Support Program)

Student Success and Support Program

Student Success and Support Program intends to help students achieve their educational goals through core matriculation services as well as support services that are necessary to assist students meet their personal, academic, and career objectives. All students, unless exempt, are required to participate in English and Math Assessment Testing, Orientation, and Academic Advising. The College also provides follow-up services to evaluate the academic progress of students and to provide additional resources as necessary. Other support services are also available to those students who qualify for them. Effective Fall 2014, Student Success and Support Program regulations require that students complete testing, orientation, and creation of an informed educational plan in order to receive priority registration. Students who believe they are exempt or would like to file an appeal may contact the Admissions and Records Office located at the College Center.

Exemptions

Some students may be exempted from assessment, advisement/orientation, and counseling if they meet one of the following criteria:

1. Completed an A.A. degree or higher at an accredited United States college or university.
2. Completed 30 or more units at an accredited United States college or university.
3. Completed 15 or more units with a cumulative GPA of 2.0 or higher along with official evidence of one of the following:
   - Verified completion of college level course work in English, writing, and mathematics (Intermediate Algebra or higher) with a grade of “C” or better.
   - Evaluation of learning skills (placement testing) from a California Community College within the last two years.
   - A score of 3, 4, or 5 on the Advanced Placement Examination in English Composition.
   - A passing score on the California State University English Equivalency Examination
4. Concurrently enrolled K-12th grade school student attending with the recommendation of the school principal.

Assessment and Placement Test Requirements

Placement testing for English and mathematics is required for all non-matriculated students prior to enrolling in courses. All students must either place into a course or successfully complete the prerequisite prior to enrolling. Students may not register in a course level higher than what is indicated on their placement test results. Coastline Community College, in compliance with California Community College State Chancellor's Office regulations, has validated the assessment process used to place students and found it to correlate highly with a student’s ability to perform at the level indicated. However, the College recognizes that, on occasion, the assessment process is not always the only indicator to determine a student’s placement, and in some cases, other factors
may need to be considered. Therefore, students may submit an appeal for review for consideration of higher placement if they believe their placement is inaccurate. Appeal forms are located in the Admissions and Records Office and must be made prior to enrolling in the course. Since the standard English test may not accurately measure non-native English speakers’ reading, writing, and speaking skills, the College recommends that non-native English speakers take the ESL Assessment Test, which can correctly place the student in ESL or English courses.

Contact the Assessment Center in the College Center for information about scheduling an appointment for placement testing.

**Priority Registration Policy**

Enrollment priority is the process used to determine the order in which students will have the opportunity to register for classes. Recognizing that each college serves a unique student population that may have differing needs, the development of specific registration priorities for some student groups will be done at the college level in accordance with District procedures. The Coast Community College District is committed to the philosophy that all students should have fair and equitable access to courses and programs within the resources of each college and in accordance with State Education Code, Title 5 provisions, and guidelines adopted by the Board of Governors. Further, the District believes that students should be able to progress toward their stated educational objective in a timely manner. The primary mission of the District colleges is to provide Degree, certificate, and transfer programs. Therefore, priority is extended to matriculated students who have demonstrated satisfactory academic progress toward their declared educational objectives in these areas.

Effective fall 2014 registration and forward, the registration priority will be according to the framework of Administrative Procedure (AP) 5055. Board Policies and Administrative Procedures are available on the Board Policy section of the Coast Community College District (CCCD) website at www.cccd.edu. Please contact Admissions and Records Office for additional information.

**Important Things to Remember:**

- Only students who complete placement testing and orientation and have a Student Education Plan (SEP) on file will be eligible for priority registration
- Once students have completed 100 or more units, they will lose their registration priority
- Students must remain in good academic standing to receive priority registration each semester

**Tips to Keep in Mind:**

- Don’t take unnecessary courses (courses not on your approved Student Education Plan). Adding these units to your records will increase your chances of losing registration priority and/or losing financial aid.
- Do your best to keep your grade point average (GPA) at 2.0 or higher. Seek help from the Student Success Center if you feel you are falling behind.
- If you haven’t already done so, make an appointment with a counselor for a Student Education Plan (SEP).

**Registration**

**On-Line Registration:**

On-line registration is by assigned appointment. Registration appointments are assigned to students one to two months prior to the first day of the registration cycle for the upcoming semester or session. This includes continuing students as well as new and returning students (applicants). Any student who applies and is admitted for the semester or term will have access to the MyCCC portal for all registration, fee payment and withdrawal transactions.

**In-Person Registration:**

Students who are unable to register using MyCCC or choose not to do so can enroll in-person on a space available basis beginning the first week of the semester or session. NOTE: Class availability will be very limited for students who choose to wait for the in-person registration period.

**Late Registration:**

Late registration for all classes begins the first day of the semester or session. During the first two weeks of class (spring and fall semester), students may register only with the instructor's permission. In order for a student to receive a late add during the second week, he or she must have been in attendance the first week of class. Students will not be permitted to register after the second week of class. Check the college website or the class schedule for registration deadlines. Students should be aware that missing the first class meeting or meetings may severely affect their chances to succeed in the course.

NOTE: Students entering classes late are responsible for making up missed work and are responsible for all fee and refund deadlines associated with each class section. Students who are permitted to add after the refund deadline will not be eligible for a refund if the class is dropped.

**Physical Examination:**

A physical examination is not required to enroll at Coastline Community College.

**Eligibility for Courses and Programs:**

A student may enroll in any course offered at Coastline Community College. However, a physical examination is not required to enroll at Coastline Community College. The Coast Community College provided prerequisites for the course have been met.

**Waitlists:**

Waitlists may be available for most classes. If you add yourself to the waitlist and a seat becomes available you will be notified by email and will have 24 hours to add the class via MyCCC. Waitlist email notifications are sent to the Coast District assigned student Gmail account (username@student.cccd.edu). The link to your Gmail is
found on your Home tab within your MyCCC. (Students with current Cell Phone numbers will also receive a text notification).

Closed Classes:
Classes with a “C” next to them on the searchable online class schedule indicate that the class is closed (full). If the class in which you wish to enroll is closed, don’t give up!

1. Go for the sure thing! Try to find another CRN of the course that may still have seats available OR
2. If there is a waitlist option, place yourself on the waitlist. If a seat becomes available you will be notified by email and will have 24 hours to add the waitlisted class. All prerequisites and corequisites must be met. You can monitor your waitlist position by logging into your MyCCC and clicking on “Detail Schedule with Waitlist Position” from the student tab. It is suggested you log into your MyCCC and check your Coast District assigned Gmail account at least three times a day to reduce the chance of missing the email notification for the waitlist. For step-by-step instructions on how to add a course with a waitlist notification, refer to the MyCCC reference guide posted on the CCC website.
3. If waitlists are not available, check back to see if a seat may have become available due to a student withdrawal or due to a student being dropped for nonpayment of fees. OR
4. If the class you want does not reopen before the semester begins, or if you are unable to place yourself on the waitlist because it is full, does not exist, or you are not eligible to do so, you may still go to the first class meeting. If space is available, the instructor may give you an ADD PERMIT with an Add Authorization Code (AAC). The AAC will allow you to register online MyCCC for the course prior to the “EXPIRES” deadline using the online registration system. However, please be aware that most instructors give priority to students who are already on the waitlist.

Please Note: A student must have a registration appointment to be able to register online using their MyCCC account.

Refund Policy and Procedure
In Accordance with California State Regulations and Coast District Policy, registration fees will be refunded according to the following:

Enrollment fees, Non-Resident Fees, Material Fees: 100% refund of fees paid at registration for each class dropped by the refund deadline. No refund will be made after the refund deadline. There are no exceptions.

Health Fee, College Service Charge: 100% of the fees paid at registration will be refunded if the student totally withdraws from all classes by the refund deadline for each class. No refund will be made after the refund deadline. There are no exceptions.

Parking Permit:
Return the parking permit (if purchased) in person or by mail. The Parking Permit must be postmarked or returned to the Public Safety Office on or before the earliest refund deadline on your official Student Class Program, which is available via the student tab on your MyCCC portal.

To Be Eligible For a Refund:
Students must officially withdraw from classes by the refund deadline. Refer to the Student Class Program/ Web Schedule Bill on the Student tab of the MyCCC portal page or see Dates to Remember. It is the student’s responsibility to officially withdraw from classes and to verify all withdrawals. An instructor may drop students for non-attendance. Instructors are not responsible for making sure drops are made by the refund deadline. If the student has not been dropped from the class by the instructor, the student is responsible for withdrawing from the class by the refund deadline. Students who are officially enrolled in a class after the refund deadline will not be eligible for a refund. There are no exceptions.

Refund Processing:
Refunds will be automatically processed every week beginning the first week of registration of the semester in which the fees were paid and each week thereafter until the end of the term. Official withdrawals made in accordance with the refund policy and by the withdrawal deadline will generate a credit balance on the student account.

Online Credit Card Payment Refunds:
Registration fee payments made by credit card through MyCCC will be refunded to the same credit card used for payment. Allow 6-10 business days for the refund to post. If the Credit Card used to pay fees is no longer valid, it is the student’s responsibility to notify the Admissions and Records Office once the credit has been posted to the student’s account and prior to the refund being processed. The refund will be converted to a check refund upon proper notification.

All requests for review of account summary must be made within one-year grace period from the semester in which the fees were assessed. Such petitions are subject to review.

On Campus Payment Refunds
Fee payments posted on campus, by cash, check, money order or credit card, will be refunded through BankMobile as either a check, mailed to the mailing address the Admissions and Records Office has on file, direct deposit to an existing bank account or to a BankMobile account depending on the refund choice made by the student. It is the responsibility of the student to maintain correct and up-to-date address information. Addresses can be updated on MyCCC, under the Student Tab, and then click on Banner Self Service.

Important:
Payments made using multiple payment methods (online credit card payments and cash, check or money order) during the current registration period will be refunded to the credit card used for online payments.
Refund checks will now be issued and mailed by BankMobile.

All students who enroll in classes at Coastline Community College are sent this mailer so that the student may select a fee refund/financial aid disbursement preference. (Concurrently Enrolled High School students will not receive the mailer)

Payments made by credit card online via your student portal will continue to be refunded back to your credit card.

Cancelled Classes
If Coastline Community College cancels a class, registration fees for that class will be refunded. If you purchased a parking decal, it must be returned within two weeks of the class cancellation date.

Returned Checks
Any check returned unpaid (stop payment or insufficient funds) does not constitute automatic withdrawal from class. A check returned from the bank for any reason is subject to a $25 service charge. A hold will be placed on student records for any financial obligation until the obligation is cleared.

Residence Requirements

California Residence:
Generally, California residence is established by one of the following:

1. If the applicant is under the age of 18, his or her parents must have had legal residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester or summer session.

2. If the applicant is 18 but not yet 19 years of age, the applicant and the applicant’s parents or legal guardian must have residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester or summer session.

3. If the applicant is 19 years of age or older, the applicant must have had legal residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester.

4. Alien students holding visas that do not preclude them from establishing residency in California must have legal residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester.

It is the responsibility of all students to maintain an accurate address on file with the Admissions and Records Office.

Non-California Residence
The following conditions are applicable regarding nonresident fees:

1. Students who are not residents of California as of the day immediately preceding the first day of the semester or summer session will be required to pay a nonresident tuition and capital outlay fees.

2. Active military personnel are exempt from nonresident tuition fees provided they are in California for a purpose other than attending a State supported institution of higher education.

3. Dependents of active military personnel are granted a one-year exemption from paying the nonresident tuition fee. The one-year period begins on the date the dependent enters California. After the exemption period has ended, dependents will be charged nonresident tuition and capital outlay fees unless they have met the residency intent and durational requirements for a one-year period prior to the residency determination date.

4. Veteran military personnel who were stationed in California for more than one year prior to separation qualify for the non-resident college fee waiver for one year within two years commencing immediately after discharge.

5. Minors (under 18 years of age and not married) will be required to pay the nonresident tuition and capital outlay fees if their parents or legal guardians reside outside the state even though such minors may have lived in California for one year or more.

6. Students who are financially dependent on their parents or legal guardians will be required to pay nonresident tuition capital outlay fees if their parents or legal guardians reside outside the State even though such students may have lived in California for one year or more.

7. Alien students holding visas that preclude them from establishing residency in California may be restricted in their enrollment at Coastline Community College and will have to pay nonresident tuition, capital outlay fees.

8. In accordance with Education Code 68130.5 (AB 540), other than nonimmigrant aliens, students who meet all of the following requirements may be exempt from paying the nonresident tuition capital outlay fees.

a. Attendance in a California high school for three or more years. Copy of High School transcript must be submitted to the Admissions Office.

b. Graduation from a California high school or attainment of the equivalent prior to the start of the term. Copy of High School diploma or equivalent required.

c. Students without lawful immigration status must have filed an application to legalize their immigration status or will file for lawful status as soon as they are eligible to do so. The student is required to submit an affidavit with the college admissions application to verify that the student has met all conditions described above.

Note: Students who are nonimmigrant aliens (e.g., F series student visas or B series visitor visas) are not eligible for this AB 540 exemption unless they have
applied to INS for a change of status to other than nonimmigrant status and meet all other requirements for the exemption.

9. In accordance with SB 141, Coastline Community College will exempt from nonresident tuition, a nonresident student who is a U.S. citizen and who resides in a foreign country, if that student meets all of requirements of the bill. Contact the Residence clerk for a list of requirements.

10. In accordance with AB669, a student who currently resides in California and is 19 years of age or under at the time of enrollment, who is currently a dependent or ward of the State through California’s child welfare system or was served by California’s child welfare system and is no longer being served either due to emancipation or aging out of the system, may be entitled to resident classification until he or she has resided in the State the minimum time necessary to become a resident.

Non-resident Tuition: $234.00 per unit + $37.00 per unit Non-Resident Capital Outlay. Students who are not California residents as defined by the Education Code are required to pay the non-resident tuition fee in addition to the fees described above. Please note that it is the student’s responsibility to prove that he/she is a California resident.

Incorrect Classification
A student incorrectly classified as a California Resident is subject to reclassification as a nonresident and payment of nonresident fees. If incorrect classification results from false or misleading statements, the student will be responsible for any fees associated with the incorrect classification.

Reclassification
Reclassification to resident status must be requested by the student. The appropriate Statement of Residence form along with the required proofs that establish both physical presence (minimum requirement of 12 consecutive months prior to the residency determination date) and intent to make California their permanent home must be submitted to the Admissions and Records Office prior to the term in which the student wishes to establish residency. Although a minimum of two proofs are required for residency reclassification consideration, the burden of proof remains in the hands of the requestor. Therefore, the Admissions and Records Office reserves the right to request additional documentation in its efforts to determine California Residency for tuition purposes. For additional information, contact the Residency Specialist in the Admissions and Records Office.

International Students: Coastline is authorized by the United States Immigration Naturalization service to enroll International Students (F-1).

The faculty, students, and staff of Coastline believe that our international students provide an ethnic and cultural diversity to the college and help increase the awareness and understanding of students from other countries and cultures. Conversely, we provide an opportunity for our international students to study in the United States and learn about us and our culture. Coastline uses multiple instructional sites in the community as classroom locations. Based on this, foreign students are reminded to make appropriate arrangements for transportation to and from classes.

Interested International students should request applications from:
Coastline Community College
Attn: International Students Admissions
11460 Warner Avenue
Fountain Valley, CA 92708

The following are entrance procedures for international students requesting F-1 status:

- Our rolling admissions process allows for acceptance to Coastline during the Fall and Spring semesters. Applicants outside the U.S. should apply at least two months prior to the start of the term. Approximate start dates: fall, in late August and spring, in late January. We recommend early application for the best selection of classes.

- International applicants must complete an international student admission packet including:

  1. International student application
  2. A $30 non-refundable application fee, in U.S. dollars (check, money order, cash, or credit card) must be submitted with the application. Note: Effective spring 2015, the application fee will increase to $55.00.
  3. International Student Financial Support Information Form
  4. Bank Certification Form
  5. All evidence of high school graduation or higher must be submitted. The “official” transcripts of the original records must be accompanied by a notarized English translation.
  6. TOEFL score: A minimum score of 500 (paper based) or 61 (computer-based) in order to be accepted into the regular college program. Students who plan to enroll in the English as a Second Language (ESL) are not required to take the TOEFL test. However, students are strongly encouraged to provide TOEFL or equivalent scores for appropriate placement purposes. To make arrangements to take the TOEFL, write to TOEFL, Educational Testing Service, P.O. Box 592, Princeton, New Jersey 08540. International students must designate Coastline (Institution Code 004086) as the recipient of the test results.
  7. Notice of Intent to Transfer if transferring from a college in the U.S.
  8. International students are required to purchase medical insurance approved by Coastline Community College during their entire course of study.
9. International students must complete 12.0 or more units each semester with at least a 2.0 GPA while pursuing their selected academic goal.

10. International students pay nonresident tuition during their attendance at Coastline.

Admission materials received from international applicants remain active for 12 months after their submission. If the international applicant does not register during that 12-month period, the materials are destroyed.

Students Holding Visas Other Than Student (F-1) Visas: Aliens holding valid visas that are otherwise eligible for admission may enroll in classes provided that they are proficient in English and their visas do not expire before the end of the term for which they are enrolling. Contact the Admissions & Records Office for information concerning specific enrollment restrictions.

An alien who is precluded from establishing domicile in the United States shall not be classified as a resident unless he or she has been granted a change in status by the U.S. Citizenship and Immigration Services (USCIS) to a classification which permits establishing domicile and has met all other applicable residency requirements. Aliens considered to be nonresidents are required to pay the nonresident tuition charge and are not eligible for tuition exemption (Education Code 68130.5).

Coast Community College District Residence: In order to attend Coastline, an applicant must meet the California residence requirements.

This notice has been prepared in accordance with Education Code Section 25505.5 and shall remain in effect until further written notice.

Student Records

Active Records: Most requests for changes to a student’s current class program or information can be done online by logging into MyCCC or in the Admissions and Records Office. Included are “adds” to program, “withdrawal from class,” “fee payments,” and “address changes.” Name changes must be done in person in the Admissions & Records Office. If changing a name, official documentation must be presented at the time of the request.

Transcripts: Transcripts of academic work taken at Coastline Community College are available upon official request. Students make their requests online through Credentials, Inc., on the Coastline’s website, www.coastline.edu/.

Two transcripts and/or enrollment verifications will be provided free of charge. For each additional transcript there will be a charge of $5. Students may request “rush” (next day) services for an additional $5 per transcript or verification. Fees are subject to change. In accordance with Education Code provision 72237, transcripts will be withheld from students and former students who have outstanding financial or materials obligations to the college and/or district or who have unresolved matters related to student discipline.

Cumulative Folders: The Admissions and Records Office maintains an electronic cumulative file on each student who has records sent to the College. The file, containing copies of high school and college transcripts and other relevant academic information, such as records of military service and other awarded credit, is available to the student. These files are the property of the college.

Verifications: The Admissions and Records Office will provide information regarding a student’s records upon written student request. There is a $3 charge. Two verifications and/or transcripts will be provided free of charge. This fee is subject to change. Coastline Community College also utilizes the National Student Clearinghouse for reporting of enrollment status. Enrollment status is reported automatically several times during the semester or session.

Student Picture Identification: Students may be required to furnish picture identification in order to participate in certain classes and activities. Photo I.D cards are issued in the Admissions & Records Office during the student’s first semester and validated each semester thereafter after verification of enrollment and payment. Students are only allowed one replacement during their studies at Coastline Community College.

Withholding of Student Records (AP 5035)

The College Admissions and Records Director shall withhold grades, transcripts, diplomas, and registration privileges from any current or former student who fails to pay a proper financial obligation to the District. The student shall be given written notification and the opportunity to explain if the financial obligation is in error.

The definition of proper financial obligation shall include, but is not limited to: student fees; obligations incurred through the use of facilities, equipment, or materials; library fines; unreturned library books; materials remaining improperly in the possession of the student; and/or any other unpaid obligation a current or former student owes to the District. A proper financial obligation does not include any unpaid obligation to a student organization.

Extended Learning Division
The Extended Learning Division is an entrepreneurial/ancillary wing of the College. Extended Learning designs, develops, and offers programs and services that meet the unique needs of government, military, and business communities—locally, nationally, and internationally. The division also provides critical support to the college’s innovative technology research, development, and deployment of systems and solutions.

Extended Learning programs are typically fee-based and facilitated under specific contracts, special agreements, or memorandums of understanding. Programs and services may be customized or adapted and developed from existing college programs to meet client and student needs. Services may be delivered at a location chosen by the client, at one of our four sites in Orange County, on military installations nationwide, at international locations, or remotely through our distance learning programs.

Extended Learning proudly operates the Military Programs that serve active-duty servicemembers, veterans, and their families worldwide, primarily through distance learning modalities and on military installations. The division is also home to Coast Learning Systems (CLS). CLS has an outstanding reputation for the development of sophisticated, integrated learning systems including text materials and online interactive course content. CLS has produced more than 50 courses used by more than 750 higher education institutions worldwide, and CLS has been the recipient of 20 Los Angeles-area Emmy Awards for Instructional Design and Production Quality.

Extended Learning has expanded its entrepreneurial efforts. Capitalizing on the capabilities and experience of CLS in instructional design, content development, production, and delivery, Expanded Learning is now developing customized training programs for business and industry. Recent partnerships have included the California Community College State Chancellor’s Office, Long Beach Fire Department, and George B. Woodcock & Co.

Instruction

Coastline offers a comprehensive education program at times, places, and in formats designed to serve the diverse needs of its students. The College’s instructional program includes a full range of courses leading to an Associate degree and/or a transfer to a four-year institution; more than 25 occupational programs preparing students to enter into or advance in the workplace; courses in basic language and mathematics skills to help students prepare for college studies or employment; special programs for students with disabilities; and a wide range of courses for those wishing to broaden their general education and acquire special skills and knowledge needed in today’s fast-changing world.

Coastline offers several programs designed to serve the needs of specific community groups. The College’s English as a Second Language (ESL) helps nonnative speakers acquire the necessary communication skills needed for daily living, employment, and college study. The Student Success Center provides an opportunity for all students to improve their English and math proficiency and to review their skills before taking the college placement tests. Special Programs & Services for the Disabled offers an Acquired Brain Injury (ABI) Program and programs for students with intellectual disabilities. Coastline STAR Program classes are on track for transfer to a four-year university. The STAR Program offers majors in Business, Psychology, and Health Sciences, with guaranteed enrollment in needed classes. Students can achieve transfer-readiness in two years.

Courses are offered both onsite and online via distance learning to accommodate the busy schedules of Coastline students, most of whom are employed full or part-time while attending college. Coastline also provides courses onsite at local businesses and large companies for the convenience of their employees. These programs are developed for the employer on a fee basis to meet their individual needs via Coastline Contract Education.

A leader with more than three decades of experience, Coastline’s Distance Learning Department offers a comprehensive selection of distance learning courses for Coastline students to earn college credit and even complete Associate degrees and certificates with convenience and flexibility. Distance learning courses are offered through a variety of delivery methods. Each distance learning course is academically proven, well-produced curriculum developed by college faculty, often with the help of scholars, practitioners, and instructional design specialists. Students interact with their instructors by telephone, fax, email, electronic bulletin boards, chatrooms, web conferencing, or in person. Internet Courses enable students to complete course work online anytime, anywhere! The course websites feature text lectures, video clips, sound files, images, site links, assignments, online quizzes, instructor interaction, and discussion forums for teacher-to-student and student-to-student interaction. Textbooks, as well as possible multimedia and video materials, are required to complete the Internet courses. Examinations are conducted online or are proctored onsite. Telecourses and Cable TV courses are pre-produced video lessons broadcast over Coastline’s local cable TV station. Students can watch the lessons as they are aired, record lessons to watch or repeat at a more convenient time, or watch the lessons at one of the Coastline Learning Centers. Students also read text books, complete course assignments, and mail or fax coursework to instructors. Students can also buy DVDs of Telecourses and Cablecast courses for their viewing convenience from the Coastline bookstore onsite or online. For both, the instructor administers examinations onsite or through proctors near the student’s location. Independent Study Courses are specially prepared with course materials including reading materials, text books, study guides, self-paced assignments, and other materials. Students can interact with their instructor by telephone, fax, email, electronic bulletin boards, chat rooms, or in person. Examinations are administered by the instructor or a proctor on-site. Coastline’s Distance Learning Department schedules more than 300 courses each fall and spring term and many courses in the summer which meet general education requirements for a degree or certificate. Many of these courses are fully transferable to the California State University and University of California systems.

Coastline’s faculty is comprised of more than 300 highly qualified, credentialed, full- and part-time career educators, and community professionals. The faculty and staff welcome the participation of all community members in developing an educational program relevant to today’s world.

In addition, students have full privileges at Golden West College and Orange Coast College Learning Resource Centers, at several public libraries, and access to Coastline’s Virtual Library System at www.coastline.edu/library.

Coastline’s goal is to provide comprehensive and state-of-the-art instruction which meets the special needs of the communities it serves.

Educational Options in California

**Vocational Certificates**
Major courses ONLY. Number of units required varies. A series of special major courses, all related to a particular occupational skill. Offered by community colleges and private educational organizations. Certificates help students prepare for new careers or upgrade current employment skills.

**Associate Degrees**
Major courses plus general education courses and electives, 60 units required. Usually referred to as Associate in Arts (A.A.) or Associate in Science (A.S.) degrees.

**Bachelor's Degrees**
Major courses plus general education and electives, 120-132 total units required. Usually referred to as Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degrees. You may complete the first two years at a community college and then transfer to a four-year university.

**Master's Degrees**
Bachelor’s degree plus graduate courses in a specialized area. Bachelor’s degree units (120-132) plus approximately 36 units. Usually referred to as Master of Science (M.S.) or Master of Arts (M.A.) degrees. Normally requires two additional years full-time work after completion of bachelor’s degree.

**Doctoral Degrees**
Advanced training beyond a bachelor’s or master’s degree. Units vary, depending on field of study. Usually referred to as Doctor of Philosophy (Ph.D.) or Doctor of Education (Ed.D.). Normally requires three to five additional years of full-time work after completion of master’s degree.
## Appendix B: Advanced Placement Chart

### College Credit for Advanced Placement (AP) Tests

Students may earn credit for College Entrance Examination Board (CEEB) Advanced Placement (AP) Tests with scores of 3, 4, or 5. AP credit can be used to meet IGETC, CSU GE and A.A. general Education (GE) and/or major requirements.

Students must have the College Board send AP exam results to the Admissions Office (hand carried copies will not be accepted) for use on the A.A. or GE patterns.

Transfer Students: Course credit and units granted at Coastline College may differ from course credit and units granted by a transfer institution. See the transfer institution’s application of AP major preparation credit.

UC AP major preparation credit: [http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html](http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html)

CSU major preparation credit: see individual CSU campus websites.

### Notes

- **#AB subscore on Calculus BC examination:** Students who take the Calculus BC examination and earn a subscore of 3 or higher on the Calculus AB portion will receive credit for the Calculus AB examination, even if they do not receive a score of 3 or higher on the BC examination.

- **Associate degrees:** Students should be aware that AP test credit is evaluated by corresponding it to an equivalent Coastline College course. A student who receives AP credit and then takes the equivalent Coastline College course will have the unit credit for such duplication deducted prior to being awarded the Associate degree. Advanced Placement exam results and courses for which credit is granted will be posted on a student’s transcript, with units assigned and no grade.

- **CSU GE:** The Advanced Placement examinations may be incorporated into the certification of CSU General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.

- **IGETC:** AP exams must be used in area indicated regardless of where the certifying CCC’s discipline is located.

### Appendix C: CLEP Chart

As directed in Executive Order 1036, Section 1.2.4, the CSU faculty have determined the following passing scores, minimum units of credit earned, and certification area (for General Education Breadth and/or U.S. History, Constitution, and American Ideals) for the enclosed list of standardized external examinations. Note that each campus in the California State University system determines how it will apply external examinations toward credit in the major. For students not already certified in GE and/or American Institutions, the campus also determines how to apply credit from such exams toward the local degree requirements.

Note: * If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered “Level I” and earns six units of baccalaureate credit; the higher score listed for each test is considered “Level II” and earns additional units of credit and placement in Area C2 of GE Breadth, as noted. ** Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.

*A minimum score of 4 is needed for CSU credit*

**CSU GE:** The IB examinations may be incorporated into the certification of CSU General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.
