

RESTROOMS

Follow the general COVID-19 safety practices for all employees and all visitors as well as the following practices specific to restrooms:

Medical Screening. Leave the area and remain at home if you are experiencing symptoms related to COVID-19, test positive, or have been exposed to a known or suspected case.

Physical Distancing. Maintain at least six feet of distance between yourself and others. The greater the distance the better. Minimize the time spent in the area to the shortest time possible. Do not socialize or linger.

Personal Hygiene. Close toilet lids (when present) before flushing. Minimize the surfaces you touch and avoid placing personal items on surfaces. Cover coughs/sneezes and wash your hands before entering and leaving the restroom.

Protective Equipment. Wear a face covering/mask which covers the nose and mouth at all times, unless you are alone and are sure others will not enter (i.e., locked door).

Environmental Cleaning. Restrooms are cleaned/disinfected routinely. Please inform a building/area representative or your supervisor if conditions warrant immediate attention.

Note: These practices are current as of the revision date. Since the COVID-19 pandemic is evolving rapidly, extra diligence should be used in watching for updates to these practices.
