Dear Employer:

The employee presenting this letter to you is a Coastline Community College student enrolled in a Work Based Learning Program.

Work Based Learning is a unique method of instruction which enable students who are employed in a job related to their career goal to earn college units for new learning experiences they obtain in the performance of their job. To qualify, the student must be enrolled in at least three other college units and independently pursue identified learning objectives during the 16-week semester.

Initially, we ask you to assist the student in preparing the performance objectives worksheet. This worksheet must contain a minimum of three measurable learning objectives that will involve the student in new learning activities of expanded job responsibilities related to the student's career goal. Projects above and beyond the normal duties of the employee/student are heartily encouraged.

The employer or supervisor signs the college-approved Student Objectives Form, which is verification that the objectives represent valid learning experiences worthy of academic credit for the student/employee. The Student Objectives Form simply serves as an assessment tool and is not a binding contract. When signed by you, the employee/student, and the college WBL Instructor, it shows your willingness to cooperate with the college and your employee/student in this educational program, barring any unforeseen obstacles.

The WBL Instructor from Coastline Community College will visit you **by appointment** (30 minutes or less) at the end of the semester to ascertain your evaluation of the student's accomplishment of his/her stated goals. It is strongly recommended that the employee/student also be in attendance at this meeting. This contact will allow the college to properly evaluate the student and will provide career and educational guidance to your employee. It is also your opportunity to access the resources of our college programs and staff.

Please call (714) 241-6209 ext. 17306 if you need further information about this program or if you would like any assistance the college may provide.

Sincerely,

Dr. Nancy Jones, Ed.D
Dean of Instruction, Career and Technical Education

Section 2—Writing Your Learning Objectives

Work Based Learning

Start Here...Go Anywhere!

WRITING OBJECTIVES (*see note at bottom of page*)

An objective is simply a statement of what you want to do and should be stated in terms of results. What do you expect to accomplish?

Establishment of Job-Related Performance Objectives:

At the beginning of each semester of Work Based Learning, you are to establish Job-Related Performance Objectives. The objectives should:

- Reflect discussion with your work supervisor of on-the-job activities to be accomplished. These are beyond your regular on-the-job duties.
- Be written so that you can control their completion.
- Be achievable within the semester.
- Relate specifically to your job and/or college major.
- Be specific and measurable.
- Be stated in terms of results you will achieve – not generalities.

Before writing your objectives, you must first prepare your own professional growth plan and rough objectives worksheet.

Your WBL Instructor will help you refine your objectives and complete the statement of job-related performance objectives.

NOTE: For Retail Management Program students: Learning objectives are included in APPENDIX A: RETAIL MANAGEMENT PROGRAM REQUIREMENTS (pg 38) and identified in the BUSC283/4-Work Based Learning Retail Management Certificate Supplement (pg 39-40).

Preparing the Student Professional Growth Plan

Through the Work Based Learning Program, it is necessary that you include new or expanded responsibilities or learning activities beyond those experienced during previous periods of employment.

These new experiences are to be written in an objective format and must be approved by your employer/supervisor and the college Instructor that is assigned to you. The educational value of Work Based Learning will depend on how realistic and meaningful these objectives are.

Simply stated, learning objectives are your plan for learning that will occur on your job. Progress towards meeting these objectives will be the most important factor in determining your satisfactory completion of the course.

The following areas should be explored prior to preparing your objectives:

1. **Routine Duties**—Describe ways to expand, revise, update and develop these assigned responsibilities. Improve your efficiency in completing routine duties. Organize your time and method of doing routine duties. What is the main activity of your department or work area? (Example: During the semester I will develop a system (using the computer or other means) to take over specific routine duties presently being performed by other workers so that these workers can be assigned more meaningful duties.)
2. **Problem Solving**—Take apart some existing problem and find a solution. (Example: Perhaps a number of customers have complained of waiting for service. You seek a solution through a new employee scheduling system or a new way of processing orders. Perhaps equipment is breaking down too often and you seek a solution through an improved maintenance procedure or through a new piece of equipment.) While you may not be in a position to actually make the change, you can go through all the problem-solving steps to be prepared to present your ideas to management.
3. **Personal Improvement**—Develop personal attitudes and attributes that will enhance your human relations skills. (Example: You may improve communication skills with co-workers and supervisor. You would become more assertive in your dealing with vendors.)
4. **Creative Opportunities**—Do things in a new way, investigate strategies that could be implemented which would result in savings of time, costs, etc. (Example: Make a study of the installation of a new bookkeeping system or on the application of a computer to some aspect of company operation, such as inventory control. Prepare a report on the study.)
5. **Career Advancement/New Assignment**—Develop new competencies that would be essential to receive next promotion. (Example: Learn procedures utilized by senior inspectors in quality assurance. Learn competencies necessary for position as senior buyer.)

Student Growth Plan

Name: _____ Job Title: _____

Type of Business: _____

Identifying On-The-Job Opportunities

Identify those parts of your job which offer professional growth or learning opportunities in the following categories:

1. **Routine Duties:** List specific areas for improvement.
(*Example:* expand, revise, update, develop)
2. **Problem Solving Opportunities:** Identify specific problems to be solved with measurable results. (*Example:* analyze, determine, differentiate)
3. **Personal Improvement:** How can human relations be improved on the job? List personal attitudes/attributes which would enhance your career development.
(*Example:* assertiveness, development or verbal communication skills)
4. **Creative Opportunities:** What creative strategies can be implemented which will result in savings in time, costs, etc.?
(*Example:* surveys, comparisons, total quality management processes)
5. **Career Advancement/New Assignment:** What is the next promotion you would like to seriously plan for, either within your company or by moving to another company?

Immediate _____ *Long Term* _____

What are your new opportunities for learning? List competencies which need to be developed in order to achieve a promotion and/or a new job assignment.

Review the above learning opportunities for professional growth. Select four (4) areas which would have the highest priority.
