

(VIET-C180) Course Level SLO & Qualitative Notes

Compare and contrast various aspects of the cultures, beliefs, and world views of the peoples of Vietnamese-speaking countries and regions with those of the United States.

82608-(VIET-C180-001)-Elementary Vietnamese 1
by David Nguyen

This SLO was measured with two Projects, Quizzes (written and oral), Assignments (weekly workbook assignments), a Midterm Comprehensive Exam (true/false, multiple choices, short answers) covering vocabulary, reading comprehension and culture, and a Final Comprehensive Exam (true/false, multiple choice, short answers) covering vocabulary, reading comprehension and culture. 100% of the class received a passing grade, indicating achievement of the SLO.

In every test, there are always two specific features that enable students to have a good grasp of the similarities and differences between Vietnam and the United States: 1. Language: sounds, vocabulary, and structure. Vietnamese is more phonemic than English. Vietnamese vocabulary is synthetic whereas English is more analytical. Both languages have almost similar structure: SVO. 2. Culture: way of thinking and way of acting.

Interpret and appraise beginning-level spoken and written Vietnamese formulated by native speakers and compose and construct oral and written responses.

I will be making some adjustments to the assignment #1 and Extra Credit instructions to make them clearer which I believe will help students better achieve the expected outcome. There were 6 students who did not do all assignments at all and I did not drop them by the drop date which resulted in my statistics being lower than what they should have been for this SLO. Extra Credit is not mandatory.
