### What makes Coastline different?

Imagine classes that come to you. This can be more important than ever when you're on the go. As one of the nation's most **innovative** institutions, Coastline brings classes to YOU with advanced distance learning options, neighborhood campuses located in Garden Grove, Westminster, Newport Beach, and of course, our online campus. In addition, Coastline offers numerous options for degrees and certificates in several popular fields. These programs are in demand by employers. Coastline faculty and staff work hand-in-hand with business and industry to tailor these programs that apply to today's working world.

### Why you still need college today...

A diploma isn't just a piece of paper that signifies the end of a student's journey. It provides a gateway for fresh graduates to land a successful career in any place in the world - even if that place is home - which entails higher income, more advancement opportunities, and better employment benefits. With a competitive job market affected by the pandemic, you can also learn the skills you need to strike out on your own and make your own opportunities.

### Coastline offers you a small-college feel with big-college benefits.

Whether you're looking to obtain a degree or certificate, or obtain the units you need to transfer on to a CSU, UC, or private 4-year college, you'll find that Coastline is your most accessible, flexible, and affordable option.

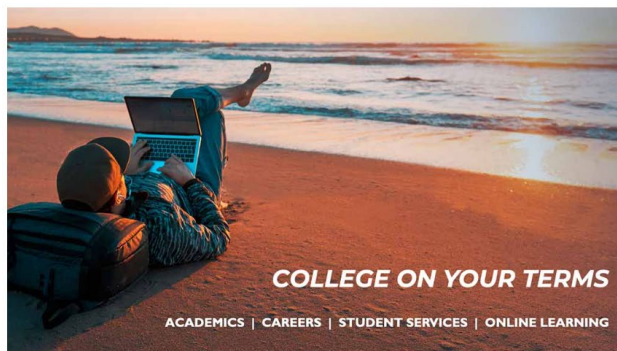

### FAST FACTS

Coastline College is one of California's 115 community colleges in 72 districts, which have a total enrollment of more than 2.6 million students - the largest higher education system in the world. View a snapshot of the college for more details about district communities, students enrolled, and types of degrees and certificates.
