*Note: Computer and Information SCI, General and Information Technology, General have the same 4-digit TOP code (0701). The numbers for these programs are duplicated in the table above.

Table 1 presents a two-year comparison which looks at the job placement rate of CTE program completers that did not enroll in a four-year institution. Based on the 2016-2017 job placement cohort tracking methodology, the findings showed overall job placement rates at 31.8%. The assessment at the program level indicated that 75.0% of the programs met the population inclusion threshold (n-sizes over 10).
