

Coastline College Student Health Services

Beginning with the Fall 2020 semester, after Coastline students pay their health fee to Coastline College they can receive services at the [Golden West College](#) or the [Orange Coast College Student Health Centers](#). (Please note that we no longer have a contract with Memorial Care.)

This is a student health services program to provide general medical evaluations and treatment for acute illnesses and injuries. It is not an insurance plan and was not designed to replace your existing health insurance policy. The care you receive is not meant to supersede or replace your existing primary care physician relationship.

Locations
